THE PEOPLES WAREHOUSE, Where it pays to Trade

Jno. B. Stetson Special Hats, Manhattan Shirts, Hart, Schaffner & Marx Clothes, Blocks Gloves.

FROM THE SPORTING WORLD

HERMISTON 7, STANFIELD 5; ECHO 8, UMATILLA 0

Team	Won	Lost	P.C.
Stanfield	4	1	.800
Hermiston	4	1	.800
Echo	2	3	.400
Umatilla	0	5	.000

(Staff Correspondence)
 Stanfield, April 11.—Stanfield's snappy ball tossers yesterday suffered their first defeat of the season in a ten inning game with the Hermiston team by the score of 7 to 5. The game was played in Stanfield before a large crowd, the Hermiston populace accompanying their champions en masse, and from the first ball until the last was replete with thrills. Phelps, who occupied the mound for the Hermiston team until the sixth, delivered a rare article of puzzling shants and when he retired Stanfield's score column read zero, while his own team had chased over three runs, two in the fourth and one in the fifth inning. Two more were annexed in the sixth, bringing the total up to five. It was in this inning that the home boys began to see daylight through the darkness. West, who replaced Phelps in the box, was found freely before he could "get his arm in" and with a few choice errors behind him, allowed four runners to cross the home bag. One more was rung up in the eighth, tying the score. Neither side could do anything in the ninth, but in their half of the tenth the visitors by a rattling rally, sent two runners around the complete circuit. Hutchinson who was the slab artist for Stanfield, pitched a steady game throughout, but could not prevent a couple of bad innings. By winning the contest yesterday, the Hermiston team is tied with Stanfield for top honors in the Irrigation League. The game was umpired by J. S. West of Pendleton.

Umatilla Loses Again.
 Umatilla, April 11.—Umatilla has not yet been able to chase away the hoodoo which has hovered around its team during the season and yesterday lost the fifth consecutive game to Echo by an 8 to 0 score. The game was played here and because of its one-sidedness was not as interesting as it might have been. By losing again yesterday Umatilla has still three ciphers in the percentage column, but supporters of the team say that before the final is written a different story will be read.

Pilot Rock Wins Game.
 Pilot Rock won another victory yes-

terday afternoon when the home team took the visitors into camp by the score of 8 to 7. It was the first ten inning contest of the Blue Mountain league series and as the score indicates there was plenty of excitement for the spectators. The visitors passed through Pendleton last evening on their way home.

Los Angeles Wins.

Sacramento, Cal., April 11.—In a game that was called in the eighth inning on account of rain the Angeles won from the Senators yesterday afternoon 5 to 2. The Angels bunched hits in the fifth and sixth innings which won the fifth game of a series of six for them. In spite of the inclement weather, a large crowd viewed the game.

Frisco 2, Oakland 6.

Oakland, Cal., April 11.—In a game that will be remembered principally because of the abundance of errors, the Oakland team lessened San Francisco's lead in the pennant race yesterday morning by making the score 6 to 2 in the eighth inning and then shutting out their opponents in the ninth.

Portland Ties Vernon.

Los Angeles, April 11.—Vernon and Portland tied yesterday with a four-all score, calling the game by agreement at the end of the ninth. The game was marked by heavy hitting and good fielding, the batting honors being nearly even, with nine hits by Vernon and ten by the visitors. Steen had the better of the pitchers' argument, fanning seven of the southerners.

Stockton Breaks Even.

Stockton, Cal., April 11.—Stockton and Sacramento broke even on the morning and afternoon games here yesterday, Stockton winning the first match by a score of 3 to 2, and losing

by a score of 3 to 2, and losing by a by a score of 10 to 4. Both games were fast, with only two errors in the afternoon contest. Scores:

Game	Score
Morning game: R. H. E.	
Stockton	3 4 1
Sacramento	2 9 3
Batteries—Hopkins and Wilkins; Stricklett and Conrad.	
Afternoon game: R. H. E.	
Stockton	1 7 4
Sacramento	4 6 1
Batteries—Hopkins and Wilkins; Stricklett and Conrad.	

AGENCY SCHOOL WON FROM CATHOLIC MISSION

At the St. Andrews Mission grounds on the reservation, the pupils from the government school defeated the mission pupils yesterday by a score of 12 to 2. This makes the fifth game that has been played this season between the two schools and the score is absolutely tied. Each school has won two games and one game was tied, thus making honors exactly even.

O. A. C. WRESTLERS WIN NORTHWEST CHAMPIONSHIP

Oregon Agricultural College, Corvallis, Ore.—The Oregon Agricultural College wrestling team won the intercollegiate championship again this year. The decisive contest was with Washington University. In this meet the Oregon team won five of the six bouts, only losing the one by a very narrow margin. The personnel of the team is the same as that of last year with the exception of one man. The team was coached last year by Eddie O'Connell and this season has been under the direction of J. G. Arbuthnot formerly of the Portland Y. M. C. A. and now a member of the College faculty.

M'CREIDIE HAS LINED UP QUEER BUNCH OF NAMES

Los Angeles.—"Every year Judge McCredie springs a new one on the unsuspecting bleacherites," declared a dyed-in-the-wool Angel who was perched on the roosts directly behind first base today. "Look what he's done this year. He's brought a bunch of geeks to town whose names sound like the immigrant list of an Atlantic steamer. Just listen to this: Netzel, Olsen, Speas, Armbruster, Krapp, Kratzberg, Ryan Steen. Say, couldn't you make a warm old college yell out of that bunch?"

