APPLES PACKED IN THREE GRADES

NORTHWEST GROWERS ADOPT RESOLUTIONS

"Extra Fancy," "Choice," and "Orchard Run" Shall Designate Three Grades—Confusion Will Be Avoided and Interests of Industry Advanced.

Spokane, Wash.—Western apples will be packed in three grades in the future, these being named "Extra Fancy," "Choice" and "Orchard Run." The purpose is to protect the buyers and consumers, help the growers and promote the industry.

This was decided at a meeting of 299 growers representing every commercial district in the northwest in the Washington state armory in Spokane on November 17. E. T. Balch, representing the Wenatchee district, was chairman of the committee on rules, the other members being C. H. Sprout, Hood River district; C. E. Whistler, southern Oregon district; J. L. Dumas, president of the Washington State Horticultural association, Walla Walla district, and H. M. Gilbert, Yakima valley district. The following resolution was adopted:

Whereas, It is clearly apparent that the boxed apple growers of the Pacific northwest should work together to mutual advantage for our rapidly increasing industry; and

Whereas, There is great confusion in the naming of the grades in the different districts, mystifying the buyers, shippers and consumers, greatly to the disadvantage of the industry; therefore be it

Resolved, That we, the undersigned committee representing the exhibitors, apple growers and apple shippers of the Pacific northwest, recommend to our various districts,

First—That our apples be packed in three grades.

Second—That said grades be named "Extra Fancy," "Choice" and "Orchard Run."

Third—That where the words "Extra Fancy" are stamped on the box, it shall signify that the apples when packed were sound, uniformly graded, as to size in each box, smooth, practically free from bruises, worms, worm stings or disease, and have reasonably proper shape for the variety, fully matured. All red varieties in this grade shall be at least 50 per cent red, except Spitzburg, Winesap, Jonathan and Arkansas Black, which shall be at least 70 per cent red. Yellow Newtowns, White Winter Pearmain, Grimes' Golden, Bellflower, Ortley, Winter Bananas and Red Cheek Pippins will be allowed in this grade.

Fourth—The "Choice" grade shall consist of each sound, uniformly as to size in each box, free from any breaks in the skin or black bruises, also free from worms or any disease which materially injures the quality of the apple.

Fifth—Where for any reason the grower or packer does not desire to use the "Extra Fancy" or "Choice" grades, we recommend the varieties be packed in one grade, termed "Orchard Run." The apples in this grade shall be practically free from worms or any disease which materially injures the quality of the apple, and shall not be smaller than five-tier or less than two inches in diameter.

It was also decided to publish the rules in pamphlet form for distribution to growers, packers and buyers.

COOK'S DATA READY FOR TRANSPORTATION

New York, Nov. 22.—The data by which Dr. Cook hopes to prove himself the original discoverer of the north pole will be taken aboard the liner "United States" on Thanksgiving day for Denmark, where it will be passed upon by the faculty of the University of Copenhagen. The documents will be locked in the ship's stow box. Walter Lonsdale, Cook's secretary, will be in charge of the data, which consists of fifty thousand words.

CONGRESS WILL EXPERIENCE WARM TIME DURING MONTHS OF APPROACHING SESSION

Washington, D. C.—In two weeks congress will assemble for the "long session," which probably will run well into the summer. The house is already organized by the election of a speaker and officers at the extra session, and the appointment of committees, so that there will be no excuse for not getting down to business at once.

The appropriations committee will meet immediately after Chairman Tawney and his colleagues return from Panama and begin work on one of the appropriation bills, probably the legislative, executive and judicial. Every important committee of the house has a calendar full of bills, introduced in the extra session, and a flood of new measures, cooked up by ambitious members during the recess, is expected at the outset.

Friction between Speaker Cannon and the insurgents is expected to develop immediately. It is not contemplated that the house will entertain an effort to oust the speaker, but it is well within the range of a merry dance in many ways, by proposed amendments to the rules.

Everybody expects trouble and lots of it. Speaker Cannon is as mad as a hatter, judging from his recent speeches in the west, and is coming to Washington with his fighting clothes on and brass knuckles in his gloves. It is said he intends to make it lively for Herbert Parsons for the charges preferred by that gentleman in connection with the alleged deal between the house leaders and Tammany democrats in the reorganization of the house last summer.

