Gadva is the new chancellor commander of Damon lodge. Next Monday night the local Knights of Pythias will receive an official call from Grand Vice Chancellor Toran of Eugene.

Grand Jury Still in Session.
Though the old grand jury put in a full week, it seems that it left something for the new grand jury to investigate. The seven men drawn yesterday have been in session ever since. Among the witnesses appearing before them today were Harry Huber, Robert Chapman and Frank Sample, from the South Fork of the Walla Walla river. In the very northeastern corner of the county.

POSTOFFICE DEPARTMENT REPORTS A LARGE GAIN

Washington.—As a business institution, the Postoffice Department, next to the United States treasury, is the greatest in the government. According to figures submitted by Charles P. Grandfield, First Assistant Postmaster General, for the fiscal year ended June 30, 1909, in his annual report, the gross revenue of the postal service reached the enormous total of \$293,562,383, an increase of \$12,083,720 or 4.31 per cent. over the preceding year.

There were 60,144 postoffices in operation on June 30, 1909. During the year 1626 postmasters were appointed by Presidential offices. At fourth-class offices 9161 postmasters were appointed.

Concerning the routine of his bureau, Mr. Grandfield says: "The retention of fourth-class postmasters during satisfactory service, has become the established practice of the department, and the policy of recommending the reappointment of Presidential postmasters who have proved efficient has been followed consistently, with highly beneficial results."

"It is recommended that the law be so amended as to provide for the advancement of an office of the fourth-class to the Presidential class whenever the compensation of the postmaster amounts to \$100 and the gross annual receipts to \$1900 for four successive quarters."

Mr. Grandfield makes a strong argument in favor of 30 days' annual leave of clerks and carriers in first-class and second-class offices.

RAILROADS CUT OUT THE SUPPLY AGENT

St. Louis.—A prominent railroad executive officer in touch with large financial interests controlling the securities of the leading southwestern railroads, at the Hotel Jefferson uttered the keynote of a movement for reforming the purchasing department of all large eastern, western and southern railroads. He said:

"Business secured by questionable methods has ruined many brilliant men and the whole system of placing orders for materials and supplies must be changed. Investors' fiscal agents demand that contracts hereafter be awarded on quality, not on friendship."

"The railway supply agent, with his seductive wiles, including wine suppers, automobile rides and carousals at country clubs, appealing to the weaker side of executive officers, luring him to forget home, family, honor and decency, will no longer be welcomed at railroads' general offices."

WHITE SLAVERY IN FRANCE.

War Against Pernicious Traffic in Women Is Being Waged.

Chicago.—The warfare against the traffic in women, "the white slave trade," begun in Chicago about a year ago, carried into many state legislatures and now into congress by President Taft's message and the Mann bill, has spread to France. Reports from Paris to the Women's World, which set the fight going by publishing a series of articles by United States District Attorney Sims, Assistant United States Attorney Roe and others, say that "Le Matin" editorially declares that the revelations made in the United States of the nefarious exporting from France is a national disgrace. The paper appeals to the government to commence immediately pourparlers with Washington for the suppression of the traffic. The paper insists that France in reality is the most decent country on the globe, and one where home life and virtue are most beautifully exemplified, yet abroad, and especially in America, scandalous French life is circulated and the extent of the monstrous white slave trade has given her the reputation of being the center of depravity. The Matin adds: "The government must intervene. It is a question of humanity and national honor."

GUNSAULUS CHIDES DOUBTERS OF BIBLE

Chicago.—Rev. Frank Gunsaulus, in an afternoon sermon on "Christmas Thought" at the Central Y. M. C. A. scored those who doubt the Bible.

"The fault with our Christian life is that we do not make the Bible a living truth," he said. "Therein is its greatest value. The Bible as a teacher of historical truth is one of the greatest things in our life, and as a teacher of the living truth it is even greater."

"The light which lifts the burden of the soul will not be found in the high-ways and byways of human endeavor. The ordinary, everyday thought is found there. The truths of modern science come from there. The great truths of life, though, come to us silently and unostentatiously. "If they who scoff at the Bible and the miracles it relates will leave open a door to their hearts, be it ever so humble, truth will find them and their burdens will be made light."
