Standard Grocery Co.

214-216 East Court St. Leading Grocers.

BIG NIGHT TONIGHT IN MASONIC CIRCLES

LOCAL ORDER WILL HOLD ANNUAL INSTALLATION

Affair Open to All Masons of This Lodge and Other Lodges, and Their Wives—Interesting Program Arranged.

Tonight will be an interesting occasion in local Masonic circles. It is the time for the annual installation of officers for Pendleton lodge, No. 52, A. F. & A. M., and the affair will be open to all members of the Masonic fraternity, their wives and visiting Masons. The program will start at 7:30.

At the installation the following men will be vested with authority as officers for the coming year: Ben L. Burroughs, W. M.; Will Wyrick, S. W.; Cliff Bellinger, J. W.; I. Jay, S. D.; R. M. Sawtelle, J. D.; J. M. Bentley, treasurer; Joe H. Parkes, secretary; Charles Cole, tyler; and T. C. Taylor, trustee. The installation will be by Judge S. A. Lowell, retiring master.

Following the installation a program will be rendered and among the numbers will be selections by the quartet composed of Messrs. Akers, Owens, Hill and Welles; a solo by Dr. Elmer Hill; vocal solo by Miss Edna Gates and a piano selection by Miss Laura Perry. The evening's entertainment will then be closed with a banquet.

WALLA WALLA POLICE CAN'T DRINK OR SMOKE

By a new order which has just been handed to Chief of Police Davis from the police committee of the city council, no member of the police force of this city, including both sergeants and patrolmen shall partake of any intoxicants while on duty, neither shall they smoke. The night patrolmen, however, have the privilege of smoking between the hours of 12 m and 4 a. m. while they are on duty.

No reason is given for the new ruling but it is vogue in many of the larger cities of the country and it is said will be enforced here after January 1.

It is understood the police committee has several other important regulations that it is contemplating making or have at least inquired as to the advisability of such. Council is satisfied in every manner with the generalship of Chief Davis. The officers do not complain of the new ruling but rather approve of it.—Walla Walla Union.

A Little Cold.

He caught a little cold—
That was all—
So the neighbors sadly said,
As they gathered round his bed,
When they heard that he was dead.
He caught a little cold—
That was all.

Neglect of a cough or cold often leads to serious trouble. To break up a cold in twenty-four hours and cure any cough that is curable, mix two ounces of Glycerine, a half ounce of Virgin Oil of Pine Compound pure and eight ounces of pure whisky. Take a teaspoonful every four hours. You can buy these at any good drug store and easily mix them in a large bottle.

News Notes of Pendleton

Mrs. Bradley Ill.
Mrs. G. W. Bradley, wife of the county treasurer, is very ill at her home on Alta street.

Stores Closed New Years.
The various stores and banks of the city will be closed as usual on New Years for the entire day. This was the announcement made today by the merchants.

Mary Laatz Won Prize Doll.
Little Mary Laatz, daughter of Mr. and Mrs. Henry Laatz, was the lucky winner of the big \$15 dressed doll given Saturday evening by the Owl Tea House. The drawing occurred Christmas eve and the doll was given to its happy owner.

Shes to Collect Note.
Joe Haaga of Echo is suing Mrs. Brace Benedict and husband, Bert Benedict, for a judgment for the sum of \$385 alleged to be due upon a promissory note. The sum of \$50 is also asked for as attorneys' fees. Raley & Raley are attorneys for the plaintiff.

A Thompson Street Event.
There was considerable excitement on Thompson street Christmas day over the timely arrival of a tooth for James H. Raley, Jr., son of City Attorney and Mrs. J. R. Raley. "It was the greatest day of my life," says the city's legal adviser, in telling about the matter today to Chief of Police Gurdane, a sympathetic listener.

Maxwell-Furnas Suit.
In the circuit court today the case of the Maxwell irrigation company versus L. W. Furnas is being considered. It is the case in which the Maxwell company seeks to enforce a contract entered into with the defendant in January, 1904. Messrs. J. P. Winter and R. R. Johnson are representing the company, while Raley & Raley appear for Furnas.

In the Police Court.
In the police court this morning several Christmas joy-makers forfeited bail by failing to appear before Judge Fitz Gerald. A young couple was also before the court upon a charge of disorderly conduct and each of the twain was sentenced to pay \$40 into the city treasury or stay in jail for 20 days. They were compelled to choose the jail.

Nolin Farmer Dead.
L. H. Updike, of Nolin, died at the hospital this morning from the effects of typhoid fever. He contracted the disease at Nolin and a son and daughter are now at the hospital suffering from the same disease. The arrangements for the funeral of the father have not yet been made but it is probable that the service will be held here day after tomorrow.

