

OLD ROMAN STATUE IS FOUND IN LAKE

BRONZE TREASURE BROUGHT UP FROM LAKE'S BOTTOM

Draped Statue of Priestess Bears all Characteristics of Empire Period—May be Representation of Drusilla, Caligula's Sister.

Paris.—The Revue Archologique contains an interesting article by M. Mallon Reinach on the bronze statue recovered from Lake Nemi, near Rome.

The statue is draped and the general appearance is that of great severity, which, however, does not exclude grace or elegance. The arms are bent inward and forward, as though occupied in laying incense on an altar.

The general style and work are characteristic of the Roman Empire period, of which it has all the rigid distinction and somewhat cold aspect. It is very difficult to know what the figure is supposed to represent, says M. Reinach. The impression is that it is a figure of a priestess, for the features lack sufficient individuality for it to be a portrait.

The history of the so-called galleys of Lake Nemi is a long one. They were first discovered in the fifteenth century, owing to some fishermen bringing up with their nets fragments of very ancient ships. Cardinal Prospero Colonna in 1446 caused search to be made.

In 1535 another and more successful attempt was made with a sort of diving bell, especially invented for the purpose. Numerous objects of art, such as portions of marble pillars and bronze vases, were brought up and acquired by the Vatican.

WALLA WALLA TO SOW MOIRE SPRING WHEAT

Walla Walla.—There will be more seeding of wheat this spring in the Walla Walla valley than for many years. Fall seeding was cut short by the early rains last year, and there has been some freezing out of grain this winter.

As to the damage done to fall grain by the freezes of the winter, it may be said that winter wheat has not been damaged, but spring varieties sowed last fall, have been hurt somewhat.

Crop prospects are hard to estimate, when it is taken into consideration that there is still much seeding to be done, and it cannot be foretold how soon the spring will open for seeding.

CANNON CONDESCENDS TO SPEAK TO INSURGENTS

Washington.—Speaker Cannon is showing some signs of unbending toward the insurgents. For years he has not spoken to Victor Murdock. To others he has not spoken for many months.

But recently the speaker has been in a more forgiving mood. The other day he got down out of the chair and went over to the vineyard of Herbert Parsons of New York, sat down and talked in the most agreeable fashion.

"No, you're awake all right. Uncle Joe's scared," said Murdock. Not alone did the speaker converse with Parsons, but he talked in the most pleasant fashion for 15 minutes with Madison of Kansas, who is badly infected with the insurgent germ.

CHAMPTON VACCINATOR IS MADE A PRISONER

Chicago.—Two hundred and fifty vaccinations at 50 cents each—\$125. That is what the people of Long Island City says Harry Brown—known as the "Vaccinating Kid"—has taken out of that city lately by representing himself as an officer of the board

Colonist O.R.&N. Colonist Rates

To OREGON and the Great Northwest

The management of the Oregon Railroad & Navigation Co. (Oregon Lines) takes great pleasure in announcing that the low rates from eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all homebuilders. Do all you can to let eastern people know about it, and encourage them to come here, where land is cheap and homebuilding easy and attractive.

FARES CAN BE PREPAID at home if desired. Any agent of the O. R. & N. Co. is authorized to receive the required deposit and telegraph ticket to any point in the east.

REMEMBER THE RATES—From Chicago \$33, from St. Louis \$32, from Omaha and Kansas City \$25. This reduction is proportionate from all other cities.

WM. McMURRAY, Gen. Pass. Agent, Portland, Ore.

C. J. JACKSON, Agent, Pendleton, Ore.

of health and compelling persons to submit to vaccination.

Whether he really vaccinated his victims is not known yet, but at any rate he scraped the arms of men, women and children, put on some preparation that caused inflammation and soreness, collected his 50 cents and sought other patients.

Detective McGill was sent to look for him and found a bristly young man wearing a cap and carrying a small bag, busy in the Hunter's Point section.

Board of health certificates and vaccination scars made no difference to him. The city was full of smallpox, he said the papers were suppressing the facts and everyone must be vaccinated.

McGill took him to the station, where he showed papers, alleged to be forged, proclaiming him an officer of the board of health. He said he was a student in a Chicago medical college and was living at the Eagle lodging house in Cooper Square.

UNIVERSITY OF MISSOURI HAS JU JITSU COURSE

New York.—If the lead set by the University of Missouri is followed, Ju-jitsu may soon be on the athletic curriculum of all the big colleges in the United States. At present the Missouri variety is the only school in the land of Uncle Sam teaching Ju-jitsu to its students. Six "experts" recently graduated and are getting ready to make a sort of educational tour to show the advantages of the Japanese form of wrestling.

Two Japanese instructors, T. Yoshida and G. Mizoguchi, are in charge of the Missouri classes. Yoshida says that Americans are just as apt in learning the tricks of the game as the Japs. Indeed among the members of the Ju-jitsu class there are at present some husky young westerners who can throw the Japs very easily.

CHINK PITCHER MAY MAKE PENN VARSITY

Philadelphia.—The first Chinese aspirant for box honors on an intercollegiate baseball field is conceded today by the University of Pennsylvania student body to stand an excellent chance to land a berth on the freshman nine.

The oriental pitcher's name is Frank Yi Kin, and he has an assortment of benders and speed that critics say will make him heard from before the end of the season.

He made his appearance when the coaches called for candidates for the first year team, and immediately he attracted the attention of the diamond bosses. While lacking in control, Frank has so much speed, the coaches say, that he is destined to get many "rah rabs" from the bleachers when the season is under way.

Connie Mack of the Athletics says he will give the oriental slabster a chance if he shows he has the goods.

