Unfurnished housekeeping rooms for rent in the East Oregonian building. Steam heat; electric lights; hot and cold water; bath. Inquire at East Oregonian.

## GOVERNMENT WILL HELP FARM WIFE

### FARMERS' INSTITUTE IDEA WILL BE EXTENDED

Farmers' Wives Will Be Instructed in Domestic Economy—Good House-keeping, Wholesome Cooking, Sanitation, Beautifying of Home, Economy and Many Other Beneficial Ideas Will Be Promoted.

Extension of the farmers' institute idea to include the farmers' wives is the latest development of the policy of paternal solicitude for the great American agriculturist as pursued by the department of agriculture. The betterment of the home surroundings of the farmer with particular regard for the advantages of good house-keeping, wholesome cooking, the observance of the laws of sanitation, the beautifying of the home, inside and out, the economical administration of the woman's side of the business of farming, pure water ventilation and an endless variety of minor items which will tend to "make the life of the farmer's wife and daughters more attractive are the purposes of his new division of the department.

Professor John Hamilton, formerly state secretary of agriculture of Pennsylvania, is at the head of the division of farmers' institutes. In an interview he said:

"This extension of the farmers' institute to include in its beneficence the women folk of the farm is comparatively new. We have been having farmers' institutes throughout the United States for more than twenty years. It is only within the last three or four years that the women have begun to see the chances for developing real advantage for their own sex through these gatherings of the farmers.

"The work of the women's institute is perhaps broader in its scope than that for the men. It is certainly more varied. In twenty-one states of the Union they have begun the work already, and within a year or so every state in the Union will have organized institutes for the women folk.

"The work has proved one of remarkable interest to the women. Every subject which can have any value along the line of making farm work more attractive from the feminine view point is being taken up. They are going into the study of home betterment with a tremendous interest. Domestic economy in all its phases is being studied. High-priced lecturers on the important topics are being secured to address these great gatherings of women. They are given demonstrations in the preparation of foods for their own families. They are taught the sensible and sanitary methods of cooking. They are shown the right way to manufacture butter and cheese.

"They are shown the most profitable methods of preparing the products of the kitchen, garden and the poultry yard for the city market; how to make the exterior of the home attractive to the eye by beautifying the dooryard and the flower garden; the preservation of the water supply from contamination; the internal economy of the home; the care and feeding of infants and the development of the public school system in the rural communities. All these things and along with them the best and latest ideas as to the relief of the farm work of its old-time drudgery through systematizing and properly scheduling the routine duties of the day are included in the work of this new division.

"The United States government has not yet in hand the data with regard to the present attendance of the women's institutes in this country. The latest definite obtainable figures are those of the province of Ontario, Canada, which show a marked interest in the scheme.

"Last year the attendance at women's institute meetings in that province was 105,000, only 5000 less than at the men's meetings. Not all of these women's meetings were coincident with those held by the men. The total number of sessions in that one province was 4050. Thirty-eight lecturers were heard by these gatherings, all of whom were paid by the province.—American Farmer.

### CHILD MURDERER EXPIATES CRIME IN ELECTRIC CHAIR

Auburn, N. Y., Nov. 22.—Theodore Rizzo, the confessed slayer of Teresa Percepia and Freddie Infusino, was sent to the electrical chair at 6:15 this morning. His crime was brutal, his victims being the children of two Utica men against whom he held a grudge.

While his two victims and Fannie Infusino were playing in front of their home on September 12 they were kidnapped by Rizzo. Early in the morning on September 13, a milkman found Teresa's body in a culvert in an isolated section of the city and Freddie Infusino was found nearby dying, while Fannie Infusino was lying with a bullet wound in her arm. Freddie lived for a few hours. Several days later Rizzo was arrested and confessed.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

## THE First National Bank

Pendleton, Oregon

Report of Condition, November 16, 1909, to the Comptroller of the Currency.

G. M. RICE, Cashier.

Subscribed and sworn to before me this 18th day of November, 1909.

(SEAL) C. K. CRANSTON, Notary Public for Oregon.