A Story of Adventure.
"The Cruise of the Cahalot," by F. T. Bullen, is a book in the public library that those readers would enjoy who like stories of adventure. The author says in his preface, that "an attempt has been made to give an account of the cruise of a South Sea whaler from the seaman's standpoint—for the general reader."

Poor Families Remembered.
Among those made happy on Christmas were several local families that are in poor circumstances and whose cases came to the attention of Chief of Police Gurdane. That official informed various local people of the facts in the different cases and each family was abundantly remembered with presents in the form of Christmas delicacies and likewise more needed supplies.

Grand Army Election.
At a regular meeting of Kit Carson Post No. 28, G. A. R., officers were elected for the ensuing year as follows: John W. Welles, post commander; P. M. Phair, senior vice commander; John McAfee, junior vice commander; J. L. Carroll, adjutant; John Gurdane, quartermaster; C. D. Pence, surgeon; J. B. Mumford, chaplain; H. D. Wylie, officer of the day; J. Parago, officer of the guard. Delegates elected to the department encampment to be held at Astoria are H. D. Wylie and John Knight. Alternates are J. Drake and John Gurdane. The following are the past commanders of Kit Carson post: J. L. Carroll, W. Gillette, D. Bronson, J. B. Mumford, and A. B. Stephens.

SHERIFF ARRESTED TWO BOOTLEGGERS

Charged with conducting a "bootlegging" business at Meacham two men, C. A. Feamster and W. W. Feamster, are now in the county jail while a girl, Grace Brown, who was found with the men, is also in custody. The arrest of the Feamsters and Miss Brown was made last night by Sheriff T. D. Taylor and Deputy Joe Blakeley and occurred at the mountain station. Information regarding the alleged operations of the trio had been furnished Sheriff Taylor by parties living at Meacham. The girl is about 18 years of age and is charged with leading an immoral life.

"The Girl at the Helm," which appeared at the Oregon last night was an attraction of undoubted mediocrity. No exclamations of disappointment came from those who issued from the theater at the final curtain, neither were any swayed by the raptures of delight. The general sentiment seemed to be expressed by such remarks as "very good." Not all, but

nearly. But it is certain that if all of the shows that visit Pendleton have as good entertaining qualities as that of last night there will be no great howl raised in the ranks of patrons. Billy Clifford as Fred Stanhope, the leading funmaker, was "not half bad." His facial expressions, if nothing else, wins him the favor of the audience. The voices with one or two exceptions were worthy of the parts, and the singing of the male sextette was especially pleasing. Another feature of the piece was the motor boat race, produced by a combination of electrical devices and moving picture apparatus. To call the chorus an array of beauty would be applying a misnomer to it, but then their singing was lively, their kicking graceful and their maneuvers carried out in a well trained manner, all of which atone for the defects in face and form. Altogether the general effect was so good that, if the company comes again there will be many who will avail themselves of the opportunity to see it again.

BIG GOOD ROADS CON- VENTION IN WASHINGTON

Seattle.—Every county in the state is to send its commissioners to the meeting of the Good Roads movement to be held in Aberdeen, January 20th and 21st. From 300 to 500 delegates are expected to be present to discuss the expenditure of the \$1,500,000 appropriation and to formulate general plans for the permanent development of trunk lines. James Hill is expected back from Europe in time to participate, while talks of great value will be given by City Engineer R. H. Thomson, of Seattle, who will illustrate with the stereoscopic practical methods to be employed, S. C. Lancaster, the government Good Roads expert, and Col. Harvey Scott, the veteran editor of the Oregonian.

WISTAR JOHNSON SAYS AMERICAN ATHLETES EXCEL

Harvard University.—Wistar Johnson, a Rhodes scholarship holder from Oregon, writes to friends here that American athletes in Oxford University, England, have beaten the Britons in track work and in baseball, but that the English training so far has defeated the representatives of America in cricket and other English games.

During the last season the American baseball team, composed of Rhode Island scholars, went to London and defeated the English nine there by large scores. The Americans find that English pitchers are not difficult to hit.

Johnson is a graduate of the University of Oregon, and was handball champion, a basketball player, and a member of the football squad while at Eugene.

PACIFIC COAST BANKS ARE THIRD IN U. S.

Seattle.—According to the report made by the National Monetary commission, the banks of the Pacific coast stand third in the United States. This body has investigated all of the financial institutions in the country during the past year. It places the Middle Eastern or Atlantic States at the head of the list, the resources per capita being largest. The New England states are next and then follow the Pacific coast states. Therefore, the Middle Western, Far Western and Southern groups are ranked in the order named. Washington stands third in the Pacific group being headed by Nevada and California.

