Agents for Carhartt Overalls, H. & L. Blocks Gloves, Jno. B. Stetson Hats, Napa Tan Shoes.

### FROM THE SPORTING WORLD

**Vernon 5; Portland, 2.**  
Los Angeles, April 8.—Vernon pulled ahead of Portland in the fourth inning of the game here yesterday between teams of the Pacific Coast League, and stayed so to the end. The score was 5 to 2. Portland used three pitchers in an attempt to stem the tide. It was Vernon' superior playing more than hitting that kept Portland runs down. Score:  
R. H. E.  
Vernon ..... 5 11 2  
Portland ..... 2 9 2  
Batteries — Hitt and Hogan; Garrett, Kratzberg, D. Ryan and G. Fisher.

**Frisco 3, Oakland 1.**  
Oakland, Cal., April 8.—In a stubborn 15 inning game, San Francisco won from Oakland yesterday by a score of 3 to 1. With three on bases in the final inning, Wares returned Williams high bouncer with a wild throw over Cameron's head and Melchior and Tennant scored. Oakland's lonely tally was earned in the third and San Francisco's other run came to them in the seventh. Score:  
R. H. E.  
San Francisco ..... 3 13 6  
Oakland ..... 1 7 1  
Miller and Williams; Christian and Mitze.

**Los Angeles 7, Sacramento, 0.**  
Sacramento, Cal., April 8.—Los Angeles hit Baum for four singles and a double in the third inning yesterday which coupled with two walks and two errors netted six runs, the game going to the visitors, 7 to 0. Brown relieved Baum and held the visitors down to one run for the balance of the game. Score:  
R. H. E.  
Los Angeles ..... 7 12 0  
Sacramento ..... 0 3 3  
Batteries — Briswaller and Orendorff; Baum, Brown and La Jonge.

**Roller Loses to Turk.**  
Kansas City, April 8.—Yussif Mahmout, the Turkish wrestler, defeated Dr. B. F. Roller of Seattle in straight falls in their match here last night. The first fall came in 35:30 with a double wrist lock and a scissor. The second fall took but two minutes and 20 seconds and was obtained with an arm lock and a half-Nelson.  
Roller never appeared to have a chance to win. Mahmout forced the contest from the beginning and obtained dangerous holds with little difficulty.  
The physician did not have the Turk in trouble at any time.

**WILLIAM J. WARNER**  
U. O. FOOTBALL COACH  
William J. Warner, graduate of Cornell in 1902, who has been coaching continuously for the past seven years, without ever having turned out

a losing team, is to coach Oregon next fall for a salary of \$1200 and expenses says the Eugene Register.  
While in Cornell, Warner made the football team for four years straight, and was captain during his junior and senior years. He was three times chosen for the All-American team by Walter Camp.

**WHEAT DAMAGED WHERE THE ACREAGE IS LIGHT**  
By Crop Critic.  
Chicago.—Having covered Oklahoma, Nebraska, Missouri, Illinois, and the western counties of Indiana, to sum up the situation briefly:  
Portions of Kansas have suffered severely, but fortunately the damage is confined to central and northeastern counties, where wheat acreage is lightest, but such counties as Harvey, Marion and McPherson, where damage is most pronounced, have much larger areas than northeastern counties. There will be quite a liberal area abandoned. Western, southern and the southeastern counties have good prospects at this date. Missouri will also suffer loss, chiefly in northern counties. In fact, there will be some loss in nearly all the states I have covered, but the increased area, I think, exceeds even the larger figures given by the government in December, which largely offsets prospective loss.

Taking southern Indiana and Illinois, where the acreage has remained stationary for years, and the limit of areas has been considered reached, even here we have an increase over former years, while the northern portions of these states show a marked increase. The cry for the past two weeks has been for rain; fortunately we have been far from it. If one will only consider the more than average abundance of moisture during December, January and February, a period of dry weather was absolutely needed. The dry weather with clear skies has strengthened the wheat plant. It is deeply rooted, color is good and all that is needed now is occasional rain to give us hopes for an abundant harvest.  
In reference to corn in the country, both country elevators and farmers have been looking for high prices. Much disappointment is expected both by country dealers and farmers who have large holdings at the limited demand this spring.

### ROOSEVELT IS ENVIED.

**British Sportsmen Open Eyes Wide When Part of "Bag" Arrives.**  
London.—For authorizing Theodore Roosevelt to shoot big game practically at will wherever he chose to go in British Africa, the English government is coming in for much bitter criticism from sportsmen here.  
The matter was brought conspicuously to their attention by the arrival of a number of Roosevelt trophies for mounting by Rowland Ward in Piccadilly. In view of the fact that they are considered unimportant and unrepresentative of the entire "bag," local big game hunters who have seen them turned green with envy.  
The trophies which have already arrived, they say, are several of them very rare, and indeed, conspicuous by their absence in British museums.  
Sometimes it seems as if the law was designed to defeat justice.

