**LOCAL COLTS LOSE
THEIR FIRST GAME**

**WESTON LANDS VICTORY
BY A NARROW MARGIN**

Score of 3 to 2 Indicates Hotly Contested Game—Dickson Pitches Steady Game—Three Teams Now Tied in Per Centage Column.

Standing of Teams.

Team	W	L	P.C.
Pendleton	2	1	.666
Weston	2	1	.666
Pilot Rock	2	1	.666
Athena	0	3	.000

Weston obtained retaliation for her defeat of a week ago and incidentally Manager Frazier's colts encountered their first defeat yesterday when the Pendleton team lost at Weston by a score of 3 to 2. Young Harlan's box work was plainly missed but Dickson, considering the fact that this is his first appearance this year, pitched a steady game throughout, and his support was of an unusually high order. It was anybody's game until the last inning was played, and the marginal point only went to the Mountaineers by a lucky hit at a lucky time. In the fifth with two men on bases and two outs, A. Nordrean clouted the sphere but he himself was thrown out at third retiring the side.

The local boys have no complaint to make, but they are inclined to give great credit for the victory to Jack Keefe, who occupied the backstop position for Weston, and, besides catching a remarkably good game, secured three hits and a sacrifice out of the four times he faced the pitcher.

The tabulated score follows:

Team	AB	R	H	E
Weston	9	3	1	3
Keefe, c.	3	1	3	1
A. Nordrean 1b.	4	0	2	0
Wheeler, p.	4	1	1	0
Barnes, 2b.	4	0	0	0

**GOLD COIN PLACER
MINE TO BE OPERATED**

Baker City.—One of the most difficult engineering feats of mining in eastern Oregon has just been completed and water is now ready to be turned into the penstock of the Gold Coin mine, near Durkee, and the work begun of washing away a mountain of rich gravel. The problem of securing sufficient water to work the mine at an elevation of 2000 feet above the base of the mountain was solved by constructing a ditch 16 miles in length near the summit of the mountain so as to tap several springs and catch the water from the spring thaws. Three reservoirs are used and sufficient water obtained to insure a run of two months. A four inch nozzle will be used and a head of 275 feet obtained. By the construction of nine more miles of ditch the water supply will be increased by half and the run greatly lengthened.

**CALF BORN WITH
HEART IN ITS THROAT**

Spokane, Wash.—M. Cosselman, a rancher near Cheney, Wash., formerly the seat of Spokane county, boasts of a freak of nature, probably without parallel in this country. It is a calf with its heart in its throat, just above the shoulder. The calf was born a week ago and has been kept alive by careful nursing; in fact, it is watched as closely as the newest arrival in a millionaire's household. The freak was not discovered until the animal was a day old, when the keeper noticed the pulsations of the heart in the throat. These have become so pronounced they shake the calf's head at every beat. Road showmen wintering in Spokane have pronounced the little animal, a remarkable freak and offered large sums to permit them to exhibit on their tours, but the owner has declined all, saying he will turn it over to the livestock department of the Washington state college at Pullman for experimental purposes.

**HARD LUCK OF POETS
TOLD BY IRISH SINGER**

London.—W. B. Yeats, the Irish Yeats, the Irish songster, tells a sad little story of the dissolution of a coterie of poets which existed in London years ago under the title of the Rhymesters' club.

For the 12 poets, who had formed the club, Yeats claimed the sincerity which marks the true artist. Several of them had gained distinction, but of the little party two have died from drink, a third committed suicide and two others have lost their reason.

"The poet's life must almost necessarily be troubled," said Yeats. "All songs are those of victories won in the poet's mind. If you could find a perfectly steady nature you would find a silent one."

Give not thy tongue too great a liberty, lest it take thee prisoner. A word unspoken is like the sword in the scabbard, thine; if vented, thy sword is in another's hand. If thou desire to be held wise, be so wise as to hold thy tongue.—Quarles.

B. N. French, who has been a resident of the Ukiah country, has sold his interests there and is in the city today on his way to southern Oregon where he expects to reside.

The Misses Minnie and Cella Renn returned this morning from Walla Walla, where they had been to spend Sunday at the home of their parents, Mr. and Mrs. B. F. Renn.

Matt Mosgrove, the Milton merchant, and William Mosgrove, engaged in the mercantile business at Wabburg, Washington, came in this morning on the Walla Walla local.

Edgar Smith returned Saturday evening from a visit with friends in Portland. At Nolin he transferred from train No. 8 to the motor car and rode into Pendleton with the members of the Commercial club party.