\$25,000,000 TO MAKE SPOKANE BEAUTIFUL AND HEALTHY

Spokane, Wash.—Improvements involving the expenditure of more than \$25,000,000 are contemplated as part of the program of the civic plan committee, to be appointed by Chas. M. Fassett, president of the chamber of commerce, to make Spokane not only the largest inland city on the continent, but also the best place in which to work and live. Mr. Fassett said in outlining the preliminaries for the work to be started this year:

"We want Spokane to be beautiful, sane, healthy and happy. We want parks, boulevards, paved streets and a scheme of public buildings that will be a credit to our people. We want perfect water, sewage and garbage systems. We want anything that will make Spokane a better place in which to live, and with these we may trust implicitly that it will be populated by the right kind of men and women and become as great and strong as the aggregate of its citizenship. We want to combine the beautiful and the practical.

"In connection with these plans we shall also begin a movement to better the condition of the ranchers and other wealth-producers. We believe that if the country tributary to this city with the right kind of farmers, whose lives may be made as comfortable as possible, Spokane will take care of itself.

"The committee to be appointed in a few days will be divided into sub-committees on legislation, physical development, municipal administration, commerce and economics, public buildings and civic art and exploitation, but will not be limited to any one improvement or class of improvements. We are more anxious to know wherein Spokane is weak than wherein it is strong, so that we may build accordingly."

126 TONS OF FISH TAKEN IN ONE HAUL

St. Paul, Minn.—David Gautenbein, a veteran river fisherman of Diamond Bluff, Wis., made the largest haul of rough fish in the history of the Upper Mississippi at Hetanka Lake, near Waterville, Minn., when his nets brought him to the surface \$3000 in marketable fish. The haul weighed 126 tons.

This haul of fish will be sold to buyers in New York city, who, it is said, can rough river fish into imitation salmon after they have been prepared by a secret process. Agents of the fish buyers who work along the upper Mississippi say the rough fish is sold in the Jewish settlements in the metropolitan cities, but this is controverted because of the big scales which invariably cover them, making them objectionable.

Mr. Gautenbein, who is one of the largest fishermen on the Upper Mississippi, employs seven men and in his haul from Tetanka Lake used 1800 feet of net. His haul would have been much larger had not snags torn out large gaps in one end of his nets and permitted tons of fish to escape. Last winter Gautenbein set the previous high mark record haul of the Upper Mississippi when he drew 60,000 pounds of rough fish out of the Mississippi river near Red Wing, Minn., after having his men work for two months clearing the bottom of the river of snags. Seven large cars were used to ship that catch to eastern buyers. The catch netted him \$7000.

SHERMAN COUNTY HAS GOOD CROP PROSPECTS

More, Ore.—This winter has been very near a continuous performance from Thanksgiving day to present date; snow began falling the last of November and by December 3 settled to steady work; laid on ground until January 20, when went off with chinook which was stopped the next day by another cold spell; since then have had rain, snow and cold weather in about equal proportions. This week saw four snowy days, one giving four and one three inches of snow. The best feature of this weather is drawing of frost from the ground by cold

rains and snow and prevention of the uplift of sown grain fields that are so common when weather freezes at night and thaws by day; no reports of such damage this year and expect none; will be another month before can forecast condition of fall sown crops in Sherman county, but all seem to think that crop outlook and conditions are good. Ground was frozen 13 to 20 inches average this winter, something unusual and will most likely be direct means of saving all crops sown last fall.

ELLIOT RE-ELECTED.

President of Northern Pacific Will Head National Apple Show Again. Spokane, Wash.—Howard Elliott, president of the Northern Pacific Railway company, has agreed to continue as president of the National Apple Show of Spokane for 1916. He was the unanimous choice of the board of trustees, which sent a committee to St. Paul to take the matter up with him.

E. R. Carter, Van Dassel, Gordon C. Corbaley and Ren H. Rice, trustees of the third National Apple Show, made the foregoing statement on their return from an extended eastern trip. Mr. Rice, who remains as secretary and manager of the exposition, said:

"Mr. Elliott expressed himself as being highly complimented when informed that the trustees were unanimous in their request that he continue as head of the exposition this year. The committee, in presenting the request of the trustees for the interest and work by Mr. Elliott, saying also that the success of the coming show depended largely upon him again assuming the leadership.

"Mr. Elliott took occasion to again express his belief in the National Apple Show as a prominent factor in the development of one of the most important resources of the Pacific northwest, and assured the committee that he will do everything in his power to make the third exposition as great as was the second.

"We also had a conference with Louis W. Hill, president of the Great Northern Railway company arranged through Mr. Elliott, and the committee presented the general plans for the show, which received the highest commendation of both officials.

"We believe that the exhibition in Spokane next fall will be larger and better and we will leave nothing undone to make it even more interesting and instructive than the former shows. Growers all over the country are interested in this work and we look for exhibits from every district in America."

\$1,000,000 WILL DEMONSTRATE GOOD ROADS TO FARMERS

Spokane, Wash.—Henry L. Bowlby, state highway commissioner, is authority for the statement that \$1,000,000 will be expended upon 60 state-aid roads in Washington this year. The first work will be in eastern Washington in the vicinity of Spokane to demonstrate to the farmers and ranchers the value of better country highways. The Spokane County Good Roads association, headed by Frederick H. Mason, is co-operating in every way with the state officers, also arranging for the building of nearly 100 miles of roads without assistance from the state. One of the association's plans is to build a paved highway, 60 feet in width, between Spokane and Coeur d'Alene, Idaho, 34 miles, both sides being lined with apple and other fruit trees and foundations a mile apart. J. A. Perry, secretary of the association, announces that this work will begin in a short time and rushed to completion.
