New Packing Plant Starts.
Seattle.—Portland's big new packing plant, just completed by the Swift interests has begun killink livestock. From now on, it will enlarge its operations until all the departments and allied industries are under way. It is expected to be two or three months before the big \$2,000,000 plant is in full operation. The completion of this great packing house is a big boost for the producers of livestock not only in this state but throughout the northwest. The killing department is prepared to handle about 500 cattle a day as a starter and has a capacity to handle about 500 cattle a day as a starter and has a capacity of 1000 hogs and sheep. The interest shown in livestock production throughout the big territory tributary to this market will largely determine the magnitude of operations by the new plant. Hogs reached \$11.25 during the past week.

CATARRHAL ASTHMA AND HAY FEVER

Tens of thousands of sufferers from hay fever and catarrhal asthma find great comfort and quick relief by breathing Hyomei.

Of course where asthma is not caused by a catarrhal condition, but by nervous contraction of the bronchial tubes, Hyomei is not recommended. But in a case of asthma where there is a discharge of mucous, breathing Hyomei gives most wonderful relief by soothing the irritated and highly inflamed membrane.
Mr. W. A. White, R. F. D. No. 1, Evansport, writes: "I have been bothered with asthma for over five years but could not get any relief until I tried Hyomei. I have spent lots of money on remedies for asthma and if I could not get another bottle I would not be without Hyomei for \$50. I recommend it."

A complete Hyomei outfit, including hard rubber pocket inhaler, costs \$1 with instructions for use in hay fever and asthma. Extra bottles of Hyomei cost 50 cents at druggists everywhere and at Tallman & Co.
