

MEAT BOYCOTT HAS NOT HURT MARKET

PRICE OF STEERS IS NOT AFFECTED

Good Stuff, Not the Best, Sells at \$5.25 in Stockdale—Sales of Stags Made at \$4.25 Yesterday—Hog Market Steady at \$9.

Portland Union Stockyards, Stockdale, Jan. 25.—The livestock market is very good, notwithstanding the talk of boycott, and this city continues to pay producers the best price in the country for quality.

The sale of the big bunch of California stuff late yesterday afternoon with steers at \$5.25 indicates that buyers have not deserted the market. They paid \$5.25 straight for the entire lot, and the stuff was nothing extra when it comes to quality either.

Market for hogs is standing just about steady at \$9 for best stuff, with little offering from local places. J. P. Newland came in from Bertha with a load of hogs.

Yards' Representative Prices. Following are representative of transactions at Stockdale, and indicate demand, supplies and quality offering:

Table with columns for STEERS, COWS, and STAGS AND BULLS, listing various grades and prices.

Today's range of livestock values: Cattle—Best, \$5.35@5.50; medium steers, \$5; best cows, \$4@4.25; medium cows, \$3.75@4; poor cows, \$3; bulls, \$2.50@3.25; stags, \$2.50@3.

Hogs—Best east of the mountains, \$9.25; fancy, \$9; stockers, \$7; pigs, \$7.

Sheep—Best wethers, \$5@6; ordinary, \$5.50; spring lambs, \$6.25; straight ewes, \$4.75@5; mixed lots, \$5.

Calves—Best, \$5.75@6; ordinary, \$5@5.25.

Those Who Supply the Market. B. F. Walker brought in five loads of cattle from Weiser, Idaho.

C. D. McKinnon brought forward two loads of cattle and calves from Baker City.

J. P. Logan was in from Huntington, Ore., with a load of cattle. George Krouse had two loads of sheep in the yards today from La Grande and a load of hogs from The Dalles.

L. E. West shipped a load of hogs and a load of cattle from Joseph, Ore., and a load of hogs from Enterprise.

S. A. Phillip was in from Nampa, Idaho, with one mixed load of cattle and calves, one load of hogs and five loads of cattle.

SENTIMENT HAS CHANGE AFTER WHEAT OPENING

Chicago Market Starts Weak With Severe Decline But Closes With Fair Gain.

Chicago, Jan. 25.—Wheat turned strong shortly after the opening and closed 3-8 to 3-4 higher than yesterday. Opening values for wheat were 1-2c to 1 3-8c lower than yesterday, although the greatest drop, which was in July, was not so severe as appeared, because the market had a range of 1c at the opening.

There was a better feeling in pork and some of the loss of yesterday was regained today, but lard was weak and depressed in value.

For wheat there was a weaker feeling abroad. Liverpool opened 1-2d to 5-8d below yesterday and closed 3-4d to 1d lower.

Cash sales: Wheat—No. 2 red, \$1.24@1.26 1-2; No. 3 red, \$1.18@1.24; No. 2 hard, \$1.11 2-8 @1.13 3-4; No. 3 hard, \$1.08 2-4@1.11 3-8; No. 1 northern spring, \$1.12 3-4@1.14 3-4; No. 2 northern spring, \$1.10 3-8@1.14; No. 2 spring, \$1.10@1.13.

Corn—No. 2, 65@65 1-2c; No. 2 white, 67c; No. 2 yellow, 65@66 1-2c; No. 3 corn, 63 1-2c; No. 3 white, 65 1-2c; No. 3 yellow, 63 1-2@65c; No. 4 corn, 61@62 1-2c; No. 4 yellow, 62 @62 1-2c.

NATRON-KLAMATH LINE READY IN 18 MONTHS

Portland, Ore.—Completion of the Natron-Klamath line of the Southern Pacific within the coming 18 months is promised by Judge W. D. Fenton, counsel for the Harriman road, who says that at the end of that time trains of his company will be running between Portland and San Francisco over the new route, which will have a maximum grade of 1 per cent.

Work is going ahead on 65 miles of the new route and the remainder will be completed as soon as possible. The building of the Natron line will not only open up a large new territory that is now without railroads, but will give a low-grade freight line that will eliminate the heavy grades of the Siskiyou mountains. The budget for new equipment for the Harriman lines in this territory for the year 1910 has been made up and is in excess of the money asked in any previous year for rolling stock. The budget calls for over \$2,000,000 for new freight and passenger cars and locomotives.

Helped Some. He courted her a season, But still she was in doubt, As to the status of her mind, He couldn't quite make out.

He wasn't making progress, But when they were alone He thought he was quite lucky If he could hold his own.

DEPARTMENT OF THE INTERIOR.

WASHINGTON, January 6, 1910. PUBLIC NOTICE.