### LOCAL BOYS WILL BOOST FOR OREGON

#### STUDENTS AT UNIVERSITY TO INCREASE ATTENDANCE

William Lowell and Arthur Means Will Have Charge of Booster Movement in Umatilla County—"800 in 1910-11" Is Slogan—"Get Together Movement Also Inaugurated—President Campbell Outlines Move.

(Special Correspondence.)  
University of Oregon, Eugene, Ore.—The boosting spirit has invaded the University of Oregon and has stirred the students to a high pitch of enthusiasm. "800 in 1910-11" is the slogan which has been adopted and an earnest effort will be made to bring the attendance at the departments in Eugene up to that number by the opening of college next fall. Committees have been appointed to undertake the campaign in different counties, and a movement will be begun immediately to interest high school students in higher education. William Lowell and Arthur G. Means have been appointed to conduct the boosting in Umatilla county and in addition, form two of a committee of three which will have general supervision of the whole work.  
Professor L. R. Alderman, the originator of the movement, outlined the plan of work at a meeting of the committee the other day. The students appointed on this committee, are, he said, as nearly as possible representative of every high school in the state. These students are to organize by counties the rest of the students in the university who live in the state. These county committees, under the leadership of one or more students from the county appointed by President Williams are to keep the people of their own county and particularly the students of the preparatory schools who are graduated this spring interested in the university, with the purpose of inducing them, if possible to enter here next fall. The county committees are to write articles for the local papers, dealing with the work the local students are doing here. The high school publications are to be supplied with material, also.

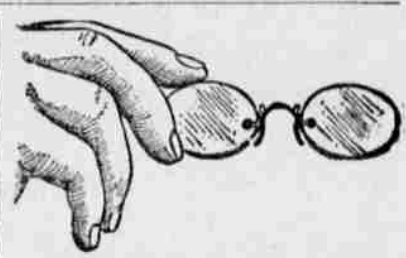

"Get Together" Movement.  
Another movement is also on foot at the university in which students, faculty and friends alike are interested. The object and purpose of this movement will be a united effort for a greater institution.  
In speaking of this "Get Together" movement in assembly the other morning President Campbell outlined the needs of the university, what its aim was and what the university stood for.  
It was pointed out that the university should be removed from all personal and individual feeling and should be presented to the people of the state as a whole and on its merits. The great growth in all departments of the university including law and medicine in Portland, is indicative of what future growth will be. Coincident with increase in enrollment has come an increase in funds until the present annual budget is about \$140,000. Great interest is being taken in state institutions of higher learning; California on the south has a budget of over a million dollars a year. Washington on the north supports her state university with nearly half a million. Few years ago neither of these insti-

Rates \$1 a Day and Up. European

tutions had a larger appropriation than Oregon now has. Success is before Oregon, and it is as sure as the increased funds that are needed to make the university representative of the state.  
Departments of commerce, finance, fine arts and journalism should be established to meet increasing demands for courses in these branches.  
Campus should be increased while land is cheap. Large new buildings should be south of 13th street. The buildings most needed are administration, auditorium, fire proof building for various collections, and larger library. Engineering department should be enlarged and girls dormitory should be added to the campus.  
Adjoining the cemetery there are 22 acres that should be purchased for an athletic field. Different sports could be all held here with plenty of room for each. Though these plans seem visionary, they are just what the students and faculty are going to work for. The people over the state are busy with their work to a large extent and it becomes the duty of those interested to make known the needs felt to be urgent.  
Anything can be done. Examples of this can be cited in building transcontinental railroads, Panama canal and in flying machines.  
President Campbell emphasizes the fact that Oregon had ceased to be a boys' and girls' school, but is a college for young men and women, and that the practice of hazing has passed out and will be no more at the university of Oregon.

### To The Public

I have added an up-to-date optical department which will be in charge of

### A. E. SERUM

Optometrist

who has had years of practical experience. Your optical work will receive thorough attention.

### FARM FOR SALE

160 Acres of Good Farm Land  
160 acres in cultivation. Suitable for potatoes, berries or other produce. Two miles from Weston, Oregon.

Call if interested on  
**Mark Moorhouse Company**  
112 East Court St.  
Phone Main 88.

Daily East Oregonian by carrier, only 15 cents per week.

Colonist **O. R. & N.** Colonist  
Rates **OREGON SHORT LINE** Rates  
AND UNION PACIFIC  
To OREGON and the Great Northwest

The management of the Oregon Railroad & Navigation Co. (Oregon Lines) takes great pleasure in announcing that the low rates from eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

## People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all homebuilders. Do all you can to let eastern people know about it, and encourage them to come here, where land is cheap and homebuilding easy and attractive.

FARES CAN BE PREPAID at home if desired. Any agent of the O. R. & N. Co. is authorized to receive the required deposit and telegraph ticket to any point in the east.

REMEMBER THE RATES—From Chicago \$33, from St. Louis \$32, from Omaha and Kansas City \$25. This reduction is proportionate from all other cities.
