March Ladies' Home Journal Patterns Ready

Newsy Notes  
of Pendleton

**Glen Shull Is Local Operator.**  
Glen Shull, a Pendleton boy who has been an operator for the O. R. & N. at Winona, Washington, for the past few years, has been transferred to this city and will be employed in the passenger depot of the O. R. & N.

**Selling Portland Real Estate.**  
L. O. Thompson and Roy A. Cook of the Portland Trust company bank, are now in the city and will have office rooms with Mark Moorhouse for ten days or two weeks. They have 100 stereopticon views of Portland suburbs and are exploiting West Portland Park in particular.

**Will Live in This County.**  
Thomas Upercraft who came out from Pennsylvania last fall and who has been spending the winter near Freewater, came down from that end of the county this morning to meet his family who arrived today from the Keystone state. Mr. Upercraft was so well pleased with conditions here, despite the adverse winter, that he sent for his family and will continue to make his home here.

**Howland Funeral Tomorrow.**  
The funeral services over the remains of Hazel-Howland will be held tomorrow afternoon at 2:30. The service is to be at the Church of the Redeemer and will be conducted by Rev. Charles Quinsey, rector of the church. The interment will be in Olney cemetery. N. Howland, father of the dead girl, Ned Howland, a brother, and Miss Rita Howland, her sister, and Mrs. Jane Wright, an aunt, are now here to attend the funeral.

**Railroad Surveyors at Work.**  
The O. R. & N. surveyors who have been at work on the line between this city and Yoakum for several months are now working just west of the city and are making their headquarters at the Hotel Pendleton. The changes to be made in the road will start from the north approach to the new steel bridge across the river just below town. Those in the party are C. C. Martin, E. R. Martin, E. D. Roberts, A. Holmead, J. P. Reid, and A. G. Ramsay.

**Runaway Boy Apprehended.**  
Felix Roumagoux, the 14-year-old son of Mrs. Felix Roumagoux of West Pendleton, was arrested at Milton on application of Sheriff Taylor and was brought back to Pendleton this morning. It seems that the boy is incorrigible and that yesterday he decided to set out to see the world. His mother notified Sheriff Taylor and the arrest and return of the prodigal followed. The boy is now being held by Sheriff Taylor until the juvenile court disposes of his case. It is probable that he will be committed to the reform school.

**Say Boy Violated Parole.**  
Deputy Sheriff Joe Blakely went to Ukiah this morning to take Louis Mettite, son of Mr. and Mrs. J. H. Mettite, into custody. The boy was found guilty of passing a forged check in this city several months ago, but his sentence was suspended during good behavior. His father, teacher and others now complain that he has violated his parole and have asked that he be taken into custody. He will be given a hearing before Judge Bean and probably sent to the penitentiary to serve out his sentence.

**Preparing for Inspection.**  
This evening company L is to be equipped with the service uniforms and gotten into readiness for the annual inspection which is to occur Saturday evening. Captain Bailey has given instructions for all members of the company to report at the armory this evening to secure their equipment. In order to accommodate the men Quartermaster Sergeant Loeding will be at the armory at 6:30. He will issue the service uniforms, shelter halves and other paraphernalia included in the field equipment. This evening the company will be drilled in the handling of the tents and put through other work preparatory to the annual inspection. The inspection this year is to be by Captain King, of the regular army.

**Chickens Attract Attention.**  
Two regulation poultry cars containing 9,000 chickens attracted no little attention in the local O. R. & N. yards this morning. The birds were enroute from Nebraska to the San Francisco markets and they formed the largest bunch of chickens ever seen at one time in eastern Oregon. They left Nebraska a week ago last Saturday and should have been sent through over the Southern Pacific. As that line is out of commission they are being sent around this way and it was probably the first time that a regular poultry car has ever passed over the line of the O. R. & N. The cars were eight tiers high and were so arranged that the attendant could feed and water the birds with the least trouble. As the original price of the chickens was 14 cents per pound, live weight, the cost to the San Francisco consumer will be rather high.

