........... PARTY REVISION NEEDED.

The fight that is being made in insurgent congressmen shows the coming summer? need of a new political alignment in the United States. For instance in made to defeat Norris, the leader of republican machine. So every possible argument is being made agains him. His course in congress has been misrepresented to his constituents making headway.

In this attack on the insurgent leader many democratic papers of Nebraska are joining. They may be acting from a sense of party loyalty but it is more probable their attacks are inspired by the same forces that are backing Cannon. It is an old trick for the machine elements of the two big parties to unite to crush an unruly member of one party of the other, usually of the dominating

Now regardless of the motives back of democratic opposition to Norris It is a fact that the "liberals" of Nebraska are divided. Some of them will be with Norris in the insurgent republican camp while others will be in the democratic fold. The liberals being thus divided it is easily possible that the "regulars" may win out life from being misunderstood, have and succeed in defeating Norris. If you not? they do Norris will go down as a vicalignment and his defeat should serve haven't suffered half as much as as a warning to the progressive or would have if I had been understood." liberals to unite under one organiza-

THEY ALL NEED TRAINING: "

From educational meets such as the Inland Empire convention come ing methods and in general school policy. This statement is brought forth by the comments that have been made by the papers of the state regarding the debate between Messrs Ressler and McKinney upon the subject of school athletics.

For the rost part the comments show approval of Prof. Ressler's stand. In the discussion that gentleman took the position that the present athletic system is lacking in that too much attention is devoted contended that systematic physical training for all students is of more importance than the coaching of a few men for a contesting team. This is a position that is undoubtedly well taken. Certainly it would be better to bring about a fair degree of physical development on the part of an entire student body than so overto turning out a "first team." He

train a few "stars." This is a fact that is already quite well recognized by school authorities and the recognition of the fact has caused a strengthening of courses in physical culture and the arrangement of more class games. All of this may be done without lowering the standard of the interollegiate or interscholastic games. On the contrary the participation in athletic work by the greater number of students should tend to improve 1,50 the big games. But if there should 570 be conflicts more consideration should 1,50 be given class work and class games 770 than to the big contests. The object in educational work is to develop the individual not to turn out victorious high school or collegiate teams.

A "WHITE SLAVER" CAUGHT.

The death of little Ruth Wheeler, New York stenographer, at the hands of Albert Wolter, should aid owerfully in the move to wipe out murder of this girl was a horrible crime and if reports are true it was ommitted by a typical "white slave" trader. Wolter it is said lured the girl to his apartments through an advertisement offering employment. He had no employment to offer her but of prostitution. He probably killed her because she refused and threatened to expose him and his nefarious business. It is too bad that Wolter and all of his ilk who are caught cannot be burned at the stake. It would be fitting punishment and at the same time would break up a fiendish practice that is becoming more and ore a disgrace to civilization.

WELCOME WORDS TO WOMEN

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally need-
