April Ladies Home Journal Patterns

Newsy Notes of Pendleton

Official Weather Report. Minimum temperature, -47. Maximum temperature, 63.

Three Marriage Licenses. Marriage licenses have been issued to Roy E. Vaughan and Zaida M. Payne; Harry E. Heathman and Viola Bois and to Charles W. Gillingham and Nena Roberts.

Census Supervisor Here. Seneca Beach of Portland, district census supervisor, is here today and is meeting with the deputy supervisors for this county at the city hall. The purpose of the meeting is to be sure that each one understands the work which he is to do.

Teachers to Examine books. Miss Batterson, librarian has extended an invitation to all the teachers in the city to call at the free public library Saturday morning from 10 o'clock until 11 o'clock to examine the shipment of books just received. This will take the place of the regular story hour this week.

Two Deaths in Family. Mrs. Ritta Wombach, the trained nurse, has just returned from Spokane where she attended the funeral of her sister, Mrs. Theodore Peterson. Just prior to making that trip she was upon a sad mission to Los Angeles, to attend the funeral of her father, F. Webster.

Concrete Floor and Walk. The concrete floor at the O. R. & N depot has been completed and the crew of workmen is now engaged in making the concrete platform which is to extend completely around the new building. The structure, as well as the walk is rapidly nearing completion and according to recent indications will be ready for occupancy within a few weeks.

Railroad Officials Here. Superintendent William Bollons, Assistant Superintendent A. Buckley, and Division Engineer Lonergan, are in the city today in an official capacity. The superintendent came in last evening in his private car and has been here since that time. Mr. Bollons stated, however, that it would be impossible for him to join the Pendleton business men tomorrow on the initial trip of the motor car.

Elks Held Installation. Last evening was a "big time" with the Pendleton lodge B. P. O. E. It was the occasion of the annual installation and the following were inducted into office: Frank J. Quinlan, exalted ruler; Mark Moorhouse, esteemed leading knight; Carl Cooley, esteemed loyal knight; Henry Collins, trustee; Thomas Fitz Gerald, secretary; and Thomas W. Smart, Tyler, C. E. Ruppe, esteemed lecturing knight, was not present for installation. The installation was by C. J. Ferguson, past exalted ruler. G. W. Phelps, is the retiring executive of Pendleton lodge.

Minneapolis Contractor Wins. W. D. Lovell, a contractor of Minneapolis, has been awarded the contract for the erection of a new barn and stables at the Umatilla agency to replace the one destroyed by fire last fall. The contract is now in the hands of Lovell for execution and the work will start soon after it is approved by the government since the contract calls for the completion of the structure within 90 days after it is approved. Though not known here, it is understood that the Minneapolis man is a contractor of high standing and has done much work for the government.

Debate at La Grande Tonight. The debating team of the Pendleton high school left last evening for La Grande, where the interscholastic championship of eastern Oregon is to be settled tonight. The Pendleton team is composed of Fanny Ireland, Peter Crockett and James Hartwell. They were accompanied by Principal A. C. Hampton who has acted as coach during the preparation for the series of debates. The question to be discussed is the same as that for the other debates which have been held and the Pendleton team will defend the negative, the same side with which they won from the Condon team, here, recently.

Trip Around The World. Tonight is the night when citizens of Pendleton who have long thirsted to travel on foreign strands are enabled to have their wishes gratified and that too, without encountering any of the inconveniences incident to a voyage on the sea. The ladies of the city have spent the last few days in transforming several of the homes of the city into miniature prototypes of strange lands and all of the prominent features of each will be represented. The town has been pretty thoroughly canvassed by ticket sellers, but a good supply is still on hand and will be sold both at the Pendleton hotel, where the start is made and at each country represented.

GUESTS CATCH OWN FISH. Latest Innovations Please Epicures in Chicago Hostelry. Chicago.—Hotel proprietors and managers from eastern states caught brook trout and black bass in huge live fish tanks at the Blackstone Hotel today and watched them later being cooked for their luncheon, which was served in the unfinished structure at noon. This feature of modern gastronomy has been provided by the hotel management to attract those guests who insist upon eating absolutely fresh fish. The eastern visitors, who are on their way to California to attend the hotelman's convention, applauded the idea. Although the hotel is still unprepared for guests, it was possible to entertain the delegates in the English room on the second floor of the

structure. The new \$3,000,000 hostelry will open its doors to the public next Tuesday. The individual "drink wagons," which are wheeled from table to table and on which are all the ingredients of mixed drinks, will be installed in the room for epics.

CZARINA MUCH IMPROVED.

Russian Proletariat Is Not Over Enthusiastic at the Announcement. St. Petersburg.—The Czarina's health has undergone a very perceptible improvement of late. Her Majesty's absence from the official dinner given to King Ferdinand was not the result of indisposition but fear of fatigue. The Empress not only drives and walks in the gardens of Tsarkoe Selo, but grants fairly long sittings to an Italian sculptor, Signor Canonico, who, having fashioned an admirable bust of the Crown Prince, has been commanded to make one of the Empress.

The Crown Prince is now quite well and strong. He had been suffering from two slight attacks of subacute rheumatism, contracted in Crimea in consequence of too-protracted sea-bathing.

The Czar continues to visit the capital quite frequently, sometimes prolonging his visit until the evening, and he invariably drives alone. Several days ago, as he was returning from the principal thoroughfare, the Nevsky Prospekt, to a side street, a man fell on his knees before the Emperor's open victoria, and held a sheet of paper aloft. The Czar made a sign to Commandant Dedyullin, who was following in another vehicle, to take the petition, which was done.

