### PENDLETON "DRY" ORATORS MAKE DEFENSE OF CITY

A crowd which packed the superior court room to the door and overflowed into the ante-rooms and hallways adjoining, was present at the rally held by the "drys" in the court house last night, says the Walla Walla Bulletin.

The chief speeches of the evening were made by Pendleton citizens and these addresses presented figures and arguments to prove that the pictures of Pendleton on exhibition in Walla Walla showing vacant store-rooms in that city since the town went dry were misleading and unreliable.

N. A. Davis, mayor of Milton and president of the First National bank of that town, spoke first and he was followed by Will R. Moore, president of the Pendleton Commercial association, who in his remarks made it plain that he strongly resented the statements made in regard to his city to the effect that the drying out of saloons there had been detrimental to the town. He was followed by N. H. Brooks, another Pendleton speaker, whose address, while altogether

impromptu, was full of witty remarks and keen thrusts at the saloons. R. J. Slater, a Pendleton attorney, was the last of the speakers from the Oregon city, his remarks being along the same line as the two previous speakers.

Following the Pendleton speakers, W. J. Calhoun, H. A. Reynolds and Charles MacCaughy made short addresses, in which they touched on various points of the local option fight. Alfie Reynolds presided.

### Boxing Exhibition Tonight.

Cliff Overturf, who boxes Ed Cuff before the Evans Athletic club tonight, arrived in Pendleton last evening. Overturf has trained at Pasco where he has an athletic class. He is a big, strong fellow, with worlds of experience and should be a worthy opponent for the veteran Cuff," says Dudley Evans, the local boxing manager. "Al Richardson has been working out for several weeks and says he will surprise the boys at the improvement he has made. Al thinks he is a champion and the colored population of Pendleton expect him to develop into a second Jack Johnson."

"The other boys that take part in tonight's entertainment are all anxious to show off their class. Taking it all together, the club members and their friends that go to the Oregon tonight should be well entertained."

"A burlesque of the Jeffries-Johnson match has been worked out and is said to be a laughable stunt. The entertainment will begin at the usual time. Doors open at 7:30.

### Temperance Lecturer Here.

Captain Dutton, who is at the Baptist church for the evenings of this week, delivered his first lecture last night. Those that were present were well pleased with his direct and thorough presentation of his subject. He is thoroughly at home with his theme and is one of the best temperance lecturers this city has heard. He spoke last night of the rise and growth of the temperance sentiment and showed the strong underlying reasons. His lecture tonight at 7:30 ought to receive a wide hearing. These lectures are free and all are invited.

## "Nature's Gift from the Sunny South"

# Georgia's State Chemist Praises "Nature's Gift from the Sunny South"

J. H. McCandless, State Chemist of Georgia, before a recent gathering of Cotton Seed men, gave emphatic praise to the high quality of *Cottolene*. He said:

"The sale of this product and the proclamation that it is made of cotton seed oil have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."

Mr. McCandless then pointed out that a pure, refined, vegetable-oil product such as *Cottolene*, is the only assurance a woman has of a clean, digestible, cooking fat.

It seems a positive wonder in the light of all that has lately been said and written, and of what is known of lard, where it comes from, of what it may be made, that anyone will continue its use, when pure, sweet and healthful *Cottolene* can be so easily obtained.

**COTTOLENE is Guaranteed** Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

**Never Sold in Bulk** *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
