BUSINESS MEN MUST MANIFEST INTEREST

SENATOR ALDRICH SPEAKS ON NATIONAL QUESTIONS

Rhode Island Senator Says That Matters Which Are to Come Up Before Congress Are of Vital Importance to Business Men of Country.

New York. — Senator Nelson W. Aldrich, just back from his western trip, was the guest of honor the other night at the 141st annual dinner of the New York chamber of commerce. At the speaker's table with him sat James Bryce, British ambassador; Count John Heinrich Von Bernstorff, German ambassador and other notables.

Senator Aldrich responded to the toast "The Congress of the United States."

He said: "Acting within its unquestioned authority, congress will, in the near future, be called upon to attempt the solution of practical business questions vitally affecting interests of our entire people."

"I should like to impress upon business men of the country the fact that they must share in the responsibility for wise congressional legislation. No class of men is so influential in the creation of public opinion and in our country the character of legislation must be based upon an intelligent public opinion."

"I will mention briefly some of these questions. First, there is a necessity for reform in the character and extent of the of the national expenditures. A recent expert examination indicates that a saving of from 10 to 20 per cent of national expenses can be made, and at the same time greater efficiency obtained, by an application of business methods to government work."

Amendments Are Urgent. "The president has repeatedly called the attention of the country to the urgency of amendments to the interstate commerce act and to the Sherman anti-trust act, to make their restrictive legislation effective in practical operation and at the same time relieving legitimate business from uncertainties and disabilities that now surround them."

"The national monetary commission has an important work. A sound and adequate currency, a stable and efficient banking system are necessary for the continuance of our successful national development."

"Legislative provisions to carry into effect important reforms I have indicated should be submitted to the people for criticism and consideration at the earliest possible moment."

Senator Root vigorously advocated a federal subsidy for American ships, saying that foreign ships could carry commerce between the isthmus of Panama and the Pacific coast points for from \$4.37 to \$7.31 a ton less than our own ships.

"That is an artificial condition," said Mr. Root, "caused by an increase of wages and of the standard of liv-

Hay's Hair Health

GRAY HAIR HANDICAPS YOU IN BUSINESS AND OTHER THINGS. GET RID OF IT, RIGHT AWAY.

Gray hair is an unnatural disfigurement, it is your duty to yourself and your friends to get rid of it as soon as possible. It is a serious injury to you in your social and business life.

Get rid of it, by all means, but don't try to do so by the use of dyes, whose effect is but temporary and unsatisfactory and which may permanently injure your hair.

Use Hay's Hair Health and look young. It isn't a dye—it won't injure your hair and nobody will know you are using it. It quickly and unfailingly restores the natural color and beauty of the hair—brings back its youth, luster, softness and brilliant luxuriance. **\$1 and 50c** Bottles, at Druggists. Send 2c. for books "The Care of the Skin." "The Care of the Hair." **Palo Hay Spec. Co., Newark, N. J. U. S. A.**

PENDLETON DRUG COMPANY.

ing in our own country and, in my judgment, it could not be cured except by abandoning the policy that puts up American wages and the American standard of living, or extending the policy to our ships."

BRING DEAD TO LIFE BY ELECTRICITY

New York.—Dr. Louise G. Robinson, the young Russian woman who came here from France recently and startled medical men of this city with her declaration that she had discovered a way to bring the dead to life, demonstrated to scientific and critical officers of the New York Edison company that she can perform wonders with the electrical apparatus she has perfected.

In the opinion of those who saw the demonstration, Dr. Robinson electrocuted a rabbit and brought it to life again by the rhythmic electric excitations that caused its heart and respiratory organs to resume their functions. She also showed the advantages of electricity as an anaesthetic.

The officials of the electric company considered the results most important because they suggested methods of resuscitating those employees who from time to time are fatally shocked.

President Elliot to Speak

New York, Nov. 23.—It is formally announced today that the twenty-ninth meeting of the National Civil Service Reform league will be held in New York December 9 and 10. On the evening of the 9th President Charles W. Elliot will deliver his annual address. Among the subjects to be discussed are civil pensions, consular reform and the application of the merit system to the higher municipal offices.

FERRER'S DAUGHTER WILL AVENGE MURDER

Madrid.—The eldest daughter of Senor Ferrer, Spanish revolutionist, is reported to have announced her determination to join the enemies of King Alfonso and aid in the attempt to upset the Spanish government.

Francisco Ferrer, who was recently executed for conspiracy, and whose execution caused a furore in Europe, was born about 45 years ago at Alella near Barcelona. He was a pronounced opponent of monarchical principles, and after the failure of the Spanish republic he established himself in Paris as a teacher.

A Mile. Meunier some 10 years ago left him a considerable amount of money with which to further his views

on the subject of education. He established the Escuela Moderna in Barcelona for secular education, employing in this connection Morral, the man who threw the bomb on the day of King Alfonso's wedding. This connection led to Ferrer's arrest and he was detained in prison for a year, but no proofs being forthcoming he was set free, his friends in Paris agitating for his liberation.

Ferrer was arrested as being the prime mover and organizer of the Barcelona riots.

A Religious Author's Statement. Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly strick-

en with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Koeppen Bros.

Can't Run Trains Backward. Detroit, Nov. 23.—An order prohibiting railroads from running their trains backward with cars ahead of an engine has been issued by the Michigan railroad commission, and goes into effect today.

Foley's Kidney Remedy will cure

any case of kidney or bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. Koeppen Bros.

Pittsburg's Birthday. Pittsburg, Pa., Nov. 23.—Pittsburg's birthday will be celebrated by the board of trade with a "Father Pitt banquet" in the Rittenhouse tonight. Several prominent men of this and other cities will respond to toasts.

Foley's Honey and Tar cures coughs quickly, strengthens the lungs and expels colds. Get the genuine in a yellow package. Koeppen Bros.

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her snavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer has been led by the nose, and he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and assimilation are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the ability of the organs of digestion and nutrition and brace up the system, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands tested by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."