SETTLERS MUST PROVE UP ON DESCHUTES LAND

Bend, Ore.—Due to the expiration of the time limit for "proving up" on their irrigated tracts, purchased three years ago, more than 300 families are expected to move upon their land under the segregation of the Deschutes Irrigation & Power Co., adjacent to Bend. The special reason for this heavy immigration is the ruling of the state land board which requires settlers who bought their land under the provisions of the first contract issued by the Carey Act company, to take up their residence and make proof on the land before this November.

The Grand Friday and Saturday.

An excellent program will be presented for the balance of the week and was well appreciated by two well filled houses at both performances last evening. Jack Irwin & Co. assisted by Marie Swain, in "The Man from the North," made good with the audience at both performances.

The Leighs in a dainty musical and juggling act, is one of the best that have appeared here. Toney Regini, singing comedian, in comedy songs and parodies had the audience in good humor from start to finish of his act. Professor Horn and his troupe of dogs and monkeys, and judging from the crowd both young and old that was on hand at the Grand, they all knew that there was going to be something extra in store for them. Prof. Horn gave a performance last night that lasted half an hour and it is hard telling who had the most fun, the audience or the monkeys, but judging from the audience they got their money's worth and went away well satisfied. Besides the vaudeville bill an excellent program of pictures.

Change of program Monday. There having been much April in March, we can't complain if there is some March in April.

For Saturday Only

At Wohlenberg Dep't. Store

12 1-2c Linen Crash Bleached or Brown for 9c

HERMISTON ALSO HAS A CLEANING-UP DAY. Yesterday was cleanup day in the town of Hermiston, according to Mayor Ross Newport, who spent last night in Pendleton. All the business houses in the city closed for one hour from 1:30 to 2:30 and during that time every business man as well as all the women and children, turned out to participate in the good work. The money for hauling the debris away had already been raised through the efforts of the women of "ribbon day" and the rubbish has already been taken to the dump ground and the city is ready to put on its best bib and tucker for the Pendleton businessmen's excursion tomorrow.

HIGH SCHOOL LADS FIGHT AND NOW ONE IS DYING. Pascale, N. J., April 7.—Twenty

high school lads were arrested today and warrants are out for others in connection with a prize fight held Tuesday night between their school mates, Gilbert Trehou and Frank Keiser, each 19 years old, as a result of which young Trehou is believed to be dying. The boys quarreled over a girl and agreed to fight it out before their friends. Trehou was knocked out in the seventh round with a solar plexus punch.

ORCHESTRA TOO CLASSICAL.

Seattle's Mayor Says People in Parks Want Popular Airs. Seattle.—Mayor Hiram Gill says that he is opposed to the contract entered into between the park board and the symphony orchestra for music in the parks. The contract was made before the park board was reorganized and the reorganized board will probably cancel the contract. Mayor Gill said today: "The people want popular music, for the park crowd is lighthearted and free."

The symphony orchestra is strictly union, but a majority of the union members resent the importation of a leader from New York. The union offers the services of a brass band for park music and Mayor Gill during the campaign promised that the union's wishes should be carried out.

INSIST ON MODESTY.

Chicago Police Place Censorship on Bathing Costumes.

Chicago, April 7.—Police censorship of bathing costumes was established in Chicago today with the adoption of rules which are to be enforced at beaches this summer. The rules governing costumes laid down by Chief of Police Stewart are: "Extremely bizarre costumes must not be worn. Women who wear costumes they do not care to get wet must have them made of modest design or they will be ordered off the sands. Men who appear on the sands merely to pose as athletes, will be ordered away. Bloomers without skirts will not be tolerated. A censor will stand at the dressing room door to pass upon all costumes."

BOY HANGS HIMSELF WHEN PLAYMATES JIBE

Pittsburg, April 7.—Rupert Ernest, a 14 year old pupil of the public school in Turtle Creek, a suburb, committed suicide early this evening by hanging in a coal shed near his home. His father said the boy had often come home crying because of the jibes of other boys because he was backward in his studies.

Ideal Homes Show.

London, April 8.—Arts, crafts and cottage industries of many nations, including America, are shown at the International Ideal Homes Exhibition opened today at the Olympia.

AT THE PICTURE SHOWS

Orpheum—Today's Program.

- 1. Taming a Grandfather. Vita-graph. This is an excellent story and is well presented, showing how Jennie brings her mother and grandfather together again after many years of estrangement.
2. The Right Decision. Edison. The story is graphically presented giving a clear idea of the horrors of war. There is a love story interwoven.
3. Milliner's Mill. Edison. This is the sort of a story that amuses without offending. The acting is clever, the photography excellent, making the picture very satisfactory.
4. The Dawn of Freedom. Selig. This house has made a reputation for its excellent pictures of interesting war stories.
5. A Crowded Hotel. Selig. A comedy which will keep any audience in extremely good humor from beginning to end.
6. Song—The Whitewash Man.

The Pastime.

The following new program for Friday and Saturday.

"Faithful" Biograph. 1000 feet long. Few, indeed, are they who have too faithful and zealous friends, but the hero of this picture seems to be one of that sort, but the lovers settle their differences and live happily ever after.
"The Girl and the Fugitive." 1000 feet. The story is one of absorbing interest, the acting is the best.
"A Woman's Repentance." 1000 feet. A tale of city and country life, and love of a farmer lad for a girl whose better nature finally overcomes her frivolity.

Mr. Paulhan complains, in France, of the lack of Americans' enthusiasm over his performances. But since they shelled out lots of American dollars, he shouldn't kick. Perhaps they thought that was enough for a fly Frenchman.

Jap-A-Lac

The Home Beautifier

Murphy Bros.

The paint men will tell you about Jap-A-Lac
