

WEATHER REPORT
Fair tonight and Thursday.

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

KAISER DOES HONOR TO T. R.

German Emperor Writes Personal Letter Urging Three Day Visit at Palace.

WANTS WHOLE FAMILY TO BE HIS GUESTS

Kaiser William Demonstrates His Great Respect for ex-President—Teddy and Kermit Leave for Vienna via Venice—Citizens of Porto Maurizio Shower Distinguished Visitor With Roses—Great Ovation Is Given Him.

Porto Maurizio, April 13.—Emperor William of Germany today again demonstrated the high regard in which he holds ex-President Roosevelt by writing him a personal letter urging Mrs. Roosevelt, Kermit, Ethel, as well as the colonel, to become guests at the palace for three days.

Roosevelt and Kermit started for Venice this afternoon and will arrive Thursday morning and twelve hours later will start for Vienna, Mrs. Roosevelt and Ethel will remain here until the arrival of the colonel in Paris, April 20.

Posters which bade Roosevelt welcome when he arrived here have been replaced by others reading: "Goodbye, Roosevelt. Come back soon."

In addition the mayor issued a proclamation telling of the honor felt by the city at the visit and calling upon the citizens to decorate the railway station with flowers. Not only was this done, but the carriage containing Roosevelt was pelted with roses on its way from the villa of Miss Carey and huge bouquets were presented to Mrs. Roosevelt and Ethel.

DECLARED TAFT DEGRADED HIMSELF AND COUNTRY

New York, April 13.—Declaring that President Taft had "degraded not only the office of chief magistrate, but the American republic," by replying to a cablegram from the mayor of Porto Maurizio, who welcomed Colonel Roosevelt and then wired Taft about it, the New York "World" today bitterly assails the president in its leading editorial. "It was an amazing, humiliating expression and weak, sycophantic and false," says the "World." "Roosevelt is not the president and the man who is not the president must not be our most distinguished citizen."

Eat Rice, Allee Samee Chinks.

New Orleans, April 13.—Substitution of rice for meat is the propaganda that is to be spread throughout the country by the Rice Association of America, which met in New Orleans today. The growers of the cereal will point to the record of the Japanese soldiers in the war with Russia as an evidence of what rice will do as a sustaining and nourishing food, and the doctrine of rice-eating will be preached through many avenues of publicity.

Knocked from Trestle; Dead.

Seattle, April 12.—Richard McClay, a miner aged 40, was knocked from a trestle by a Northern Pacific passenger train near Auburn today and sustained injuries from which he died. He stepped out of the way of a freight train into the path of the passenger train. His wife lives in Tacoma.

Ohio Town Threatened.

Cleveland, April 12.—Messages from Newark, Ohio, say that a fire which threatened to wipe out much of the business section of the city broke out this morning in the Arcade, the largest structure in Newark.

TWOHY BROTHERS ESTABLISH FIRST CONSTRUCTION CAMP

Twohy Brothers have established headquarters at the Walters mill in the west end of the city and are establishing their first construction camp at the Pilot Rock junction. Crews of laborers are now at work, building temporary sidetracks, other men are coming in by the score daily, the equipment is being rapidly assembled and the actual work of rebuilding the line between Pendleton and Yoakum will be in full blast before the week closes.

BURNS HIS WOODEN LEG TO KEEP HUSBAND HOME.

Wilkesbarre, Pa., April 13.—Mrs. Michael Kinsel, who was arrested for burning her husband's wooden leg was discharged today by Alderman Donnohue, without even reprimand. Mrs. Kinsel declared Michael insisted on making pilgrimages to liquor dispensaries on Saturday nights. She secured his wooden leg while he slept, used it for fuel to prepare the morning meal and now her husband is without the means of locomotion.

