DEPARTING TEACHERS PRAISE PENDLETON

BEST TREATMENT EVER SAYS PRESIDENT WRIGHT

Excursion to Agency Was Pleasant and Furnished Climax to Session—Indian Children Drilled and St. Andrew's Band Played for Visitors.

"I have attended eleven of the conventions of the Inland Empire Teachers' association and never before have I seen the convention so well accommodated and entertained as by the people of Pendleton this time."

This declaration was made last evening by A. N. Wright, of Lewiston, newly elected president of the Inland Empire Teachers' association. Similar sentiments were to be heard on every hand yesterday afternoon and evening. The convention closed with the very best of feeling prevailing towards this city and that Pendleton will derive much good from the gathering is generally predicted. An indication of the esteem in which the teachers hold this city may be gathered from the fact that yesterday Superintendent Landers was besieged by teachers who desired to file applications for positions in the Pendleton schools. Many of the applications were from teachers who already have positions in cities that are larger in population than Pendleton. Such applications were made with the explanation, "I like Pendleton and would like to teach here."

At the Agency. The trip to the Umatilla agency yesterday furnished a fitting climax to the three days' convention. The weather was beautiful for the occasion and as a result the main body of teachers went upon the excursion. To accommodate the throng a special train of six coaches was run to the agency. The train was run under the personal supervision of J. H. O'Neill, traveling passenger agent, and Conductor Gordon Menzies was in charge of the train. Five hundred people made the trip by train while a number of private parties made the run in autos.

When the train arrived in front of the agency Major Swartzlander and the battalion of little Indian pupils were in line to receive the visitors and they made an interesting sight. The juvenile band from St. Andrew's mission, the Catholic school upon the reservation, was at the head of the procession, under the charge of Brother Urban George. As the train stopped the band played a welcoming air. During the stay at the agency several other selections were rendered by the

band and the young musicians made a decided hit with the crowd.

From the train the excursion through proceeded to the agency school buildings, which were open for inspection. Following this a fire drill was given. The agency fire bell was rung and the children rushed to their stations and quickly formed into lines under their instructors. Water from two hose lines was turned upon one of the agency buildings. The rapidity with which the children responded to the call and the general good discipline maintained brought forth many favorable comments from the teachers.

Major Lee Moorhouse took a group picture of the Indian organizations, with a portion of the excursion crowd forming the background.

Returning, the excursion train arrived in Pendleton shortly before 5 o'clock.

The Walla Walla teachers and others going northward, left on the evening local train going in that direction. The Baker City and La Grande contingents left by special train about 7:30. The remaining teachers left on various trains during the night and this morning.

\$100,000 LAND DEAL ABOUT CONSUMMATED

One of the most important real estate deals ever made in Umatilla county is now in process of consummation. A total of 800 acres of land in the vicinity of Hermiston, representing a \$100,000 transaction, is about to pass from the hands of W. H. Skinner into those of Dr. Henry Waldo Coe of Portland, Stanfield and Hermiston.

While the deal has not yet been consummated, it is understood that it has reached that point where there is no longer any danger of a "hitch," and its consummation is now only a matter of a few days.

By purchasing this land, Dr. Coe not only acquires all of the country holdings of W. H. Skinner, but he also becomes a partner of the Newport Land & Construction company and with the two men pulling together, who as individuals have done as much as any other two individuals for the development of the west end of the county, the people of the west end feel that the future of that section is more than assured.

It is understood that Mr. Skinner will retain possession of his town property and will continue to make his home in Hermiston.

Out in eastern Multnomah county farmers have to dig last year's potatoes now in order to plant a new crop. Thus they get two potato crops this year.

PERSONAL MENTION

Al Johnson of Athena, is a Pendleton business visitor today.

H. M. Straw of Hermiston, is a Pendleton business visitor today.
