

THE REASON WHY
Vinol
IS THE BEST STRENGTHENING TONIC

for Feeble Old People, Delicate Children, Weak, Run-down Persons, and to Counteract Chronic Coughs, Colds and Bronchitis, is because it combines the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron, without oil or grease, tastes good, and agrees with every one.

We return your money without question if Vinol does not accomplish all we claim for it.

THE PENDELTON DRUG CO., Pendleton.

PLAN FOR CORRECTION OF NATIONAL FOREST BOUNDARIES IS APPROVED

Washington.—The examination of national forest boundaries carried on by the forest officers last summer and fall upon the initiative of Secretary Wilson and under his direction, has resulted in new information, which will make it possible to restore to the unreserved public domain much land along the edges of and within forests that is not best suited to forest purposes. This is to be done under a plan just approved by President Taft. The plan was formulated by Secretary Wilson and Secretary Ballinger jointly and submitted to the president in the following letter:

February 7, 1910.
The President, the White House.

Sir:—After having carefully considered the matter of eliminations from and additions to the national forests, we respectfully recommend that the following general policy be adopted:

1. Lands wholly or in part covered with brush or other undergrowth which protects streamflow or checks erosion on the watershed of any stream important to irrigation or to the water supply of any city, town or community, or open lands on which trees may be grown, should be retained within the national forests, unless their permanent value under cultivation is greater than their value as a protective forest.
2. Lands wholly or in part covered with timber or undergrowth, or cut-over lands which are more valuable for the production of trees than for agricultural crops, and lands densely stocked with young trees having a prospective greater value than the value of the land for agricultural purposes, should be retained within the national forests.
3. Lands not either wholly or in part covered with timber or undergrowth, which are located above timber line within the forest boundary or in small bodies scattered through the forests, making elimination impracticable, or limited areas which are necessarily included for a proper administrative boundary line, should be retained within the national forests.
4. Lands not either wholly or in part covered with timber or undergrowth, except as provided for in the preceding paragraphs, upon which it is not expected to grow trees, should be eliminated from the national forests.

We have the honor to be very respectfully, your obedient servants.
(Signed) JAMES WILSON,
Secretary of Agriculture.
(Signed) R. A. BALLINGER,
Secretary of the Interior.

A definition of the lines along which action should be taken was called for by the fact that reports and maps are now in the possession of the department of agriculture which show the character of the lands and the cover along the lines of the national forest boundaries. The purpose of the department in securing this information was to make possible a correction of the boundaries on the principles now approved by the president, for it has never been intended that the national forests should include agricultural land or grazing land not suitable for forest purposes. Plans for gathering the data were drawn up under Secretary Wilson's direction a year ago, and instructions for going over the 60,000 miles of boundaries were issued to the national forest officers last May. As

a result the boundaries can now be more carefully corrected than has ever before been possible.

On the whole the changes which are found to be called for are of relatively minor importance, but in their aggregate they open to settlement a large amount of land. The application of the rules which the president has approved will mean the early restoration to the public domain of 4,000,000 acres or more of national forest land. This is something over 2 per cent of the total national forest area. Three-tenths of the forests have yet to be mapped.

Some of the land is suitable for dry land agriculture, though the greater part is grazing land. In Idaho, which has a large national area, about 470,000 acres will be eliminated of which 34 per cent is tillable. Eliminations in similar proportion will be made in a number of the other western states which have large amounts of land in national forests.

Saved from Awful Peril.
"I never felt so near my grave," writes Lewis Chamblin, of Manchester, Ohio, R. R. No. 3, "as when a frightful cough and lung trouble pulled me down to 115 pounds in spite of many remedies and the best doctors. And that I am alive today is due solely to Dr. King's New Discovery, which completely cured me. Now I weigh 160 pounds and can work hard. It also cured my four children of croup." Infalible for coughs and colds, it's the most certain remedy for a gripe asthma, desperate lung trouble and all bronchial affections, 50c and \$1. A trial bottle free. Guaranteed by Tallman & Co.

RUSH RECLAMATION WORK.
12,000 Acres Near Pasco Will be Put Under Irrigation.
Pasco, Wash.—Work on the Pasco Reclamation Company's project has been rushed with renewed vigor since the weather opened up. Contractor Burns of Spokane, who has the contract for the digging and back-filling of approximately 15 miles of trenches for the pipe line, has a force of 60 men at work. More than two miles of this work has already been completed. Several car loads of pipe have been received for the laterals and is being put in place as fast as the trenches are dug.

The concrete pumping station is well under way and work on the open ditch leading from the pumping station to the pipe line is progressing rapidly. The open ditch is a little over two miles long.

The Pasco Reclamation Company, in its contract with the land owners, agrees to have water on the lands by April 1 of this year, and they are bending every effort to make good. P. A. Devers, secretary and manager of the company, says that the water will be turned into the canal by April 1, providing the electrical company ships the machinery in time for it to reach Pasco by that time.