SCHOOL BOY SQUIRTS VITROL IN GIRL'S FACE

San Francisco, April 13.—Ruth Wilson, the young girl, into whose face vitrol was squirted by a man late yesterday, will probably not lose the sight of her left eye, or be permanently disfigured, according to the eye specialist attending her today. Indications are that she will only be marked by a scar on her right cheek. The police in the cities around the bay have joined in a search for a youth named Vancamp Redfern, who is accused by the girl's family of being the vitrol thrower. The boy was a class mate of Miss Wilson in the high school and is said to have been madly infatuated with her. For a long time he had sent her incoherent love letters.

WALSH LEAVES ESTATE TO WIFE AND DAUGHTER

Washington, April 13.—The will of the late Thomas F. Walsh, who died Friday, was filed yesterday. Practically the entire estate was bequeathed to his widow and daughter. A hundred thousand dollars was left to charity. Walsh's estate is estimated at between eight and ten millions.

NUDE ART MUST BE DRESSED OR HIDDEN

UNDRAPED FIGURES ON U. OF C. CAMPUS UNDER BAN

Regents at Berkeley Listen to Complaints of Shocked People and Decide That \$40,000 Masterpiece Must Be Tailored or Put Away.

Berkeley, Cal., April 13.—Undraped art on the University of California campus must go. Eight art panels at the entrance to the grounds, recently completed at a cost of \$40,000 must either be tailored or done away with. This is the order issued by regents after hearing the complaints of those offended at the sight of the nude figures of four men and four women.

SEVENTY TOWNS DRY.

Number of Saloons Put Out of Business in Effort to Keep Whiskey From Indians.

St. Paul, Minn., April 12.—Saloons in all of Mahoning county and in sections of Beltrami, Cass, Clay, Crow Wing, Otter Tail and Wadena counties have been notified by William E. Johnson chief special officer in the government Indian service, to close by May 10.

The order issued by Special Agent Johnson affects about 70 towns, a majority of them in territory not half affected by the government order. It is the most drastic order issued since the special agent of the government began the campaign to enforce the provisions of the old Indian treaties in the northern country and to prevent the sale of liquor to the Indians. Accompanying the order issued today is an order prohibiting the sale of "spirituous liquors" in sections of Norman, Polk and Red Lake counties.

FAILS TO GET THAW DUCATS

Attorney Hartridge Loses Suit by Which He Attempted to Fleece Wealthy Clients.

MAY NOW BECOME A DEFENDANT HIMSELF

Jury Refuses to Allow Lawyer Any Damages in \$94,000 Suit Which He Alleged is Due Him for Legal Services—Judge Orders Disbarment and Perjury Proceedings Brought Against Him—Lays Trap for Himself in Seeking to Secure Fortune.

New York, April 13.—The jury in the federal court today refused to allow Attorney Hartridge any damages in the ninety four thousand dollar suit brought against Mrs. Mary Thaw for services in defending her son Harry in his murder trial. At the same time Judge Holt ordered perjury and disbarment proceedings brought against Hartridge.

Hartridge claimed the money was due him for services and expenses in obtaining evidence. The Thaws declared they had already paid the attorney in full and had not authorized the expenses which he claims to have contracted.

Hartridge already had been paid about fifty thousand dollars by the Thaws before he started the suit. Regarding the money Hartridge claimed to have paid to witnesses, Judge Holt said: "If the money was not paid there are grounds for the prosecution for perjury. If the money was paid the complainant should be prosecuted for obstruction of justice, in any event there is ground for disbarment proceedings."

BILL WOULD REGULATE.

Canadian Statesman Introduces Measure Hitting at Trusts.

Ottawa, Ont., April 12.—Regulation of trusts is the object of a government bill which McKenzie King, minister of labor, offered today for adoption by the Canadian parliament. The bill provides where complaint is made that a trust or a combination is operating unduly to enhance prices or for restraint of trade, a commission shall be appointed with power to make a thorough investigation.

There will be three commissioners, one nominated by the parties making the complaint, one by the trust complained against, while the third, who is to be the chairman, must be a judge of a superior court.