SUITOR MAKES VERY VERY TEMPTING OFFER

Poughkeepsie, N. Y.—Some unusual marriage stipulations were brought to light at the opening of the \$50,000 breach of promise suit brought by Miss Mary Horner against Henry Webedorfer, a wealthy resident. The case is on trial before the supreme court.

McCredie's foreigners are some ball players and this fan admitted as do all the fans who have seen the webfooters in action.

McCredie has worn a circular path in right field at Chutes park in just the few days his club has been in town. There's not a fan on the circuit that does not know the Beavers' leader's habit of running around in circles and shying pebbles at the unoffending right field fence when things aren't just right for him.

The "Judge" hasn't outgrown this habit and his little circle in right field is growing deeper every day. Coy, of the Vernon outfit, has given the judge notice that he will protest to President Graham if the wanderings aren't stopped.

If the verdict of the local fans is to be accepted McCredie surely has picked up a comer in young Krapp, who humbled the Hogannies early last week. Krapp seemed to have everything when he took the mound at the Chutes, and the Villagers were all but helpless before him.

MYSTERY WOMAN MOVES INTO MYSTERY HOUSE

New York.—Mrs. John William Jenkins—the "woman of mystery"—is moving into the "house of mystery" at 39 West Eighty-seventh street, which she purchased last week for \$225,000 and paid for in cash. She plans to be all settled by the middle of next week—and her new neighbors are wondering what she will do next.

"Mrs. Jenkins is as much of a mystery today as she was last December, when she reported to the police that she had lost \$300,000 worth of diamonds and gems. More than that she proved that she actually owned jewels of that value.

She owns a home on Chicago's famous boulevard, Sheridan road, and another in Memphis. No one knows her. No one knows her husband. She is known to be an enthusiastic devotee of the races.

The "house of mystery" which she has bought and paid for was built by Louis V. Bell, the broker, clubman and racing man, and looks more like a gloomy, forbidding prison than a home. The doors and windows are guarded by heavy steel bars with ponderous locks.

Miss Horner is 43 years old. She alleges that Webedorfer proposed and she accepted him in September and the following month he broke the engagement.

HUNTS THROUGH TREASURY FOR A TREASURE CASKET

Washington.—Excited by stories of a rich treasure casket concealed somewhere in the vaults of the treasury department, Representative Flood of Virginia, instigated a search which, leading through many musty volumes and through rooms long closed to the light, has just been concluded.

The story which at first attracted Representative Flood's attention was to the effect that in 1825 the Emperor of Japan sent a casket filled with gold and precious stones to President Monroe, as a present. Starting with this as a basis, treasury department officials made a hunt through the archives of the department and established the fact that Imsum of Muskat sent to President Van Buren a treasure box. It contained a bottle of diamonds, a bottle of pearls, a bottle of attar of roses, a gold plate with some gold ornaments and a box of mixed diamonds and pearls.

These were placed on exhibition in the old patent office where they attracted the cupidity of a thief. He stole them but they were recovered within a short time and in 1840 the box with its precious contents was placed in the treasury department for safe keeping. After remaining there for several years the present from the Emperor of Japan was deposited in the Smithsonian Institute where it is now kept.

MILL AT OLYMPIA IS SOLD TO TACOMA MAN

Olympia, Wash.—Negotiations for the sale of the old Hartson mill plant here to P. H. Johns, a mill man of Tacoma and British Columbia, are practically complete. The plant is to be remodeled and equipped as one of the largest in the district. The mill was started by O. H. Hartson, who later took in W. H. Bryan, reorganizing as the Capital City Lumber company. The mill operated but a few months, when it was closed by creditors a few years ago. Transfer papers will be signed today.

WOULD UNEARTH TURKISH TREASURE FOR A SHARE

Athens.—A somewhat singular proposition has just been made to the Greek government. It is put forward by a contractor who professes to have exact clues as to the spot where the Turkish admiral, prior to the battle of Navarino, hid his treasure. He asks that he should have full freedom of search and if the treasure be found to share its value with the government.

Paris.—Director Jules Halleud of the Paris Observatory has discovered a new star which he believes to be a planet. It can not be seen by the eye, but is clearly visible on photographic plates. The astronomer attributes this to possible presence of an atmosphere of phogenic matter surrounding the star which affects photographic plates and not the eye.

ANTI-SALOON CONGRESS TO FORMULATE PLANS

Seattle.—Superintendent Herwig, of the Anti-Saloon League in Idaho, has issued a call for an anti-saloon congress, to be held at Boise in May, which will determine the plans of the next year's reform campaign in Idaho, and will also be the occasion for a gathering of "dry" workers from Washington and Oregon cities. A vigorous campaign is to be pushed in Idaho during the summer and fall by the opponents of the saloon, with a view of getting favorable action from the next legislature. In Washington the trustees of the anti-saloon movement met in Seattle last week, and voted to conduct a campaign for a county unit amendment to the local option law. They will also ask for a law making manufacture as well as the sale of liquor illegal in "dry" communities.

J. J. Hill Coming West.

Seattle.—James J. Hill, the guiding genius of the Great Northern railroad, has not yet given up the active management of the affairs of that road and will start west some time this month to inspect the Great Northern line through the Cascades, and decide on improvements which will make a repetition of the blockades of this season and the Wellington disaster, impossible. Millions of dollars will be spent this summer to snowshed the line between Wellington and Horseshoe tunnel, a distance of ten miles, known as the "high-line," and exposed to snowdrifts. The veteran railroad builder will personally lay plans for the improvements.
