Farmers Around Pine Creek and Hudson Bay Will Water 800 Acres—Creamery at Freewater Sold to Corporation—Girl Dies of Typhoid—Other News Items.

(Special Correspondence.)

Freewater, Feb. 27.—The ranchers of Pine-creek and Hudson Bay are making application for incorporation under the name of Umatilla Irrigation company. If they succeed in getting this through it will bring a large acreage of land hitherto unused under cultivation which is first class land for apple fruit orchards. It is planned to bring the water to the land by means of a high ditch and they are filling on enough water to irrigate over 800 acres of land. One of the principal promoters of the scheme in addition to the local land owners is Mr. Wintner Graham of Walla Walla.

This will mean a great deal to the Freewater-Milton country and as everything points to a wonderful fruit crop it is a good thing to have the cannery in operation right at our doors.

**AMERICAN GIRL STUDENTS PROVE GOOD DETECTIVES**  
 Paris.—The Students' Hostel for

American girl students in Paris has covered itself with glory. It all came about this way:

During the flood the parents of two American girls became extremely anxious as to their safety. A cablegram came from the State Department at Washington to Ambassador Bacon asking him to find a Miss Isolen Wick, who was tending in the Latin Quarter. At about the same time another message came to the Consul-General Masan, requesting him to find a Miss Sophia Schultz, also a student of the quarter. This was all the information the ambassador and the consul had. In their need they applied to Miss Richardson, the head of the hostel. The young ladies were not on her list, but some 500 others were. And what these 500 girls did not know of the Latin Quarter was not worth knowing.

When they heard that two American girls were missing the charge at Balaclava was nothing to the charge they made on the quarters. In just one hour a deputation returned, triumphantly bearing Miss Isolen Wick and Miss Schultz.

And now Mrs. Whitney Hoff, who mothers this institution, and Miss Richardson, who directs it, are being overwhelmed with congratulations.

**MYSTERY IN "THE HOUSE OF A THOUSAND CANDLES"**  
 In speaking of "The House of a Thousand Candles," the attraction at the Oregon theatre on Wednesday night, the Chicago Tribune says: "If you like mystery you will derive pleasure from seeing 'The House of a Thousand Candles' at the Garrick where it opened last night and kept a large audience unusually well entertained. It is just a story—not a stage transcript from life, but the story is a cleverly devised and interesting one, and holds attention from the first curtain to the last. It is a good entertainment of a high grade dramatically, and if the theatregoer doesn't patronize liberally, then it will be because the public's taste has changed mightily in the last few days."

The original production is booked here, and the management is guaranteed that the theatre patrons of the Oregon will see this play in just the same manner as produced at the Hackett and Daly's theatres in New York and the Garrick theatre, Chicago.

**A Timely Protection.** Everyone knows the after effects of La Grippe are often more dangerous than the disease. So often it leads to pneumonia, which a weakened heart action makes fatal. La Grippe coughs that strain and weaken the system yield quickly to the healing and strengthening qualities of Foley's Honey and Tar. Koeppen Bros.