Mr. Parsons is standing pat, and no later than yesterday made the statement that he never made charges which could not be substantiated.

Insurgents Rampant. The insurgents are rampant and determined on trouble. The outbreak of insurrection in the senate has heartened the house insurrection. It is known that there are many house republicans who have been restless for some time, and it is expected that numbers of these will grab their trusty machetes and take to the bush, under the stimulus of increased prosperity for making trouble.

Senator Cummins is in town sounding the rallying cry for the senate insurgents. Senator La Follette will come out of the west soon, and be followed by the bold Bristow of Kansas, ready for the fray. On all sides, therefore, the outlook bristles with tribulations for the regulars and "heep plenty" good front page headlines for the newspapers with the corps of Washington correspondents joyously repeating the belligerent admonition to MacDuff.

In the way of serious effort there is work enough cut out for congress to keep it busy until fall, if congress takes over the contract and doesn't "yump the job" along about the time the campaign for renomination and re-election draws nigh.

Work Waiting Congress. Here are some of the things congress will find ready to hand to work on.

Granting increased powers to the interstate commerce commission, with authority to regulate the issue of railroad securities; to initiate complaints of discrimination in rates; to compel connecting carriers to form through routes and apportion rates

among carriers; to determine the proper classification of freight. An amendment to the Sherman anti-trust act exempting labor unions from penalties for combination.

Authorization to railroads to pool under strict supervision of the interstate commerce commission.

Subventions for the upbuilding of the merchant marine and extensions of the ocean mail service.

Requiring railroads to adopt additional safety devices.

Postal savings banks. Legislation regulating the boycott and the issuance of injunctions against labor organizations.

Internal waterway improvements, according to the president's policy of "the best for the greatest number and down with pork bar" appropriations."

A number of contested election cases will be acted upon, probably along the usual line of finding very little evidence in favor of opposition contestants, but grave frauds on the franchise to the detriment of republicans.

An investigation of the sugar trust scandal will be proposed, and may or may not be undertaken.

Foregoing are some of the major measures which will clamor for attention, but not all of them are expected to receive it.

OREGON TAKES SWEETSTAKE AT SPOKANE APPLE SHOW AND YAKIMA RAISES HOWL

Spokane, Wash.—Trouble has begun over the action of the apple show judges in awarding the sweepstakes prize to Tronson & Guthrie, of Eagle Point, Ore. North Yakima, Wash., fruitgrowers allege discrimination, saying W. W. Sawyer, of Yakima, should have taken the sweepstakes with his carload display of Grimes Golden. The Yakima men allege the prize-winning exhibit was infected with "Baldwin rot," because of its unripe condition, while Sawyer's fruit was perfect. They attribute the alleged discrimination to the fact that an Oregon man was on the board of judges while there was none from Washington. The Yakima exhibitors declare that they will never again send fruit to the Spokane show.

The general public seems satisfied with the prize award, as Oregon's prize-winning fruit was the center of admiration throughout the week.

BIOGRAPHICAL SKETCH OF FRANKLIN PIERCE

Franklin Pierce, who as many school children probably know, was the fourteenth president of the United States, was born in Hillsboro, N. H., 105 years ago today. He was educated in the schools of his native state and at Bowdoin College, where his classmates included Longfellow, Hawthorne and Prentiss.

Soon after his graduation in 1824, he began to interest himself in politics, and at the age of twenty-nine had so far established himself in the esteem of the voters as to be sent to congress. After four years in the lower house he was promoted to the United States senate, being the youngest member of a body that contained such men as Webster, Clay, Calhoun, Buchanan, Benton and Silas Wright. Even in this distinguished assemblage, young Pierce distinguished himself.

In 1842 he resigned from the senate and retired to private life, refusing several fat and juicy plum positions. In 1845 he was enlisted for the Mexican war, was appointed brigadier general in the regular army, and led his brigade at the battles of Contreras and Churubusco.

His record served again to bring him to public attention, and when the democratic national convention met in 1852 he was selected as a compromise candidate on the forty-ninth ballot. His principal opponent was General Scott. He was elected by the overwhelming majority of 254 to 42.