More than 12,000 acres is embraced in this project and the land is in the immediate vicinity of Pasco. The city will likely purchase a water right for 500 acres in the city limits.

La gripe pains that pervade the entire system, la gripe coughs that rack and strain, are quickly cured by Foley's Honey and Tar. Is mildly laxative, safe and certain in results. Koepfen Bros.

STOMACH DEAD, BUT MAN STILL LIVES

People who suffer from sour stomach, fermentation of food, distress after eating and indigestion and seek relief in large chunks of artificial digestors, are just killing their stomachs by action just as surely as the victim of morphine is deadening and injuring beyond repair every nerve in his body.

What the stomach of every sufferer from indigestion needs is a good prescription that will build up his stomach, put strength, energy and elasticity into it, and make it sturdy enough to digest a hearty meal without artificial aid.

The best prescription for indigestion every written is sold by druggists everywhere and by Tallman & Co., and is rigidly guaranteed to build up the stomach and cure indigestion or money back.

This prescription is named Mi-o-na, and is sold in small tablet form in large boxes, for only 50 cents. Remember the name, Mi-o-na stomach tablets. They never fail.

Booth's Pills, best for liver, bowels and constipation, 25c.

GREAT NORTHERN WILL EXPLOIT CENTRAL OREGON

Portland.—The Great Northern railway will exploit central Oregon, and has sent two men through that territory to get data for bulletins and other railroad publications that will describe the country thoroughly and tell prospective settlers what they may expect there. The valley of the Deschutes river tributary to the Hill road now building up the Deschutes will come in for much favorable publicity and its resources, crop possibilities and general future will be told. The Hill lines are taking an interest in Oregon that will mean much for the state.

At exhibit rooms in St. Paul, the Great Northern shows Oregon products and similar exhibits are to be maintained by the railroad company in Philadelphia and Boston. These places will direct a great deal of attention to the opportunities in central Oregon for the settler.

NOLIN NEWS BREVITIES

FARMERS ARE WORRIED OVER THE LONG WINTER

Feed Getting Scarce—One Farmer Solves Feed Problem by Ordering Traction Engine—Other Notes.

(Special Correspondence.)
Nolin, Feb. 16.—Everybody is looking at the continued winter in a serious light and beginning to wonder how the spring work is to be done when they take into consideration the scarcity and the high price of feed.

Al Balcom has solved the feed problem so far as his own welfare is concerned by ordering a 70-horse-power gasoline traction engine to do his summer following.

We have no snow but have a bountiful supply of mud.

The literary was largely attended Saturday night and an interesting program rendered.

W. A. Fraser of Despain gulch, made a business visit to our hamlet Saturday.

Jacob Rohde visited the county seat from last Friday till Sunday.

Kim Morton and wife of Pendleton spent last Sunday among Nolin friends.

Joe Dellwo has been elected to fill the vacancy caused on our school board caused by the death of Lewis Updike.

W. O. Hays and Will Godfrey have gone on a business trip to Klickitat county, Wash., where the former has extensive farming interests.

G. E. Holbrook of Colfax, Wash., was looking over the country south of here last week with a view of investing in wheat lands.

It is rumored that Matt Saari, has purchased the C. E. Marple ranch near Yoakum for \$6700. Mr. Saari sold his former home at Coe to the Finnish-Coe people for their dam site.

A party was given by Mr. and Mrs. Joe Dellwo last Sunday night in honor of Ed McCutchen's 26th birthday. Luncheon was served at midnight when St. Valentine appeared and presented Will McCutchen, a brother of the former, whose 29th birthday was just dawning.

Won't Need a Crutch.
When Editor J. P. Sossman, of Cornelius, N. C., bruised his leg badly, it started an ugly sore. Many salves and ointments proved worthless. Then Eicklen's Arnica salve healed it thoroughly. Nothing is so prompt and sure for ulcers, boils, burns, bruises, cuts, corns, sores, pimples, eczema or piles. 25c at Tallman & Co.

SUPPERGETTE HEN.

Lays Eggs with Double Yolks, Crows, But Refuses to Hatch Eggs.
Spokane, Wash.—"Philadelphia Tom" Smith for 20 years a member of the police department of Spokane, now retired, has a Black Minorca hen, which regularly lays eggs with double yolks, crows like a rooster and is, according to its owner, a confirmed suppergette. In that the fowl will not stay in the henry and hatch its eggs. One of the hen's chief feats is an egg with three yolks, which is on exhibition in the exposition rooms of the chamber of commerce. Several of the hen's double eggs have been hatched in incubators and by other hens and the chicks are large and strong, but none has yet developed the lusty crow possessed by the mother hen. Smith has tried time and again to have "Biddy" set on her eggs, but the hen simply utters a squawk that sounds like "nothin' doin'" and then crows all over the lot at the Smith home on Perry street and White avenue. Smith does not claim any credit for the remarkable performance of his hen, now four years old, but says it is a freak of nature. He feeds the hen on pounded oats and scraps from the table with plenty of pepper.

