DUTCH BARON KEEPING BOOKS FOR STOCK BROKER

Spokane, Wash.—W. H. Baron Thoe Schwartzberg, a direct descendant of the House of Schwartzberg of Holland, son of Baron Ernest Lewis Schwartzberg, born in Wittengen castle in the southern part of Bohemia, has entered the employ of a local stock broker as bookkeeper to master American business methods. He left Holland in 1898 and engaged in the nitrate business in South America, afterward travelling all over Europe. Since coming to this country he has visited 46 states and four provinces in Canada, and frankly confesses he did not locate in Spokane to marry a heiress, though he will make investments in real estate for himself and associates in Holland. The baron is highly educated and speaks nine languages, writing six of them. Among his relatives in Germany are several counts and although he speaks of them with a slight evidence of pride, he does not assume any higher place in life than the man who has the everyday title of "mister."

In the last twenty-five years Yale football teams have scored 8963 points to their opponents 425. Three hundred games have been played, of which number Yale has lost but twelve—four to Harvard, six to Princeton, one to Columbia and one to West Point. Her highest score during this period is 130 to 0 against Wesleyan.

Owing to the short season in South Dakota, it has been thought impossible to raise apples, plums and other fruit, but expert horticulturists have at last solved the problem and now these fruits as well as pears and cherries promise to do fairly well.

\$1,000,000 TO BE SPENT TO DEVELOP 40,000 H. P.

Spokane, Wash.—One million dollars is the estimated cost of a plan by the Washington Water Power company to develop 40,000 horse power at the Spokane falls of the Spokane river. The company has two plans under consideration, one of them calling for the sinking of a shaft from the crest of the upper falls to bedrock in the river, a depth of 135 feet, and connecting with a tunnel to the Post street plant. The second plan is to construct a pipe line from the upper falls to the converting plant and erect a dam at the beginning of the falls. Both projects will drain the stream for a distance of five blocks in the heart of the business district. David L. Huntington, president of the company, announces that engineers have been working on the plans for some time and the engineering feats involved are attracting attention in the technical world. Mr. Huntington says it is not anticipated there will be any difficulty in securing the water rights to use the power in this manner, though a government grant will have to be secured if it is decided to build the big dam in the river.

A Timely Protection.

Everyone knows the after effects of La Grippe are often more dangerous than the disease. So often it leads to pneumonia, which a weakened heart action makes fatal. La Grippe system yield quickly to the healing and strengthening qualities of Foley's Honey and Tar. Koepfen Bros.

ARISTOCRATIC BAREFOOT DANCER IS ANNOYED

London.—Lady Constance Stewart Richardson is extremely annoyed at the numerous personal allusions which are made here in George Grosz's "Hullo, London," now running at the Empire theatre. Unless the identity of the caricature is impetuously velleed she threatens reprisals. The play places modern London under the satirical microscope, and one lady, made up like Lady Constance, gallops about the stage with a magnificent display of limbs and athleticism, but with a total absence of dress. "Why do you do this?" one character asks. "For charity," the supposed titled classic dancer answers grandiloquently.

A Night Alarm.

Worse than an alarm of fire at night is the metallic cough of croup bringing dread to the household. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. Foley's Honey and Tar has saved many little lives and is the only safe preparation for children as it contains no opiates. Koepfen Bros.

"Half the world doesn't know how the other half lives." "Possibly," answered Miss Cayenne. "but that isn't the fault of the ladies who get together with their knitting in our hotel."—Washington Star.

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys must, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.