His administration was not remarkable, the principal incidents being the repeal of the Missouri compromise; a reciprocity treaty for trade with the British colonies in America; the establishment of a treaty with Japan, and the settlement of the Mexican boundary dispute.

Failing of a renomination at the expiration of his term, he sought solace in travel abroad. Returning after three years, he lived in retirement at Concord, where he died, October 8, 1869.

KANSAS REBELS AGAINST CONTINUOUS SCHOOL IDEA

Topeka, Kan., Nov. 23.—Kansas school teachers and students are up in arms against the proposal of Professor E. A. Ross of the University of Wisconsin, made in a recent address at the University of Kansas, for continuous schools. The subject has aroused a great deal of comment in Kansas, most of it adverse. Professor Ross declared that school vacations are a relic of pioneer days and that children should attend school twelve months in the year. The fact that in the early days children were needed to help with the crops is cited by Professor Ross as the reason for the original vacation. Now that this necessity has passed, he advocates a continuous school term, with lighter work during the summer.

New York, Nov. 23.—Standard Oil stock fell heavily by yesterday's trading, slumping forty points below Saturday's closing price, as the result of the St. Louis decision ordering the dissolution of the trust. The opening was down to 650, but it rallied two points.

TERRIBLE INDIGESTION. Tallman & Co. Have a Remedy That They Guarantee to Promptly Relieve All Stomach Distress.

People go on suffering from little stomach troubles for several years and imagine they have a serious disease. They over eat or over eat and force on the stomach a lot of extra work. *But they never think that the stomach needs extra help to do extra work.

If these people would take a Mi-o-na tablet with or after meals it would be a great big help to the stomach in its strain of overwork.

No matter what you eat or drink Mi-o-na tablets will sweeten your stomach and stop gas belching in 5 minutes. The heaviness disappears and the stomach is greatly aided in its work of digestion.

And Mi-o-na not only promptly relieves all distress but if taken regularly will absolutely cure indigestion by building up the flabby overworked walls of the stomach and making them strong enough to digest the

B. M. Gains of Sunnyside has sold 4 1-2 acres of orchard land to W. A. Burton. Consideration, \$1575.

Mrs. Will Parrish of Anatoine, who has been here for some time visiting with her son, T. Parrish, returned to her home this week.

Alta Rogers, who has conducted a barber shop in this city for some years, but who had to retire from the business last spring on account of ill health, is so far recovered, after

spending the summer on his father's ranch that he has returned to town and bought out the City barber shop and started up in business for himself again.

The beautiful new school building of Freewater is a fine brick structure with two stories and a basement for gymnasium purposes. It has four large rooms and is designed in such a style that more rooms can be added as necessity requires. Last week the building was very informally opened, and both teachers and pupils are delighted with their new quarters. The principal, Professor Cady, comes to us highly recommended from the Willamette valley, and has for his assistants Miss Mintner and Miss Alice Compton.

Hudson Bay Grange held one of its famous all day meetings on Saturday and as usual the members turned out well and a good dinner was served by the ladies. The meeting in the afternoon was an enjoyable one and a lot of work was gone through with.

Mr. and Mrs. H. A. Herr and their guest, Joseph Frazier, have gone to visit with friends and relatives at Heppner.

Miss Katherine Herr of Sunnyside, left this week for Nebraska to spend the winter with friends.

S. J. Campbell, fruit inspector for Umatilla county, was sent as a delegate to the Apple fair at Spokane, by the Freewater commercial club last week. Mr. Campbell also has a number of extra fine apples on exhibit.

She Can Eat Pie Now.

A lady recently visited a friend in Keene, N. H., whose husband was very delicate, and yet she noticed that he could eat all the pie he wanted. She began to wonder how it was that he could do it, when she had to give up this delicacy because of disagreeable after effects. She writes as follows:

"I found it was because the pie was made with Cottolene; and as I am a great lover of pie, I began using Cottolene, and have never had a bit of hard in the house since that time. I now enjoy my pie, as it does not give heart-burn as formerly."

Cottolene makes crisp, flaky, "digestible" pie-crust, that tastes good, and does good—lard does you harm.