### WILL MAKE STEEL ON GIGANTIC SCALE

Chicago.—The Tribune of recent date says:

"Another great development in the Calumet district is promised in the plans of a syndicate of Cleveland capitalists understood to be connected with the Colorado Fuel and Iron company.

"It involves in the first place the construction of four blast furnaces with a total daily capacity of about 1200 tons of finished pig iron, the cost of which will, with the cost of the land, approximate \$5000,000. But, while the company will for a time restrict its activities to the making and selling of the product, it is understood that the construction of the furnaces will be only the first unit in a much more comprehensive project involving the manufacture of steel and that the completed plant will represent an investment of from \$15,000,000 to \$25,000,000. The capital of the company will, it is said, be \$15,000,000.

"Those behind the new company are said to already own extensive iron mining interests in the Mesaba range in Northern Minnesota and are said to have several million tons of iron ore already developed. They are said to have expended approximately \$180,000 in this work.

"Agents of the concern have been working for several months to acquire the necessary land as a site for the plant, and it is now stated have options on 200 acres of land along the Calumet river. The exact locality is not known, although it is reported to be south of the plant of the Federal Furnace company at 105th street.

"The work of securing satisfactory title in some instances is said to have held back preliminary work for some time, and special difficulty is said to have been experienced in acquiring a few pieces of improved property, one being a church.

### WOULD INCREASE SALARY OF FEDERAL JUDGES

New York.—A bill for increase in the salaries of all federal judges from \$3000 to \$5000 will be introduced in congress with the endorsement of a committee of lawyers, headed by former Senator Spooner, former Congressman Littlefield and Henry W. Taft. The following increases are recommended: Supreme court, \$12,500 to \$17,500; United States circuit court, \$7000 to \$10,000; United States district court, \$6000 to \$9000. A committee was appointed to frame a bill to be presented at the next session of congress.

### NEW YORK SCHOOLS BANISH FOOTBALL

New York.—Football has been banished from the New York public schools by the board of supervisors because of the many accidents in which bones were broken and pupils were otherwise injured.

Revision of the rules has failed to eliminate the danger of the sport and the supervisors decided that the game should be abolished.

As the New York schools constitute the largest single body of football players, the ban to the game is considered severe and may have an effect throughout the country. It is understood that the supervisors corresponded with school directors in other cities and that the action taken is the result of a series of conferences and may extend to other school systems.

### DECREASE IN BIRTH GREATEST AMONG LEADERS

Ithaca, N. Y.—If the present decline in the birth rate should continue for 150 years there would be no births at that time, according to Professor Walter F. Wilcox, the statistician of Cornell University.

It is not the decrease in the birth rate that is disturbing, said Professor Wilcox, "but rather the fact that decrease is greater among the classes whose children would probably inherit most social worth and capacity for leaders. Thus figures from Harvard indicate that each 100 graduates will produce in the next generation only 73 sons. The native American population, that at least in New England and New York, loses more by deaths than it gains by births."

### SUFFRAGETTE MOVEMENT IS NOT FILM OF SMOKE

Chicago.—"The suffragette movement in England is not a superficial smoke or reek that will vanish when they get tired of it. It is a deep seated, subterranean force, founded on the passionate longing of women for freedom. It will not die out, it will not cease until it has won what it is fighting for."

Mrs. Philip Snowden, leader of the conservative wing of the Woman Suffragists in England—the party that does not approve of the military tactics of the suffragettes—paid her fighting sisters that tribute recently as she discussed the question of woman suffrage in general.

### LABOR LEADERS HOLD PRIVATE CONFERENCE

New York, Nov. 23.—It is understood that a private conference will be held in New York today or this evening between President Samuel Gompers of the American Federation of Labor, John Mitchell and Frank Morrison, and their counsel, when the question of an appeal from the conviction for contempt of court and the line of defense, will be fully discussed. President Gompers declares that Justice Wright was guilty of "outrageous conduct in so cruelly exhorting the honest conduct of three citizens who undertook to test the law and in imposing unusual sentence.

TO CURE A COLD IN ONE DAY. Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.