If it is found that the complaint is justified, the commission shall advise measures to correct the abuses or they may advise that the tariff protection on the articles produced by the trust be revoked. If the trust does not obey the finding by the commission, it shall be fined a thousand dollars a day until it obeys.

In urging approval of the bill Mr. King said its object was not to do away with trusts and combinations. A lesson had been taken from the experience from the United States, as it has been found impossible to enforce the Sherman law without destroying business.

The purpose of the Canadian bill, Mr. King continued, was to insure the people from combinations and to see that the trusts did not take advantage of their control of lines of production improperly to raise prices.

COUNCILMEN MAKE PRESENTS TO THEMSELVES; PEOPLE MAD

Seattle, April 13.—At the closing session of the old Georgetown city council just prior to its annexation by Seattle, the members voted to present themselves with the furnishings of the city hall. When the desks, chairs, etc., had been carted off, the citizens became indignant and today demanded the return of the furnishings. If they are not returned by tonight warrants will be issued charging the former officials with grand larceny.

DOES NOT THINK SUGAR TRUST HAS PRACTICED FRAUD

New Orleans, La., April 13.—Special Federal Prosecutor Dennison, who is here investigating the rumor that the sugar trust was short weighing imported sugar, declared today he did not believe the government had lost a cent in New Orleans through frauds. He said the government had outsized the trust by installing scales that couldn't be tampered with. The investigation however, is incomplete.

SENTENCE OF DUNCAN COOPER CONFINED BY SUPREME COURT

Nashville, Tenn., April 13.—The state supreme court today affirmed the sentence of twenty years imprisonment imposed on Duncan Cooper for killing former Senator Carmack. Similar sentence on Robin Cooper was reversed.

CONTRACT LET FOR DAM WORK

Eschbach-Bruce Company of Seattle Will Complete Furnish-Coe Dam.

ACTION MEANS GREAT DEAL TO WEST END

Contract Is Signed This Afternoon and Work Will Be Started Within Thirty Days—Structure to Be Completed by October 1 and Will Cost \$110,000—Lands Under Private Project Soon Will Be Supplied With Water for Irrigation.

The contract for the completion of the big Furnish-Coe dam at Coe was signed up this afternoon and work is to be started within 30 days. The contract also calls for the completion of the dam by October 1.

The signing up of this contract is one of the most important transactions that has been made in connection with west end reclamation work in many months. It means that the plans which have been under way for several months are to be brought to a speedy completion and that the lands under the Furnish-Coe project are to be supplied with water sufficient to irrigate them for 80 days in addition to the usual amount of water obtained by reason of original filings.

The Eschbach-Bruce company of Seattle has been awarded the contract and the total cost of the great structure will be \$110,000. Nearly half of this expense has already been paid, however, since the concrete core which is to be carried to the top of the dam is already completed from bedrock to the surface of the ground. Since it was eighteen feet to bedrock, the magnitude of the work already done can be appreciated.

The dam will be 50 feet high, 1170 feet across, 270 feet wide at the base and 20 feet wide at the top. It will form a reservoir covering 240 acres and consisting of 8,000 acre feet of water. This will be the next largest reservoir in the state, being second only to the government project at Hermiston.

By an arrangement of weirs the dam will permit of the natural flow of the water in the river at all times of the year, the conserved surplus water being added only as needed by the settlers on the Furnish-Coe project. In addition to this the spillway will have a capacity of 50,000 second-feet or twice the amount of water which flows down the Umatilla at the time of the big flood, according to government estimates made by engineers who were on the ground. This spillway will be 500 feet wide at the intake.

The construction plant is to be installed within 30 days from yesterday and though the work is to be done largely by machinery, from 150 to 200 men are to be employed. The work will be superintended by H. F. Marble, the engineer who has been in the employ of the Furnish-Coe company since the project was first planned.