Baby Hands.
will get into mischief—often it means a burn or cut or scald. Apply Ballard's Snow Liniment just as soon as the accident happens, and the pain will be relieved while the wound will heal quickly and nicely. A sure cure for sprains, rheumatism and all pains. Price 25c, 50c and \$1. A. C. Koepfen & Bros.

PENILESS CRIPPLE EVOLVES BLACK ROSE

Washington.—Confidently asserting that after fifteen years' experimenting he has discovered a process whereby black roses may be grown, Dennis Tapley, a peniless and homeless cripple from Savannah, Ga., is in Washington to obtain, if possible, a patent upon his discovery.

He was preceded by a letter from Colonel A. R. Lawton, vice-president of the Central Georgia railroad, who has interested himself in Tapley's claims and who has asked Representative Edwards of Georgia, to take charge of the matter before the patent office.

Mr. Edwards has agreed to safeguard the cripple's interests.

The discoverer says that within the last month he has been offered \$500,000 for his secret.

COUNT SIGRAY TO WED MARSUS DALY'S DAUGHTER

Vienna.—It is understood here that the engagement of Count Anton Sigray to Miss Daly, daughter of the late Marcus Daly of Montana, will be announced shortly.

The Hungarian Count, who is now on the way to America, made the acquaintance of the American heiress at the wedding of the Duke of Braganza to Miss Anita Stewart. The Count was the best man at the wedding of Count Szechenyi to Miss Gladys Vanderbilt.

The Sigray family has declared its readiness to pay off the Count's debts, which aggregate \$800,000, if the engagement is canceled. Marcus Daly left a fortune estimated in 1900 at \$11,000,000. Of this a third was be-

When You BUILD, Build to STAY!

Re-enforced concrete and concrete blocks are cheaper in the end; are prettier, more substantial and far more comfortable in either cold or warm weather.

Concrete stands unsurpassed for Basements, Foundations, Walls, Fences and Curbing. It looks better and lasts longer than stone.

queathed to the widow and the remainder to the four children.

FRANCE'S PRESIDENT TIRED OF HIS OFFICE

Paris.—From official sources since it is learned that at the last cabinet meeting M. Fallieres offered his resignation as the president of the French Republic, saying that the state of his health would oblige him to abandon the heavy responsibility of his post. It is also a fact that the guests of the Elysee have remarked for some time his falling health. The ministers urge him not to press his resignation as a presidential election would imperil the success of his party.

M. Fallieres then agreed to postpone his resignation until May 15. The news got out, however, and a presidential crisis is virtually at hand.

Candidates are already coming forward. The three chief rivals are Antonin Dubost, now president of the senate, M. Ribot, formerly prime minister and M. Loubet, the immediate predecessor of Fallieres.

A Safeguard to Children.

"Our two children of six and eight years have been since infancy subject to colds and croup. About three years ago I started to use Foley's Honey and Tar, and it has never failed to prevent and cure these troubles. It is the only medicine I can get the children to take without a row." The above from W. C. Ornsteln, Green Bay, Wis., duplicates the experience of thousands of other users of Foley's Honey and Tar. It cures coughs, colds and croup, and prevents bronchitis and pneumonia. Koepfen Bros.

HONOR FOR ROOSEVELT.

French Academy to Welcome Him as an Associate Member.
Paris.—When former President Roosevelt arrives in Paris next April or May, he can lay aside his khaki suit, slouch hat, formidable collection of guns and numerous cameras, and prepare to don a velvet coat, ornamented with gold lace worked into the form of palms; buckle a pearl-handled sword around his waist and don a cocked hat, all of which constitutes the chief part of the regalia of a full-fledged Academician, for he is to be elected to receive this honor of associate member, and under this title will take his place among the "immortals" as the members of this most exclusive society, "l'Institut de France." Its membership includes nearly all the great men of note in science and literature since 1829. Colonel Roosevelt is booked for a number of lectures at the Sorbonne here in April an event which is already much talked about in literary circles.

Worn Out.

That's the way you feel about the lungs when you have a hacking cough. It's foolishness to let it go on and trust to luck to get over it, when Ballard's Horehound Syrup will stop the cough and heal the lungs. Price 25c, 50 and \$1 per bottle. A. C. Koepfen & Bros.

Modern Man Irreligious.

Chicago.—"We are not getting half of the college men," said Professor Mathews of the University of Chicago, to the Methodist preachers. "In too many cases the college man has an idea that his education has raised him above the conception of a religious mind. I do not believe the modern man likes Jesus Christ. I do not believe he goes to Christ naturally, but rather to Pilate. Let us not only send missionaries to China but also to modern man."

More people are taking Foley's Kidney Remedy every year. It is considered the most effective remedy for all kidney and bladder troubles that medical science can devise. Foley's Kidney Remedy corrects irregularities, builds up the system, and restores lost vitality. Koepfen Bros.
