Newsy Notes of Pendleton

Official Weather Report.
Maximum temperature, 66.
Minimum temperature, 38.

Teachers Training Class.
The teachers training class is to meet at the Baptist church at 7:30 this evening.

Will Not Drill Tonight.
Though this is the regular drill night for the local militia, the members of Co. L will not drill for the reason that they drilled last night.

Meeting is Postponed.
Owing to the sudden illness of Mrs. Lou Sutton, the meeting of the Busy Bee club, which was to have been held Wednesday afternoon of this week, has been postponed until the next regular meeting of the club.

Walla Walla Newspaper Men.
Among the Walla Walla excursionists in the city today are Roy Rudylo of the Bulletin, "Hi" Showerman of the Statesman, R. C. McLeod, editor of the "Up-to-the-Times" Magazine, and H. C. Willis, publisher of "The Harpoon."

Will Tour the East.
C. V. Danief will leave Wednesday evening for St. Louis, the Mammoth cave, Richmond, Washington, D. C., the Niagara falls and other points of interest in the east. He will return home by way of the Great Lakes. Mr. Danief returned a few weeks ago from the Hawaiian islands where he had been spending the winter.

Meeting of Woman's League.
A meeting of the local chapter of the American Woman's League is called for Thursday evening, April 14, at 7:30 o'clock in the council room in city hall. Important matters to be considered are the selection of name, adoption of constitution and by-laws and election of delegate to attend the convention to be held in May in University City.

Train Load of Beef Cattle.
A trainload of the finest beef cattle that probably ever passed through this city, went through this morning on the O. R. & N. There were 26 carloads and the average weight of the animals was said to be 1600 pounds and the steers looked the part. They came from Weiser, Idaho, and were en route to the Pacific Cold Storage company of Tacoma, with Alaska as their ultimate destination.

More Laborers Wanted.
That the labor problem is becoming serious in the west end of the county is declared by Col. H. G. Newport, the big Hermiston contractor, who was in the city yesterday. At this time Col. Newport is employing a considerable force of men himself and he expects to use many more shortly. There is so much clearing and leveling work on in the irrigated section that many men are needed. When the railroad work gets under way a veritable labor famine may insure.

An Injunction Suit Filed.
An injunction suit was filed in the circuit court today by Phelps & Stelwer as attorneys for A. J. Sturtevant of Pilot Rock against F. A. Bailey of the same place. It seems that Sturtevant has leased some land on which is located a spring branch, to Bailey and that the latter proceeded to divert the water onto some other land which belonged to Bailey, or which he had rented and was not using it on the Sturtevant land. This aroused the ire of Sturtevant, who has brought suit to enjoin his tenant from using the water on any other than the Sturtevant land.

Brothers Meet After 40 Years.
Editor John P. McManus of the Pilot Rock Record is enjoying a visit from his brother, T. J. McManus, whom he had not seen for 41 years until a day or two ago when he dropped in on him unannounced. The brother has been a railroad engineer for many years but has finally retired leaving two sons who are following in his footsteps. He was in the west a number of years ago, having driven stage and been express messenger. Returning to the middle west he made his home in St. Paul, out of which city he has made his runs as engineer. Both men are in Pendleton today.

Motor Well Patronized.
With rapidly increasing patronage the new O. R. & N. motor car is proving very popular with the west end residents. Each of the three succeeding days the car has been in service has found a greater number of people traveling in both directions. This morning there were 32 passengers for Pendleton, most of them being women coming up to spend the day in shopping and a large part of them are women who are not in the habit of coming to Pendleton to shop. So far it is being demonstrated that the car is bringing a class of people to town who did not come before for the reason that they did not want to stay over night. At the same time there is no material decrease in the number of west end residents using the Pendleton-Portland local.

Cigar Peddlers Are Wanted.
O. R. & N. Detective E. B. Wood is in the city today, having come up from The Dalles to consult the local officers about the two men recently arrested here on suspicion and later turned loose. They were peddling cigars and though the officers had every reason to believe the cigars were stolen they were unable to prove it and after a few days were forced to allow the suspects to depart. Detective Wood says the men are box car robbers and are badly wanted by him. Immediately after they were released from custody here they boarded a freight train for La Grande, robbing a car on the way over. Then they doubled back to The Dalles, robbing another car en route. The de-

tective is therefore very anxious to be able to locate them.

SENATOR LA FOLLETTE DENOUNCES ADMINISTRATION

Washington, April 12.—Senator La Follette denounced the Taft administration in the senate today and charged it with bad faith in its preparation of the railroad regulation bill. Wickersham in abandoning the New England railroad merger had betrayed the public.

JEFF JOGS SIX MILES FOR A CONSTITUTIONAL

Rowardennan Training Camp, April 12.—Jim Jeffries did six miles on a muddy road today as a constitutional. He was hardly winded when he returned to camp. After a rubdown he went through gym stunts. He has woodchopping on his program for this afternoon.

