

NEWS OF THE NORTHWEST

**Condon Starts Boosting Fund.**  
Condon, Ore.—At a rousing booster meeting here Wednesday night over \$1000 was subscribed for advertising Gilliam county. This, with \$400 raised at Arlington Tuesday, easily covers the guaranty required by the O. R. & N. company as the condition of its spending \$4 to each dollar subscribed.

**A Suicide at Seattle.**  
Seattle.—Sick and despondent after an alleged spree, Edward F. Tressler, brother-in-law of retiring Chief of Police Ward, shot and killed himself at 11 o'clock yesterday morning at the Ward home. He was 36 years old, unmarried, and made his home with the Wards. Since election day he is said to have been drinking heavily.

**Breaks Pigeon Shoot Record.**  
Vancouver, Wash.—In a clay pigeon shoot at Yacolt last Sunday Ralph Moon of the Yacolt Gun club broke 94 out of a possible 100, establishing the highest score made this year in Clark county. Hills of Portland held the record of 92 birds. The Yacolt Gun club is composed of five members and they expect to issue a challenge to Vancouver and Portland clubs for a contest.

**Bold Bad Boys.**  
Vancouver, Wash.—Each with a revolver strapped about his waist, a bowie knife, 20 rounds of ammunition and a blanket, three St. Johns, Ore., boys—Clair Peters, Amos Jones and George Schmisler—were arrested in Vancouver Wednesday night and given lodging in the city jail. The boys are 16 and 15 years of age respectively, and had started out to see the world when intercepted by the police.

**Women Hear "Irrigation" Talk.**  
Oregon City.—A well attended meeting of the Oregon City Woman's club was held Wednesday afternoon in the rooms of the Oregon City Commercial club. The principal feature of the program was an interesting paper on "Irrigation" and an informal talk on "Dry Farming" by Mrs. A. King Wilson of Oswego, chairman of the irrigation committee of the State Federation of Woman's clubs. Following the paper and talk a general discussion of irrigation and dry farming was enjoyed.

**Motor Service on S. P.**  
Eugene, Ore.—Local Southern Pacific officials have received notification that a gasoline motor service will be inaugurated next Monday between Springfield and Albany on the east side branch, thus bettering the passenger service out of Springfield, which has been very inconvenient for a long time. At present the only passenger train out of Springfield on the branch leaves at 4:30 o'clock in the morning and arrives later than 10 o'clock at night. The motor will probably leave at 7 or 8 in the morning and return early in the evening.

**Homestead Ruling Pleases.**  
Aberdeen, Wash.—Some 20 or 30 settlers in the Quinalt and Hoh districts will be affected by the order of Secretary Wilson granting homestead rights to bonafide claimants on unsurveyed lands in forest reserves. But few of the 50 old families in the Quinalt country will be affected, but the statement was made today that several on the Hoh will profit by the order. The order of the secretary is also construed to make agricultural lands in the forest reserves of the Olympia district and straits country available for settlement.

LURID LIGHTS BURN AND SEATTLE REJOICES

Seattle.—The restricted district storm has begun to break over Seattle. There have been rumblings, but the real storm breaks with the reopening of the old King street tenderloin. The King street district and the "Midway" were running in their old time glory last night and were crowded with a motley assortment of humanity. There are scatterings of redlights farther south, where Mayor Gill semi-officially announced that the district was to be, but the white lights and the crowds were all in the old tenderloin last night.

Aroused from their fancied security, induced by Gill's campaign promises, the residents of the First, Second and Fourteenth wards are up in arms. Councilman Eugene Way, one of the few Gill councilmen, and the only one that appeared with him on the platform, has announced that he will resign from the council immediately unless the district is closed at once.

"From the platform Mr. Gill promised the people of my ward that, wherever the district was located, it would not be against my wishes," said Way, "and in turn I assured the people of the ward that I would protect them. Gill has absolutely ignored his promise."

Five carlines pass through the reopened redlight district.

NEW PROVISIONS FOR SMOKING TOBACCO

Washington.—Tobacco, snuff, cigars and cigarettes in the hands of jobbers and dealers removed from factories prior to July 1 next, will not be subject to the increase in the tax of from 4 to 5 cents per pound provided for in the Payne tariff bill. This announcement was made by Mr. Cabell, the commissioner of internal revenue in a circular letter to collectors throughout the country. The increase provided for, he sets out, does apply to packages removed from the limits of bonded premises of factories or custom houses after midnight of June 30. Thousands of inquiries had come to the office on the subject.

Notice also has been given by the commissioner that in accordance with the new law, on and after July 1, the caution notice and factory brand must be on each statutory package of cigars and cigarettes of domestic manufacture, irrespective of whether such caution be on an outside retainer or not.

WHAT THE FREEDOM OF LONDON MEANS

London.—In view of the fact that considerable discussion has been aroused in the action of the corporation in deciding to confer the honorary freedom of the City of London on former President Roosevelt on the occasion of his approaching visit, the London press is taking pains to explain the proposed honor and its significance.

It seems that though a presentation of this kind is called the honorary freedom, foreigners of distinction on whom it is bestowed are naturally not expected to take the oath or make the declaration of allegiance to the British crown, and they are consequently not recorded as freemen in the chamberlain's court. But in every other respect the ancient ceremonial is carried out, and the distinguished visitor is handed a copy of the resolution of freedom in a gold box and the chamberlain offers him the right hand of fellowship as a citizen of London. This was the procedure adopted in the cases of Garibaldi, General Grant, George Peabody and Count Ferdinand de Lesseps.
