ALCOHOL IN MEDICINES.

 Such standard preparations as "Lydia E. Pinkham's Vegetable Compound" contain but 18 per cent and they even put the compound up in tablet form which the over-scrupulous woman, who objects to alcohol in any degree, may use.

DECLARES EXCESSIVE PROFITS CAUSE OF HIGH PRICES

New York, Nov. 26.—Charles Sprague Smith, head of the People's Institute today issued a statement demanding a federal investigation of the advance of the price of foodstuffs. He backed up his demand with figures from the report of the New York stock exchange by Armour showing that for the year ending October 26, the packing company had made a thirty-five per cent profit on a capital stock of \$20,000,000.
 He declares that Armour has kept the figures secret until forced to make them public so he could list the company's bonds for exchange. He charges that the figures show the high price of meat to be caused by excessive profits and asserts similar conditions exist in other foodstuffs.

OPPOSE YAMAGATA AS ITO'S SUCCESSOR

Victoria, B. C., Nov. 26.—News was brought by the steamer Oceano which reached port from the orient today that considerable opposition prevailed to the appointment of Prince Yamagata as successor to the late Prince Ito on the ground that owing to Yamagata being the recognized leader of the military party his appointment to the post would probably cause suspicion among the powers. It was urged that the pre-eminence given the military party might embarrass Japan's diplomatic relations. Many newspapers suggest the appointment of Premier Saito, Marquis Inouye or Marquis Hatsukata.
