"GIANTS OF THE SEA" WILL SOON BE READY

London—When the two new White Star liners are afloat, the Mauretania and her sister ship will have to hide their diminished heads. The Olympic and the Titanic, which are to be launched very soon at Belfast, will be the largest vessels afloat, and also the most luxurious and novel in their equipment.

They will have a displacement of 10,000 tons each; the length is to be about 840 feet, and the beam 90 feet. The upper deck will be more than 60 feet above water.

One of the upper decks is to be completely inclosed and will serve as a ballroom or skating rink. There will also be a skating rink and gymnasium large enough to permit diving. The main dining saloon will seat more than 600 passengers.

Other features include a palm garden, a large entrance hall, women's parlor, grill room and lounge. The hackneyed phrase, "a floating hotel," will apply to the new leviathans more truthfully than ever.

"NEVER AGAIN" SLOGAN OF MARRYING SQUIRE

Cleveland, Ohio.—Squire Phil Dietrich of Erie county is done with kissing brides. Paola Ruffa, an Italian, was married to Lucia de Gaetano by the squire. After the ceremony Dietrich stepped forward prepared to give the bride a smack. Then the new hubby proceeded to spoil the squire's kissing apparatus and the squire to duck blows. Ruffa rushed his bride out of the office. The squire didn't get any fee.

Says Stanfield Is Busy.

The newly incorporated town of Stanfield is a "hummer," according to James Cooper of the Hotel Bowman, who returned this morning on the motor from a hurried business visit to that end of the county. He says everyone is busy, all houses are full and that the boom spirit fairly permeates the atmosphere.

New Freight Cashier.

W. E. Rose, newly appointed cashier of the O. R. & N. freight office, arrived from Portland this morning to take up his duties at the local office. He will take the place made vacant by the resignation of William Lyons, who is to go to Portland to take a railroad position in that city. Mr. Rose, the new cashier, is a talented vocalist.

Woman's League Meeting Tonight.

The meeting of the local chapter of the American Woman's League, which was called for tomorrow evening, will be held this evening in the rest room at the city hall at 7:30 o'clock.

Important matters for consideration are selection of name, adoption of constitution and by-laws and election of a delegate to attend the convention to be held in May in University City.

Many Shoppers Come In.

This morning's Pendleton-Walla Walla local was fairly loaded to the guards with residents of the east end of the county coming to this city to trade today. There were fully sixty altogether and every town along the line from Milton and Freewater on down, was represented in the crowd. The motor car also brought in another large bunch of shoppers from the west end of the county.

Brer Coyote Too Foxy.

H. R. Lorenzen, the Stage Gulch farmer, tells a good joke on his neighbor, Fred Lidwill. Last Sunday Mr. Lidwill and his hired man trapped a coyote in a hole upon the former's place. It was a deep hole and to elevate the animal to the surface took some careful engineering. Fondly believing that they would get \$2 for the scalp the two men worked away. But when they got the animal to the surface he gave an imitation of a flash of chain lightning and was gone before the astonished ranchers could lay hands on him.

District Manager Here. C. E. Van Houtte, district commercial manager for the Pacific Telephone & Telegraph Co., has been a visitor in the city today. In speaking of the recent advance in the four party phone rate here Mr. Van Houtte declared the change was an equitable move on the part of the company for the reason that all new subscribers were required to pay the new rate and it was not just to allow old subscribers to enjoy a lower rate.

Automobile Beats Train.

Dr. H. W. Coe came up from Stanfield last evening in his automobile returning this morning. Missing the train at Stanfield the Doctor started for Pendleton in his touring car and though the train had the slight advantage in time of starting it was overtaken and passed, the car reaching the hotel Pendleton, a few minutes before the train pulled into the depot. The run up was made in an hour and twenty minutes.

Change in Train Service.

A slight change in train service on the O. R. & N. goes into effect this evening. With the exception of a change in mail cars at this point the Pendleton-Portland local will be run on through to Walla Walla each evening and the Walla Walla-Pendleton local will run on through to Portland each morning. The train crews will have the same runs as at present, the times and numbers of all the trains will be the same; the only change being that passengers will not be compelled to change cars at this point. The change is made for the purpose of expediting the service.

Promoted major general in 1889, he retired in 1897, and was appointed colonel of the eighth Hussars in 1895. Major F. W. Mussen, second in command of the eighth, is his son.

Students Urged to Sedition.

Calcutta, India.—Every school and college in eastern Bengal has recently been flooded with leaflets of the most save description, urging students to assist in making a collection of heads for the Goddess Kali, and to offer her a welcome sacrifice of foreign blood. They form part of a scheme to goad the mob to anger by representing foreigners as bleeding the mother country.