CAUGHT BETWEEN TWO ENGINES IN COLLISION

Spokane, Wash., April 12.—In a collision between two switch engines in the Great Northern yards today, Switching Foreman William Heatton was killed. He was riding on the front of one of the engines and was horribly mutilated in the wreckage. Both locomotives were practically destroyed.

WILL RUN NO RISK OF GIVING IMMUNITY BATH

Washington, D. C., April 13.—After a conference between President Taft and Representative Hill at the White House today it was reported that a congressional investigation of the so-called sugar trust would be inexpedient at this time. It is feared immunity might be granted to offenders should they testify before the investigating committee.

REFUSES TO ACCEPT THE CORONER'S VERDICT

Hannibal, Mo., April 13.—Wade Maxwell, son of Mrs. Gertrude Maxwell, whose body was found in a trunk in her home at Palmyra, refuses today to accept the coroner's finding that his mother climbed into the trunk and was suffocated. Mrs. Maxwell had about forty thousand dollars and her son believes she was murdered for this money. He has begun an independent investigation.

Seven Buried by Explosion.

Easton, Pa., April 13.—Seven men were killed today by a premature explosion of powder in a quarry here. The blast tore loose a ton of rocks which buried the men working on the lower level. The dead men were all foreigners.

PHOTO IS TAKEN OF HALLEY'S COMET.

Lick Observatory, California, April 13.—A telephotograph of Halley's comet was secured yesterday when the sky-wanderer was approximately one hundred and thirty-three million miles distant. The plate was remarkably clear and a fair reproduction was secured. Officials are making exhaustive preparations to study the comet upon its nearer proximity.

HALLEY'S COMET AFFECTS HENS IN MISSOURI

Kansas City, April 13.—What effect is Halley's comet having on Missouri hens? This question is occupying the minds of farmers near Independence, who have almost decided to lock the doors of their henries that the fowls may not see the comet.

Monday a hen belonging to Mrs. Davidson laid an egg with a tail an inch long. The tail was about the diameter of a lead pencil and was composed of the same material as the shell.

Yesterday Mrs. Ida Cook reported one of the prize Plymouth Rocks had laid two eggs at once. One of them had a little white caudal appendage. The shell was soft and "glivly" to the touch. The two eggs were joined together with a sort of ligament two inches long, which appeared to be of the same material as the covering. The tail dropped off soon after Mrs. Cook began to handle the egg.

BASEBALL FANS MUST BE CAREFUL IN REMARKS

St. Louis, April 13.—In the future baseball fans will be prohibited from hissing, making insulting remarks or casting any reflection on the merits of players. These restrictions were decided upon by officials of the National League club and a warning was issued today. The penalty for violation is ejection from the park.

SAY SWOPE'S BODY WAS TAMPERED WITH

ATTORNEYS CLAIM POISON WAS INJECTED AFTER DEATH

Defense in Famous Murder Trial Exposes Its Hand—Attorneys Declare They Have Evidence That Will Destroy State's Strongest Chain—Say Fastenings on Casket Show It Had Been Tampered With—Prosecution Refuses to Deliver Internal Organs.

Kansas City, April 13.—That the body of Colonel Thomas Swope was removed from its casket and filled with poison will be the principal defense of Dr. B. C. Hyde, charged with his murder. Attorneys for Hyde said today they had discovered evidence tending to destroy some of the states strongest links in the chain of circumstances that resulted in the charge against their client.

The body of Col. Swope lay in the vault at Forest Hill cemetery several months during the winter and was not guarded. The attorneys declare they have discovered the body was tampered with after placed in the vault. The casket, according to the attorneys, had been unfastened and loosely refastened.

Twenty-five talesmen were chosen temporarily today for examination as to qualifications to act as jurors. Attorneys for the defense opened the trial today with the contention that the remains of the millionaire philanthropist had been tampered with and poison injected into the corpse. Later they made a demand on the prosecution for the organs of Swope for the purpose of submitting them to experts for an analysis.

The prosecution refused to surrender them unless ordered to do so by the court.