1. Pursuant to the provisions of section 4 of the Reclamation Act of June 17, 1902 (32 Stat., 388), notice is hereby given as follows:

2. Water will be furnished from the Umatilla Project, Oregon, under the provisions of the Reclamation Act, in the irrigation season of 1910, for the irrigable areas shown on farm unit plats of Townships 4 and 5 north, Range 28 East, Willamette Meridian, approved by the Secretary of the Interior December 17, 1909, and on file in the local Land Office at La Grande, Oregon.

3. Homestead entries accompanied by applications for water rights, and the first installment of the charges for building, operation and maintenance may be made on and after February 10, 1910, beginning at 9 o'clock A. M., under the provisions of said act for the farm units shown on said plats. Water-right applications may also be made for lands heretofore entered and for lands in private ownership and the time when payments will be due therefor is hereinafter stated.

4. Warning and notice are hereby expressly given that no person will be permitted to gain or exercise any right whatever under any settlement or occupation begun, or under any filing or entry made or attempted to be made in pursuance of the provisions of the Reclamation Act or otherwise prior to February 10, 1910, on any land shown on said plats and heretofore subject to withdrawal under the first form, and all such settlement or occupation, filing or entry is hereby forbidden.

5. The limit of area for entry, comprising the acreage, which in the opinion of the Secretary of the Interior may be reasonably required for the support of a family on the lands entered subject to the provisions of the Reclamation Act, is fixed at the amount shown upon the plats for the several farm units.

6. The limit of area for which water right application may be made for lands in private ownership shall be 160 acres of irrigable land for each land owner.

7. The charges which shall be made per acre of irrigable land in the said entries and for lands heretofore entered or in private ownership, which can be irrigated by the waters from the said irrigation project, are in two parts as follows:

(a) The building of the irrigation system, 50 per acre of irrigable land payable in not more than ten annual installments, each payment not less than \$5.00 or some multiple thereof per acre, except that in the case of lands heretofore entered the first installment of the building charge shall be \$18.00 per acre and subsequent installments \$5.00 per acre. Full payment may be made at any time of any balance of the building charge remaining due, after certification by the Commissioner of the General Land Office that full and satisfactory compliance has been shown with all the requirements of the law as to residence, cultivation and reclamation.

(b) For operation and maintenance for the irrigation season of 1910, and annually thereafter until further notice, \$1.30 per acre of irrigable land, whether water is used thereon or not. As soon as the data are available, the operation and maintenance charge will be fixed in

proportion to the amount of water used, with a minimum charge per acre of irrigable land whether water is used thereon or not.

8. All entries made hereafter for any of the lands described, whether for lands not heretofore entered, or for lands covered by prior entries which have been cancelled by relinquishment or otherwise, shall be accompanied by applications for water rights in due form and by the first installment of the charges for building, operation and maintenance, not less than \$19.30 per acre for irrigable land. The second installment of the building charge, not less than \$6.00 per acre, and the appropriate charge for operation and maintenance, shall become due on December 1 of the following year. Subsequent installments of the building charge shall become due on December 1 of each year thereafter until fully paid.

9. For lands in private ownership and for lands heretofore entered, the first installment of the charges for building, operation and maintenance, not less than \$7.30 per acre of irrigable land, shall become due on December 1, 1910. The second installment shall be due on December 1, 1911. Subsequent installments shall become due on December 1 of each year thereafter.

10. The first installment of the charges for all irrigable areas shown on these plats whether or not water-right application is made therefor or water is used thereon shall be due and payable as herein provided.

11. The public notices of December 27, 1907, and November 12, 1908, contain provisions to the effect that for all applications for water rights filed after June 15 in any year, one installment of the charges for building, operation and maintenance must be paid at the time of filing, but the portion for operation and maintenance shall be credited on account of the installment of said charges for the subsequent year. Such provision occurring in any public notice heretofore issued for the Umatilla project is hereby revoked.

12. The regulation is hereby established that no water will be furnished in any year until the portions for operation and maintenance of all installments then due shall have been paid. Accordingly no water will be furnished for the irrigation season of 1910 for any lands, unless the portion for operation and maintenance of the installment due on or before December 1, 1910, has been paid, and in like manner no water will be furnished in any subsequent irrigation season unless payment has been made of the portions of the installments for operation and maintenance then due and unpaid.

13. The public notices issued November 12, 1908, for the Umatilla project contain provisions to the effect that no water will be furnished in any year unless the portion of the annual installment for operation and maintenance then due shall have been paid on or before April 1. Such provisions are hereby amended to read as follows:

"The regulation is hereby established that no water will be furnished in any year until all operation and maintenance charges then due shall have been paid."

responding water-right applications, or the water-right applications for other lands, subject to cancellation with the forfeiture of all rights under any moneys already paid.

15. All charges must be paid at the Local Land Office, at La Grande, Oregon.

16. The charges may, for the convenience of applicants be paid to the special fiscal agent of the United States Reclamation Service assigned to the Umatilla Project, for transmission to the register and receiver of the local land office on or before the date specified for payment at the local land office, but in case this privilege is availed of, the necessary charges for transportation of the fiscal agent, as determined by the special agent, must accompany the payment of the water-right charges.

R. A. BALLINGER, Secretary of the Interior.