**SICK CHILD BITES DOCTOR: PHYSICIAN IS DEAD**  
Greensburg, Pa.—Dr. C. C. Burhenn, a leading physician of Jeanette, five miles west of here, died from most peculiar blood poisoning. Several days ago, while attending a child 10 years old, who had contracted diphtheria, the physician placed a finger in the lad's mouth to aid the child to free his stomach. The little patient brought his teeth down on the doctor's finger, cutting the flesh and causing the blood to flow. In a few hours symptoms of blood poisoning developed and the physician became very ill. Special physicians were hurried from Pittsburg to the sick man's side.

2 BIG SPECIALS  
FOR WEDNESDAY

Wohlenberg Dep't. Store

"The Acrobat Fly," nature vaudeville.

"The Professional Suicide," Pathé. One set Travelogues.  
One illustrated song.

**GOOSE CAUSES TRAGEDY.**

**One Man Found Dead After Quarrel Over Fowl.**

West Point, Miss.—Clay county has experienced another peculiar tragedy, brought about by the trespass of a goose.

W. J. Valentine of West Point, but who farms in the Rocky Hill neighborhood, 15 miles northwest of the city, went on the property of the Johnsons to recover a goose. It seems that there was an unfriendly feeling between the Johnsons and Valentine, and as a result, John Will and Walter Johnson, sons of Bascombe Johnson, are said to have taken Valentine before a magistrate supposedly after disarming him.

In some way Valentine secured a pistol, it is said, and shot John Johnson, who was in the buggy with him, and escaped from the other two Johnsons.

Thinking he had killed young Johnson, Valentine went to the home of a neighbor, John Hazewood, and told him that he had killed John Johnson and would immediately leave the country.

Strangely enough the bullet had entered Johnson's head back of the left jawbone, and came out his mouth, inflicting a painful but not serious wound.

Nothing more was heard of Valentine until his body was reported found in a swamp about eight miles distant from the scene of the trouble, and is said to bear no marks of violence whatever.

**Target Tournament.**  
Philadelphia, March 8.—Many crack shots will take part today and tomorrow in the big tournament of the Keystone shooting league at the Keystone shooting league at

That germ specialist who said that kissing was dangerous, but worth the risk has not allowed science to make a fossil of him.

Koepfen Bros.

Cordially invite the ladies to step into their store and be taught free of charge how to make the very best Vanilla Flavorings, and they may take home with them a free sample to see how good it is. Fifty cents worth of material will make one quart of flavoring and we sell nothing less than that amount, but you can make it up in small quantities and the balance will keep for future use. The process is new, the flavor supreme, expense subnormal.

PIGEONS DO DAMAGE TO CROPS IN ENGLAND

London.—English farmers are suffering from the depredations of enormous flocks of wood pigeons.

In several places gigantic shoots have been arranged for the slaughter of these unwelcome guests, the majority of whom have migrated in flights of tens of thousands from Scandinavia and the north of Europe generally.

The pigeon does an enormous amount of damage in fields of young clover, each pigeon eating well over half a pound of clover shoots in a day. A flight of pigeons can clear up as can a flock of sheep.

Nature has been helping man this winter in his attack on the pigeons, and large quantities of dead birds have been picked up lately in the woods and wheat fields.

In many cases the disease that has wrought this havoc has been discovered to be a form of diphtheria. It is therefore wise to bury at once all such bodies as soon as found. Otherwise the disease may be communicated to the pheasants.

Another cause of death is a surfeit

of green food, for, like sheep, the pigeon never knows when he has enough.

The cause of the diphtheria in the wood pigeons is not known, but English keepers accuse the foreign birds of bringing it over with them every year.

**Cotton Prints Advance.**

Fall River, Mass., March 8.—The American Printing company put into effect another advance, raising cotton prints one-half cent a yard and shirtings one-quarter cent a yard. The Algonquin company has announced its intention to follow suit.

This advance to a six cent basis is the third from the low mark of 4 3-4 cents to which prints were cut on May 10 of last year. The first increase announced on July 26, and effective August 10, was to five cents. On November 15 a raise of 5 1-2 cents was announced, which went into effect November 24. The new quotation puts prints at the highest level since May 28, 1908, when they were cut from six cents to 4 3-4.

Some people are always at home and listening when Opportunity knocks; others never.
