## PERSONAL MENTION

W. H. Lyday came down yesterday from his home at Gurdane.

Fred Snyder came down from Walla Walla yesterday afternoon.

K. V. Chenoweth of Barnhart, is a Pendleton business visitor today.

Frank Hilbert returned yesterday from a business visit to the Garden City.

Mrs. Clarke Nelson has returned from a visit of several days in Portland.

George Clay, the Vansycle farmer, has been in town today upon a business trip.

Dr. W. G. Cole left for the west end of the county this morning on a professional trip.

Hiestand Moore of Echo, is among the Pendleton visitors from the west end of the county.

W. R. Taylor and wife came down from Athena this morning and are spending the day here.

Mrs. R. W. Goodman and Mrs. L. McClellan of North Yakima, are registered at the Hotel Bowman.

Home at Echo for the transaction of business at the county seat.

Mr. and Mrs. R. H. MacWhorter and son, came in yesterday afternoon from their home in Pilot Rock.

Walter and Ralph Wagner of Pilot Rock, were in the city yesterday afternoon, returning home today.

Roy Kirkley, the traveling man, was an incoming passenger on last evening's train from Walla Walla.

Theodore Howard, the architect, returned last evening from a business visit of a few days in Walla Walla.

William Slusher left this morning for his sheep ranch at Nolin. He says they will begin lambing next month.

Harry Burford, a well-known young man of Walla Walla, passed through Pendleton last evening on his way east.

J. W. Fox, the well known Walla Walla real estate man, is over from that city today for the transaction of business.

M. L. Hawkins, the Helix merchant, came in from that place this forenoon and is transacting business here today.

Attorney R. R. Johnson went to Hermiston this morning to transact legal business, expecting to return this evening.

E. J. Brown, traveling representative for the Pacific Coast Paper company, is in the city today on business for his company.

Dr. M. S. Kerr, president of the Inland Lumber company, went to Stanfield on the morning train to look after his business interests there.

PRESIDENT LEWIS SAYS  
TROUBLE NOT EXPECTED

Toledo, Feb. 2.—Hope of amicable adjustment was expressed by Thomas L. Lewis, president of the miners, when acting as temporary chairman of the joint wage scale conference of the operators and miners of Ohio, Indiana and Pennsylvania district, which opened today.

John H. Jones, president of the Pittsburg-Buffalo Coal company, and one of the principal operators present, expressed a belief that a peaceable agreement would be reached.

After a disposition of preliminary business, the conference adjourned until tomorrow morning, to await the report of the credentials committee, which deadlocked on admitting Illinois miners in the absence of Illinois operators.

President Lewis said that, when miners and operators get together to uplift the industry, there will be less risk to investment and more safety for the workmen. He said that a demand should be made of the railroads that they pay mine owners more money for coal they consume, that the latter might spend more money for the protection of their employees.

HOSPITAL FALLS INTO  
A YAWNING ABYSS

Vienna, Austria.—A terrible accident is reported from the mining village of Raibl, in the Carso mountains, Styria. Owing apparently to the working of an underground stream a chasm suddenly opened in the village and swallowed up a hospital established for the miners.

The doctor in charge of the hospital, his wife, child and five attendants were precipitated into the chasm, which was at once filled with a swirling flood of water and mud. Attempts at rescue would have been hopeless and the eight unfortunates quickly succumbed.

PRESIDENT SCHURMAN ON  
HIGH COST OF LIVING

Watertown, N. Y.—As an explanation of increasing cost of living, President J. G. Schurman of Cornell University declared before the New York state senate here that the consumption of farm products is outrunning their production. President Schurman said:

"The population of the country is increasing. The consumption of farm products is outrunning their production, and as our uncultivated lands are exhausted, it is costing more to produce articles of food than formerly.

"Look, for example, at beef. Cattle formerly were produced in vast numbers and at a comparatively small cost, on great ranches. These ranches, however, have been taken up by homesteaders. Ranching is, therefore, rapidly becoming a thing of the past. More and more, in the future, cattle will be supplied to the market from small herds owned by farmers. And meanwhile, we stand between the era of ranching, which is passing away and the era of stock raising on farms, which is not adequately developed to meet the needs of our increasing population."

Mr. Schurman then presented statistics showing the decline in the number of cattle and swine in this country in 1909.

He asked: "Is it surprising that the price of beef cattle on the farm has increased in these months 11 per cent or the price of hogs 40 per cent?"

## LORD RODNEY GETS PENSION OF \$10,000

London.—There are many peers who are receiving pensions granted by special acts of parliament to the predecessors for great naval or military service, and the latest to succeed to a hereditary pension of this kind is Lord Rodney, a youth of 18, whose father died recently at a comparatively early age.

The pension, which takes the form of an annuity of \$10,000, was granted in the reign of George III to the great naval commander, Admiral George Rodney, for the services he rendered to his country by defeating the French fleet commanded by the Comte de Grasse in 1782. The act of parliament made it clear that it was to be paid to every male heir until the Rodneys became extinct, so that it may go on for many years to come. It has already been paid for a hundred and twenty-seven years.

Other peers who enjoy pensions of \$10,000 for services rendered by their predecessors are Lord Ragan, Lord Seaton, Viscount Gough and Lord Napier of Magdala. Viscount Hardings draws a pension of \$15,000, but all these pensions will cease on the death of the present holders.

## DYING STATEMENT IS ONE OF BUTCHERY

Waterbury, Conn.—In the trial of Sophie Kritchman for the murder of Bronislaw Kulivskas, the court admitted as evidence the dying declaration of the murdered man.

