

Do You Want a Suit for Long-time Wear?

The suit shown in the cut is one of the quiet, refined styles of which we make a specialty.

It is so quiet it will be inconspicuous even through the second or third season.

There's nothing to soil or spoil. It will always be neat and refined in appearance.

The lining is satin that will give excellent service. If it should not last through two seasons' active wear, return the garment and we will re-line it without question and without charge.

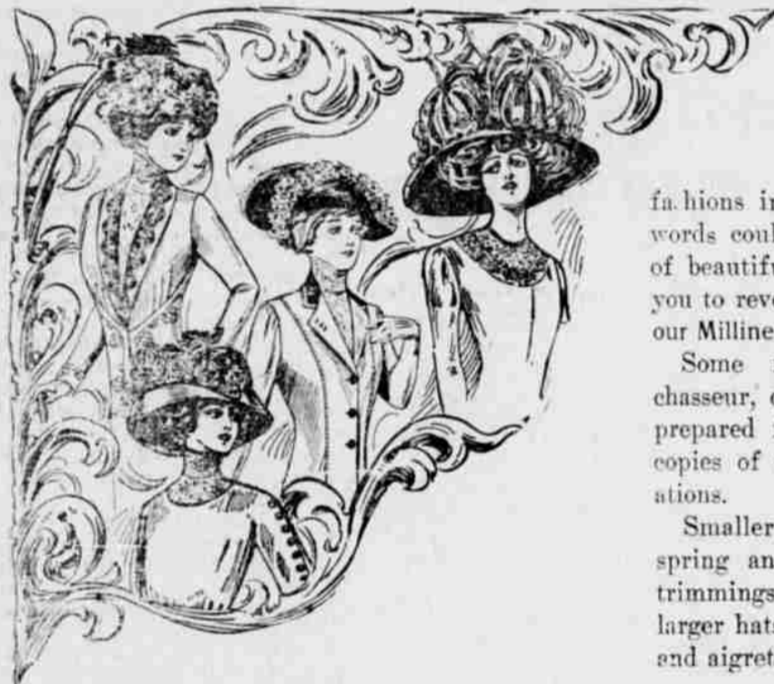

The collar is put on in the famous Wooltex way—lined with melton, like a man's coat collar.

The skirt hangs well now and will do so as long as the garment lasts.

We urge you to come in and examine our new spring suits. Even if you are not ready to buy, you will enjoy seeing these charming styles.

On this guarantee we are authorized, by the manufacturers, to make good, without question, whenever called on to do so.

Rumors of an attempt to blow out the dam in the dam is said to be the cause of the present trouble.

real article was pronounced flat and insipid, while the "near" beer was thought to be the best ever. The official thinks there is a great deal in a name after all, but owing to the verdict of the innocent judges it looks rather dark for the "near" beer in this town.

Chief of Police Sullivan is said to be uneasy and discouraged, being confronted with charges growing out of cases of alleged brutality in the street speaking fight and because an investigation is being made into his department by a committee appointed by request of the United German societies, the Women's club and the labor unions.

Settlers to Southern Oregon.

Shaniko, Ore.—Early last week eight covered wagons in one train purchased heavy supplies from local stores and since then 32 prairie schooners have sailed from this port for points as far south as Silver Lake, 185 miles, though some will locate near the Deschutes river towns of Bend, Redmond, Laidlaw and Madras. Lately some excellent homesteads have been located within a few miles of Antelope and Mitchell, tributary to Shaniko.

Wagon roads into the interior from this point are rapidly improving, and if present weather conditions prevail another week, teamsters and automobile men say they will be positively good.

Since the washouts on the railroads have been repaired, every train into Shaniko has been heavily loaded. Within a few days when the people of the east find there is no danger of being held up by floods, it is believed travel will increase materially because of the low colonial rates now prevailing on transcontinental lines.

MRS. POTTER GIVES A TOAST TO WOMEN

London.—At the woman's dinner of the Imperial Industries club at Prince's restaurant, Mrs. Brown Potter replied to the toast of "The Ladies."

"Women," said Mrs. Potter, "occupy a great place in the field of work today. They go shoulder to shoulder with men. Men cannot better themselves without helping us. You cannot help us without bettering yourselves. The greater your power and influence, the greater ours. We don't think it matters much whether you care to let us pass a little bit of paper in the ballot box. We influence your politics, science, art and industries."

Mostyn Pigott, proposing the toast, said he had come back from a very strenuous time campaigning, and he had come back strongly of the opinion that if there were no women in the country there would be no politics. There was no single occasion on which a candidate made a bright remark, he said, but the women were the first to see the joke and were the only people in the audience who did see it some times.

He had found out that the only way to work an election was to appeal to the women. That is, he declared, the chief reason why they could never give the women the vote; they are too strong as it is.

Now Laugh, Darn You!

Chicago.—Elbert Hubbard, alias "Fra Albertus," who broke into "vodevil" in Chicago this week, has scored a distinct success, and will follow up his stunt here with visitations upon Milwaukee, Cincinnati, Omaha, Kansas City and possibly other seaports.

The "Fra" doesn't do a Salomy dance, nor does he attempt to sing, his turn consisting of a "talkfest" in which he describes Rostand's Chantecler, roasts Peary, defends Dr. Cook, and permits the following choice bon-mots to exude from his oratorical system: "The school board in Athens had

no room for Aristotle, which leads me to suspect that it was much like our school boards of the present day." "There are two great religions in America—the religion of Christ and the Christian religion, and if you ask me if the religion of Christ is a fallacy, I must say that it has never been given a fair trial."

"We are only in the making. The smell of paint is still upon us, and I sometimes think the six days are not yet ended."

"The best society in Babylon and Nineveh was very much like the best society in Chicago, so far as I can see, and Moses antedated J. Ogden Armour in meat matters."