**EXAMINATION IS
ORDERED BY COURT**

**MEDICAL COMMISSION IS
APPOINTED BY JUDGE**

Clarence Kearney, Suling Railroad for \$20,000 Will be Examined by One Portland and Two Pendleton Physicians.

Clarence Kearney, the former member of the police force who is suing the O. R. & N. company for \$20,000 damages must submit to an examination by a medical commission appointed by the court. This was the ruling made this afternoon by Judge Bean on the motion of the railroad attorney's to issue an order to that effect. The motion was demurred to by the attorneys for the plaintiff but the demurrer was overruled.

The commission was appointed by Judge Bean this afternoon and is composed of two Pendleton physicians and one from Portland. They are Dr. W. T. Williams of Portland; Dr. H. S. Garfield of Pendleton, and Dr. J. A. Best of Pendleton.

It will be remembered that Kearney is suing the railroad company for \$20,000 damages as the result of injuries received in falling from a passenger train as it was pulling into the local station. It is alleged that the vestibule door had been left open and that thinking it was closed he backed into the opening and fell from the train. Mental as well as physical injuries are alleged to have been sustained.

**AERIAL TRIPS REGULAR
FEATURE FOR TOURISTS**

Berlin.—American tourists soon will come to regard an airship tour as one of the regular features of a program of summer travel in Europe if the expectations of the founders of the new Hamburg airship lines are realized.

The promoters of the enterprise recognize that the financial prospects of the venture can be improved greatly if proper efforts are made to interest Americans. Aerial excursions are to be arranged, therefore, with a special view to capturing the custom of travelers from the United States. One of the German steamship companies is contributing to the support of the enterprise on that understanding.

**ERIE BUSINESS MEN
SEEK WEST END LAND**

(Special Correspondence.)

Hermiston, Ore., April 11.—C. L. Morgan, now a colonization agent under Dr. H. W. Coe, is expected here this afternoon with a party of five representative business men from Erie, Penn. These men represent a large number of Pennsylvania people who are interested in irrigated lands in Oregon and two of the party have reserved 320 acres each under the government project. During the past few days Mr. Morgan has been showing the party through the West's water valley and other sections of central Washington. They have also stopped in Spokane.

The launch which Dr. H. W. Coe has provided for traveling about the big government reservoir has been repaired and is now in condition for use.

Hermiston people initiated the motor car yesterday by going almost en masse to Stanfield to witness the ball game. Hermiston won yesterday; had Phelps and West for twirlers while Wilson was behind the bat.

When the motor car left here on its eastbound trip this morning it was almost as well packed as when occupied by the Pendleton businessmen Saturday. It is estimated that at least 75 people were aboard when the car left Hermiston. They were bound for Pendleton and for Stanfield, Echo and other places along the line.

E. G. Hopson, chief of the reclamation service in Oregon and Washington, has been here for several days on a visit to the project. He has been at Stanfield today.

**NEW TUTULLA MINISTER
PREACHES FIRST SERMON**

(Special Correspondence.)
Tutulla Mission, April 11.—Rev. James Dickson, the new minister at Tutulla, preached to a large and appreciative congregation of one hundred people yesterday. He expressed himself as very glad to be among his own people again and able to use his own language, for while at Fort Hall, Idaho, he had been preaching in English and this was interpreted into the Shoshone Indian tongue. His exposition of I Cor. 13th Chap. on "Love" was eagerly listened to by all.

There are a number of visitors from Yakima and Nez Perce reservations on account of the federal court session in Pendleton relative to heirship lands. Many of those who are Christians worshipped with the Tutulla congregation yesterday. Among them were: Joseph Peterson and family; Adsohka, Ida.; James Moses, Lapwal, Ida. and old Moses Lapwal, Minnie Howard, Toppensish, Wash. Mary Wilson, Kamiah Ida. Mrs. Levi Spalding, Ida., Louie Charley, Toppensish, Wash., Also Mr. Boylen and Mrs. Cloutier two of the teachers from the government school brought out to the mission ten of the school girls. Rev. J. M. Cornelson and Mr. Dickson conducted religious services at the school in the evening for the children and employes.

**LABOR SAVING DEVICE
IN MAKING OF MONEY**

Washington.—One of the most ingenious labor saving machines has just been perfected by the treasury department to assist in the making of Uncle Sam's money. One machine is now in operation in the bureau of engraving and printing and is working so successfully that a contract has just been let for the installation of 15 more. The new device performs five operations simultaneously with the aid of only two employes, whereas the same work now requires two separate machines with five employes to each.
