ECHO HAD "NEAR" FIRE YESTERDAY

GASOLINE TANK AT HOTEL HOSKINS EXPLODED

High Water in River Damaged Crib Work at West Approach of Bridge ---River Now Falling and No Further Trouble Expected.

(Special Correspondence)
Echo, Ore., March 5.—An explosion that was heard all over town occurred yesterday at the Hotel Hoskins. It was caused by the explosion of a gasoline tank. The entire fire department responded quickly but no water was turned on. A disastrous fire was averted by the heroic action of G. W. Bain, who quickly carried the burning tank and threw it out of the building and in so doing had his right arm badly burned.

Water Damaged Crib.
The high water here caused the crib work above the west approach of the county bridge to weaken yesterday. But Road Supervisor Saling with a force of men and teams immediately began to repair the damages and as the water is falling no further trouble is expected.

MAN WANTS WIFE.

He Is Willing to Do All the Cooking and Turn Over Wages Regularly.
Spokane, Wash.—Thomas Rhodes, living at Walkiki Farm, Spokane, wants a wife. He will do the family cooking and baking and fetch his wages, ranging from \$100 to \$125 a month, home as regularly as the paymaster for Peter L. Peterson, a contractor, passes the pay envelope around on Saturday night. Rhodes recently sent a letter to Mrs. M. Fryrie, matron at the Woman's hotel here, seeking a wife from among the working girls boarding there, but all claimed prior engagements or disinclination to wed. Mrs. Fryrie has volunteered to assist Rhodes in his search for a helpmeet and will forward letters from respectable women to the candidate for matrimony, also entertain the bride and groom at a wedding supper. Rhodes is 37 years of age, dark complexioned and stands five feet six inches. He is built like an athlete, is fairly well educated and does not drink or smoke.

ATHENA NEWS NOTES

SNOW HAS GONE AND SPRING IS AT HAND

Wheat Is Sprouting and Farmers Are Happy—\$50,000 Land Deal Is Made—Artesian Well at Depth of 1000 Feet.

(Special Correspondence.)
Athena, Ore., March 1.—The snow has gone and the time of the singing birds is here. The big wheat kings of this vicinity are walking in their fields and smiling as they behold the young wheat that has been growing all the time under the snow and is now well above the surface of the ground. There has been much fear among some of the farmers in this section that they would have to reseed. It will be remembered that the seeding was done last fall in ground that was very wet and the winter began early, thus making conditions favorable for the wheat to rot. This section of the country which has suffered more or less for the past two years for the lack of moisture, has had an abundance of rain and snow and with the wheat already growing the conditions are extremely favorable for a big crop this year.

A \$50,000 land deal was made here this week when John Banister, one of our biggest farmers, purchased the J. A. Badeley farm. The farm is one of the best in this section and commanded the price of \$100 per acre for the 500 acres.

The artesian well which is being dug on the lands of the Athena Land & Trust company, is now down to a depth of 1000 feet and has a flow of water equal to a little over 1000 gallons per hour. The flow is not as good as the company had hoped to strike but the water is of the very best quality.

Saved a Soldier's Life.
Facing death from shot and shell in the civil war was more agreeable to J. A. Stone of Kemp, Tex., than facing it from what doctors said was consumption. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me in spite of all remedies for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which completely cured me. I now weigh 178 pounds." For coughs, colds, la grippe, asthma, hemorrhage, hoarseness, croup, whooping cough and lung trouble, it is supreme. 50c, \$1. Trial bottle free. Guaranteed by Tallman & Co.

NEW ORGANIZATION SEEKS SQUARE DEAL FOR SETTLERS

Spokane, Wash.—Coeur d'Alene Settlers' association, just organized in Spokane with 150 resident members and W. M. Masl, jr., as president, purposes to do all it can to assist the winners of homesteads on the Coeur d'Alene reservation in northern Idaho in getting a "square deal" when they locate on the land in April. Several thousand men and women, representing almost every state, province and territory on the continent, were lucky at Uncle Sam's big land lottery at Coeur d'Alene last August and most of them will come west within 45 days to locate.

"We have a fund to begin work," said President Masl, "and we are going to get down to brass tacks. We are now making arrangements to cruise the reservation with competent men to check up on locators who seek our patronage. We won't stand for any crookedness on the part of

these professional locators. In this Judge Witten, who conducted the drawing last summer, has promised us every assistance the federal government can give to homeseekers, not only in Idaho, but also in Washington and Montana."
