## \*\* \* \* \* \* \* \* \* \* \* WE SHOULD FIGHT BACK.

In answer to the libelous and unjust statements made about this city during the Walla Walla saloon fight Mayor Murphy and the councilmen The campaign that is on in Walla Walla is not Pendleton's fight it is true. Yet this city has been dragged into the fight in a very undesirable way for Pendleton. The officials and the people of this city would be lacking in their duty to Pendleton did they not make every reasonable effort to disprove the lies that have been circulated regarding our town.

Ever since Umatilia county voted itself into the dry column the saloonmen have slandered Pendleton persistently and unjustly. All over the northwest and even in California they have sought to show that "prohibition killed Pendleton." Misleading pictures and misleading stories have been published time and again. Most of these slanders Pendleton has endured with patience and in silence. But when they come to the very door of the city and publish these things in Walla Walla the divekeepers went too far. Pendleton has turned upon its slanderers. Pendleton is now talking back. We should keep it up. Every time one of these cheap shysters, hired by the dive keepers and breweries, shows his head he should be branded for what he is-a slanderer. We should show the world that while Pendleton may not have as many dives and dive keepers as it once did and may not have its old time horde of tinhorns, macques and prostitutes it is still a live and bustling little city. It is such a city right now and it is going to be much better than at present.

## THE L W. W'S.

The L. W. W. agitators have lost out in Spokane according to advices from that city. They are now ready to give up the fight and the authorities believe they will have little further trouble with them.

Incidentally it may be remarked that the I. W. W. men have not rendered good service to the cause of labor or to the cause of socialism. Those fellows tried to do something they had no right to do. They wanted to hold public meeting in the business streets of Spokane. But Spokane has an ordinance forbidding such meetings within the fire limits of the city. It is a very proper ordinance, because the streets are intend. this town.

# THE CASE OF TRACY.

A young man is now behind the bars of the county jall charged with the brutal murder of Andy Rabeal near Umatilla a few weeks ago. Just what the full facts are with respects to the prisoner's connection with the crime the officers have not yet disclosed. Even if it knew these facts this paper would not care to comment upon his guilt or innocence for that would be improper. The court and the jury will try his case.

But if the facts that are disclosed later show that Tracy, or Arnold, whichever his real name may be, is the guilty one his arrest should be a powerful warning to others with murderous minds. The young man wandered far yet returned to the section where the crime of which he is accused was committed. According to crimologists there is some psychic back to the scenes of their crimes. The knowledge of this trait often aids in the capture of murderers.

However in the case or the young man now in tail Sheriff T. D. Taylor and his deputies were the important feature. Sheriff Taylor knows how to throw out a net that usually brings results and the capture of young Arnold was due to the instructions sent forth from the sheriff's

## WORTH INVESTIGATING.

A Canadian correspondent transmits a delightful story, the responsibility for which, he says, rests with the Rev. Dr. Fyles, the well-known naturalist of Levis, in the province of Quebec. A tourist, he says, came to Quebec to view the winter scenery. He put up at the St. Louis hotel, and in the afternoon walked out to the Plains. He admired the pure, unbroken expanse of snow and the fine view over the St. Lawrence and tomorning he arose early and took the same course again to gain an appetite for breakfast. When to, he saw some strange tracks in the snow. They were very large, and there was somehind each of them. While he stood greatly puzzled an old Scotchman drove along on a traineau. Our friend loguy occurred;

Grandma Sanderson, of DeWitt, Mo., Has Lived a Long and Useful Life.

Grandma Sanderson is a wonderful woman. She is in as good health today as ever in her life, although sho is over one hundred years old.

In a letter to the Peruna Drug Mig. Co., she gives the highest credit to Peruna for her excellent health and extreme old age. Read what she says.

Surely the evidence presented by such cases as these ought not only to dispel prejudice against Peruna, but inspire confidence in it.

"I will send you a picture that was taken a few weeks before my hundredth birthday.

"I am a true friend of the Peruna Company. I have derived great benefit from Peruna many times. I can say I regard Peruna a very great medicine. I found out the merit of it a good many years ago.

"A little more than two years age I contracted a very severe cold, which resulted in la grippe. Owing to the severity of the disease, and my extreme age, my case was considered to be very critical. I employed no doctor, but Peruna was the remedy I used, and to-day my health is as good as it ever was in my life.

"However, I still continue to take Peruna, a spoonful every night before stiring."

Peruna is an ideal tonic for old people. It is a compound of herbal' remedies that has been known to the men order fastion for many years.

Peruna operates as a tonic by cleansing and invigorating the mucous membranes. This expiains why Peruna has become so extensively known as a catarrh remedy. Catarrh is simply a condition of depraved mucous membranes. Feruna changes this deprayity into healthful vigor.

A great many old people use Peruna, and would not be deprived of it for any consideration.

People who object to liquid medicines can now secure Peruna tablets. Ask your druggist for a free Peruna Almanae for 1910,