The statement follows: "On Friday, September 17, Sophie Kritchman, at whose mother's home I boarded, asked me to take a walk with her in the country. When we arrived at the spot in the woods she told me to lay down, and she said: 'I will cover your face with a handkerchief and go and see who is coming.' A minute later she said: 'Damn you, I am going to kill you.' Then she shot me five times. At 5 o'clock Friday afternoon she came back and cut my throat.

"On Saturday she came back and threw a stone at me. Then Joe Mitchell shot me in the head.—Bronislaw Kulivskas."

Mitchell is said to be the girl's accomplice.

## BRAZIL GETS WARSHIP.

Dreadnought Built in England Hand-Over to the Republic.

London.—The largest and most heavily armed battleship in commission in the world, the Minas Geraes, has been handed over on the Tyne by Messrs. Armstrong, Whitworth & Co., to the Brazilian navy, for whom she has been built.

The Minas Geraes is a battleship of the most up to date Dreadnought type and displaces 18,500 tons. Her speed is 21 1/4 knots, and her main armament consists of twelve 12-inch guns, with twenty-two 4.7 and eight smaller guns as secondary armament. Her length over all is 543 feet, and her beam 83 feet. Compared with the British Dreadnought Sunb, also built at Elswick, her displacement is nearly a thousand tons greater, and she has two more 12-inch guns arranged to fire four more guns to the broadside, while her secondary armament is very much greater.

## PRINCESS TO COMPROMISE.

Considers Offer of Prince Ruspoli to Buy Back Nemj Castle.

Rome.—Princess Enrico Ruspoli (nee Berry of Oakhill, Ga.) has referred to her lawyers the offer made by her brother-in-law, Prince Umberto Ruspoli, that she take the whole or part of the sum paid by her husband for the castle of Nemj as money borrowed from her.

Meanwhile the step thus taken by Prince Umberto Ruspoli is not regarded as a favorable indication of his case, the deduction being made that if he felt sure of being in the right he would certainly not be disposed to make such an offer. What the prince offers is the original cost of the estate—about \$40,000—while the princess spent on it about \$100,000 in improvements which more than quadrupled the value of the property.

Mr. Berry, Princess Enrico's brother, has arrived in Rome and is helping his sister in every way possible.

## ALBANY MAN RINDS AURORA BOREALIS REPLICA ON ROCK

Albany, Ore.—J. G. Crawford of this city, has found a quartz bearing rock in which is imbedded a petrified vegetable growth displaying a perfect replica of the aurora borealis.

No quartzite algae like this has ever before been found. The polished stone measures about two and one-half inches long and is thought by many to be of rare value.

Roosevelt may become so habituated to shooting elephants that he can't refrain from firing some shots at the G. O. P. on his return.

Comets may come and go, but we can always depend on Miss Venus.

## HOPPE WINS ANOTHER FROM MORNINGSTAR

Pittsburg, Feb. 4.—Willie Hoppe ran up a second block of 500 points last night in his 1500 point championship 18 2 ball billiard match with Ora Morningstar, but the latter was close on his heels with 495. The total score now stands: Hoppe, 1000; Morningstar, 807.

The contest was one of the sharpest and most brilliant ever seen in this city. Hoppe ran out his 500 in 19 innings for an average of 26 6-19, while Morningstar's 495 was made in 28 innings with an average of 27 3-18. Morningstar caught the ball with a marvelous mase which was two more spectacular than a ball that two ball mase turned out by Hoppe.

In the first half of the 14th inning Hoppe pulled 99 and followed this with 91, which put him out in front. Morningstar came back in the fifth with 83 and had a fine chance to run out his string in his 17th turn. However, he missed an easy shot after getting away with a number of hard shots. Hoppe made only one point from the 16th to the 18th innings, inclusive, but ran off his required 53 in the 19th, and the balls were left in fine position for the start tomorrow night. The score:

Hoppe—45, 2, 4, 3, 0, 0, 15, 15, 16, 111, 4, 19, 1, 99, 91, 1, 0, 0, 53—500; average 26 6-19; high runs 111, 99, 91.

Morningstar—113, 29, 25, 7, 0, 3, 22, 68, 27, 2, 68, 0, 7, 83, 4, 40, 0, 495; average 27 3-18; high runs 113, 83, 68.

## WISCONSIN BOXER PUTS IT OVER DANNY WEBSTER

Portland, Ore., Feb. 4.—Frankie Conley of Kenosha, Wis., had all the better of a 19-round "no decision" boxing contest here last night. It was Conley's first appearance on the Pacific coast and he proved a great surprise to the immense crowd which witnessed the contest. As a defensive and infighter Conley is a marvel, and only Webster's superior footwork and ability to duck saved him from a possible knockout. In but two rounds, the first and sixth, did the Los Angeles fighter have an even break with his opponent. Conley's blocking was a revelation. In the second round Conley landed a terrific left uppercut to Webster's mouth, knocking out a tooth, and in the third he put Webster over the heart. In the sixth Webster made his best showing, sending in a number of good lefts to the head and rights to the body, but he was unable to do any serious damage, the Kenosha boy coming back with a series of hard body blows toward the end of the round.

Conley has challenged Monte Attell for a long distance fight before some of the California clubs and may be matched for another and longer fight with his opponent of tonight. Dan O'Brien of Portland knocked out Charles Ray of Oakland in the third round of a six round contest.

A bet on the outcome of the Hermann trial would be rather safe.
