### Hermiston Man Wins Kansas Bride.

Joe Williamson, a former resident of Kansas, who has been spending the past several months in Oregon and who is now living in Hermiston, became a benedict in this city this morning. When Williamson came west early last fall he left his heart in the keeping of a Kansas sweetheart. Therefore when he became tired of his bachelor existence he sent a "C. O. D." message back to the cyclone state and last evening he was delighted to receive a telephone message from Pendleton, saying that Miss Clara Englekirtzer was here waiting for him to come and make her his wife. The next train brought him to Pendleton and Justice of the Peace Joe H. Parkes quickly tied the knot. They left for Hermiston on the Portland local.

### GUARD STOPS CONVICT FIGHT WITH BULLETS

Walla Walla.—Firing when two convicts were not stop fighting at his command, Fred Staff, a guard at the state penitentiary, this afternoon shot and seriously wounded Jack Johnson, colored, and James Casey, white. The men were working in the penitentiary jute mill and became engaged in an altercation and then went to blows.

Casey, who is more than six feet and weighs more than 200 pounds, seized a big wooden spool and hit Johnson over the head. Staff saw him and ordered the fighting stopped. Neither paid any attention and Staff fired, breaking the left leg of Casey above the knee. Casey fell to the floor, where he writhed in agony, while Johnson, grabbing up the spool Casey had dropped, in turn used it for a club.

Staff again fired, and Johnson fell, shot through the hips, but not fatally hurt. The two men were removed to the prison hospital where tonight the physician says they will recover. Casey is from Watsburg, and was sent up for burglary. He broke jail last August, in company with Kid Wallace of Tacoma, who was received again from Tacoma for a life sentence.

Casey enjoyed but three hours' liberty at that time, however. Johnson was sent up from Yakima for selling liquor to Indians. Staff is the guard who, in similar trouble once before, shot a convict through the heart, killing him instantly, and wounding another, through whom the bullet went first.

### COFFEE AS CURE FOR RABIES IS SUCCESSFUL

New York.—David Steinfield, the official dog catcher of Montclair, N. J., attributes his freedom from rabies to the fact that he drinks about a dozen cups of hot black coffee every day.

In the seven years he has been dog catcher he has been bitten several hundred times, his hands, arms, face and legs being covered with scars. Since the beginning of last December he has been bitten by seven dogs that were afterward declared to be suffering from rabies. He contends that black coffee is not only a preventive, but is a cure for rabies.

### WASHINGTON NEEDS MANY LAWS CHANGED

Olympia, Wash.—Governor Hay has made public the report of legislative investigating committee, appointed by the legislature of 1909.

The report covers a variety of matters, the most important of which is the charge that fraud has been practiced on the state in regard to government land grants.

The committee charges state land cruisers with incompetency or dishonesty resulting in a loss to the state of millions of dollars; it declares that the land department has shown poor judgment in selection of state lands; it finds no evidence that the law commissions of extravagance in horse race expenditures and the secretaries of incompetency; holds the state dental board guilty of arbitrary and unwarranted action, but not of fraud or collusion; it deprecates the jealousy existing between the state college and state university.

The committee also suggests many recommendations among which are

the revision of state land laws, the creation of two appointive members of land board, and provision for cruise of all state timber lands; the continuation of investigation of the land department; the passage of law providing for payment to state of interest on land commissioners' bank deposits; elimination of one or more normal schools; numerous improvements at state training school; repeal or amendment of oil inspection law.