FIREMEN DIE DOING DUTY

Fearful That Six Have Perished in Fire Which Destroyed County Prison.

THREE HUNDRED INMATES OF JAIL ARE SAVED

Six Fire Ladders Missing After Collapse of Roof of Jail in New Haven—Fire For Time Threatened City—Prisoners Are Taken From Jail Without One Escaping From Guard—Are Panic Stricken—Defective Wiring Causes Tragedy.

New Haven, Conn., April 13.—Fire Chief Fancher this afternoon reported that six firemen were missing and expressed a fear that all were killed when the roof of the county jail collapsed in the fire which destroyed the building, several residences and threatened the business section of this city.

The missing are: Captain Chapman, Liet. Doherty, Firemen Buckley, Culum, McGrath and Mortell. Three others were fatally injured.

Three hundred prisoners were taken from the jail by policemen and deputy sheriffs and are now under guard of the various police precincts. None escaped.

The fire started from defective wiring in the chair factory of the prison. The prisoners became panic stricken and the guards had hard work controlling them.

GOTHAM CHINAMEN MAY SIGN PEACE TREATY

New York, April 12.—There was another shooting in Chinatown tonight. The victim this time was Fong Hong, a laundryman. He was leaving his room when another Chinese fired three shots at him. One bullet hit him in the left side, making a painful, though not fatal wound. The assailant escaped. Fong Hong was not a long man so far as the police can ascertain and they are at a loss to explain the shooting.

Tonight's shooting may delay the signing of a peace treaty between the warring towns.

An attorney who represents the Four Brothers society explained that an agreement signed by his faction would be presented tomorrow to Judge Warren B. Foster, who once acted as intermediary in a feud of the celestials, in the hope he could win the signature of the Ong Leong tong. The willingness of the Ong Leongs to sign the peace agreement was vouched for by an attorney who represents them. This was before the shooting, however. Commercial relations are responsible for the anxiety of the Chinese to end the war. Customers are turned away from Chinatown by the frequent affrays and the business of the celestials has suffered greatly.

NEGRO KILLS SHERIFF IN JAIL; MOB AFTER HIM

Meridian, Miss., April 15.—Tom Onnell, a negro, shot and killed former Sheriff Temple in a fight in jail today. In company with another negro, he then escaped to the cellar and they barricaded themselves. Both are armed. A mob surrounds the jail, determined to lynch the negroes.

Fuel Ends in Death.

Moorehouse, Mo., April 12.—A pot litical feud of three years standing terminated this afternoon in the killing of Dr. L. W. Hart, mayor of Moorehouse, on the main street, by Claud B. Hay, editor of the Moorehouse Hustler. Hay returned to his office and surrendered to the town marshal.

FIRST MAN ACROSS MOUNTAINS THIS SEASON REACHES CITY

The Meacham road across the Blue mountains is now open, according to H. H. Kinner of Sunnyside, Wash., who arrived in Pendleton last evening from La Grande and who is the first man to come through this season. Kinner says the snow is practically all gone and is disappearing rapidly, while the only difficulty encountered were muddy roads, fallen trees and the washed out bridge at Hilgard.

According to this man the roads will probably be muddy for some time, but the fallen trees have now all been removed and the bridge across the Grand Ronde river at Hilgard will be open for travel by tomorrow. He says the deepest snow he encountered was not more than 2 1/2 feet and this was only in a few places for short stretches at a time. He was delayed on the other side of Kamela by three fallen trees, but he took these out and those between Kamela and Meacham had been taken out by woodchaulers so that the road is now open and passable.

Kinner says the washed out bridge at Hilgard proved to be his greatest obstacle, but he crossed the stream by running his wagon over by hand on boards which were laid for him by the bridge builders and then by swimming his horses. He brought over a heavy load so he thinks no one need fear being able to make the trip. He found several people on both sides of the mountain who were waiting to ascertain if the road is open.