35 MILES OF RAILROAD BUILT IN DESCHUTES

Portland.—The State Railroad Commission in its third annual report just issued shows 35 miles of the Deschutes railroad has been graded and that it is expected to have 90 miles of the new line in operation by next July. James J. Hill, who was in Portland during the past week, gives assurance that the Oregon Trunk will be in operation by next fall so that the coming year will see two railway lines into the interior of the state.

PAYMENT REFUSED ON ANCIENT CITY WARRANT

Aberdeen, Wash.—Held for 18 years, but still in good condition, city warrant No. 363, dated February 5, 1891, was recently presented to the city treasurer for payment. Payment was refused until the matter could be investigated. The warrant was drawn in favor of R. S. Jackson for the sum of \$100, and was issued as payment for work done on the city streets. It is signed by Samuel Benn as mayor, who is the father of the present mayor, E. B. Benn. J. H. White was city clerk.

Railroads Like Christmas.

Seattle.—The railroads have enjoyed their share of a brisk holiday season. Large quantities of merchandise in the form of small packages have been brought to the Northwest. There have also been substantial shipments from this part of the country to the older sections. Postoffice receipts show substantial increases over last years. The holiday travel is also above the normal. The Great Northern and Northern Pacific have carried unusual numbers of Christmas travelers this year, all of which indicate that the Northwest is enjoying prosperity.

McLaurin's Successor Appointed.

Jackson, Miss., Dec. 27.—Governor Noel of Mississippi, today appointed James Gordon of Oklahoma, to succeed the late United States Senator A. J. McLaurin, who died suddenly at Brandon Wednesday.

LIGHT MOTOR NOW SOUGHT.

Germany Compelled to Use French Invention in War Craft.

Berlin.—Profound secrecy is being maintained regarding the experiment made by the German war office with aeroplanes. It is, of course, well known that despite the interest shown in the Wright experiments in Berlin the officials were not satisfied that the aeroplane was in a sufficient state of development to be reliable even for modest military requirements.

Since then a military aeroplane has been constructed by the aeronautic section in Scheunberg, near Berlin, but it had to be fitted with an Antoinette motor from Paris, since no German motor sufficiently light was available. Experiments are being made more in this direction—the construction of a light German motor—than of complete aeroplanes at the present time.

MICROBE LURKS IN APPLE.

Metchnikoff Warns Children Against the Deadly Fruit Germ.

Paris.—Professor Metchnikoff of the Pasteur Institute has discovered a microbe called the proteus, which he says kills at least 10,000 French children every year.

The microbe is that of gastro-enteritis, and it lives on the surface of apples and other fruits, salads and the rind of cheese. It is dangerous not only to children, but to grown-up people also.

Professor Metchnikoff says, however, that the microbe can easily be killed. Before preparing fruit for the children people should be careful to wash their hands with soap, and not dry them, for soapy water is a beverage which the proteus abhors.

MILK KEPT EVER FRESH.

Former Architect in Australia Invents Dairy Process.

Melbourne.—An important discovery is reported from Western Australia. W. D. Pacey, formerly an architect at Perth, but now engaged in dairying, has secured the patent rights for a process by which, it is said, milk can be kept absolutely fresh for an indefinite period.

A bottle of milk which had been treated, and was said to be about five months old, was handed to the government analyst for examination. He reported that it had apparently been heated, but that it was free from any of the ordinary preservatives, and gave very good results. He saw no reason to believe that it was in any way detrimental to health. Dr. F. Andrew, who was given a sample two months old for bacteriological examination, said it gave almost the test of ordinary milk. It differed from any preserved milk he knew of in that respect. He made 12 cultures from the milk, which remained sterile after four days in an incubator.

Enters Insurance Business.

Seattle.—I. A. Nadeau, lately director general of the successful Alaska-Yukon-Pacific exposition, and for many years one of the best known railroad men of the Pacific northwest has become chief representative for the Equitable Life Assurance society as its general agent for western Washington. The territory which comes within Mr. Nadeau's jurisdiction is large, but his personal acquaintance is very extensive, and while the insurance business is a new departure for him the successes achieved in other lines gives substantial guarantee of an active and prosperous future.

THE ARRIVAL OF THE NEW YEAR

means the newest up-to-date methods in the cleaning and dyeing of men's suits, overcoats and in the cleaning of lady's fine dresses, waists, coats, etc. Turn over a new leaf for the new year and make a good resolution to have your garments cleaned and pressed or dyed at Sullivan's.