DEFENSE IN SAYLOR TRIAL PETITIONS FOR REHEARING

Watska, Ill., April 12.—Judge Dill today set April 30 as the date for the hearing of the arguments on the motion of the defense for a new trial for Mrs. J. B. Saylor and Dr. William Miller, convicted yesterday of manslaughter in connection with the death of Banker Saylor. The woman who was sentenced to three years in the penitentiary, is prostrated today.

Ship Goes on Reef.

Seattle, April 12.—A wireless from Seattle was received today saying the steamer Georgia went on the reef early yesterday near the wreck of the Yucatan. The steamer Santa Cruz brought the Georgia alongside the Yucatan and took off her passengers and mail, later transferring them to the City of Seattle, which is now on her way to Juneau. No lives were lost. The Georgia was badly damaged but is still afloat.

Would Honor His Memory.

Denver, April 11.—Plans to have the face and figure of the late Thomas F. Walsh, the Colorado "silver king," carved in heroic size on the face of an immense cliff which overlooks the famous Camp Bird mine at Ouray, were broached by admirers of Mr. Walsh today and may result in what would probably be the most unique monument on record. The Camp Bird laid the foundation of the Walsh fortune.

AT THE PICTURE SHOWS

Orpheum.
Today's program:
1. A Drama of the Mountain Pass.
2. Poetry of the Waters, scenic.
3. Bradfords Claim, Dramatic.
4. The Capture of the Burglars, comedy.
5. Ticked to death.
6. Country Life in a Flat, Comedy.
7. School Days, illustrated song.

The Pastime.
"Gold Is Not All." Biograph, 1000 feet. This picture deserves the highest commendation and like all Biograph stories is full of interest from start to finish.

"The Village Inventor." Selig, 1000 feet. A romance of the old fashioned type with the country boy suddenly lifted into fame and fortune by an invention which wins him the favor of a rich man whose daughter he marries.

"Method in His Madness." Comedy. Here is a little oddity in comedy which is funny, and acted with extraordinary drollery.

"The Inventor's Model." Drama. This is an intensely dramatic subject, the acting excellent, the subject one of absorbing interest.

AMERICAN IS TEACHING A PRINCESS TO FLY

Paris.—Young Henry Sands, the son of Mrs. W. K. Vanderbilt, has been giving lessons in aviation to the sister of the German Emperor. Sands was pupil in the early part of the season. He went to Cannes for instructions when his mother left for America, and so rapid was his progress in flying that when the German Princess arrived there she found the young American the best aviator of all. Their friendship began in this way.

The Princess speaks English without even a German accent, which is more than her uncle, King Edward of England, can do. She is much pleased over the boyish exuberance of young Sands and as a result she and her husband, Prince Bernard, go every day to the place Sands has built. Prince Bernard's interest in aviation is due to the enthusiasm of his wife and his presence on the field is that of chaperon to the Princess.

Sands is the son of Mrs. Vanderbilt by her first husband. She is much opposed to his airy flights and hourly fears to hear of an accident. This fear is intensified because her other son was killed in an automobile accident near the spot where Charles Fair and his wife lost their lives some years ago.

LOOP AROUND EUGENE'S HILL TO BE BUILT

Eugene, Ore.—After having announced the first of the week that the matter of building a loop around College hill five miles long had been abandoned, J. O. Storey, president of the Portland, Eugene & Eastern Railway company, which owns and operates the Eugene street railway system, Saturday agreed to build a loop, provided the citizens raised the bonus already subscribed from \$33,000 to \$25,000. The additional \$2000 can be easily secured and Mr. Storey promises that the line will be built this spring or at the same time that work begins on the company's new bridge across the river at Springfield.

The new line will pass through a number of suburban tracts that have been placed on the market on the strength of the first report that the loop would be built.

A Few Things You Can Buy At The Workingmens Clothing Co.

SEWERS AND PAVING PLANNED FOR PASCO

Pasco, Wash.—Plans for municipal improvements to be made this year are being prepared by City Engineer Graves and his engineers of the Northwestern Engineering company. The work includes the placing of the sewer system, to cost about \$50,000; the paving of Lewis and Fourth streets for not less than five blocks, and possibly the installation of a pressure city irrigation system, with tape at each lawn for the irrigation of trees and parking strips.

POPULATION OF NEW SOUTH WALES GROWS

Sydney.—The population of New South Wales on December 31 last numbered 1,845,445, an increase for the year of 60,435. Of this number 4323 are assisted immigrants. The natural increase is the highest on record. The birth rate is 26.94 per 1000 of the population, being slightly above the average for the preceding five year. The number of marriages is the highest on record.

WIRE TAPPERS CLEAN UP THOUSANDS OF DOLLARS

Philadelphia, April 11.—It is estimated today that wire tappers who operated somewhere in the west, cleaned up approximately a million dollars Saturday by sending the wrong information to pool rooms in
