

MEMORIAL SERVICES FOR A. M'KENZIE

CITIZENS OF ATHENA PAY TRIBUTE TO DEAD MAN

Desire St. Dennis Wheat Farm Sold—Roads in Every Direction Being Graded—Commercial Club Assists in Good Roads Work.

(Special Correspondence.) Athena, Ore., April 17.—Last evening at 7:30 o'clock, special memorial services were held at the Christian church in memory of the late Alexander McKenzie. The mayor, A. B. McEwen, represented the citizens and people of this vicinity at this service, while Mr. J. M. Potts and L. J. Foss represented the church. The pastor was the speaker of the evening and delivered an appropriate address.

The wheat farm of the late Desire St. Dennis on the Umatilla Indian reservation has just been sold at an administrator's sale and was bid in at \$18,000. This farm is one of the best farms on the Umatilla Indian reservation, and therefore commanded the highest price.

E. R. Cox who for many years has been a hardware merchant in this city, a member of the firm of Cox & McEwen, but who went out of business last fall and spent the winter in California has just returned to this city. Mr. Cox is one of the pioneer citizens of this section and is a very prominent member of the Masonic lodge.

Roads are being graded in every direction from this city. Mr. Charles Wilks has recently been employed by the county road supervisor to take charge of the roads in this direction and he is doing efficient work.

The Commercial club of this city is co-operating with the county road authorities in encouraging the building of especially good roads in the vicinity of Athena. The matter of building a first class macadam road from Athena to Pendleton is being widely agitated in this section and seems to meet with general approval. It is estimated that the actual cost of construction would not be a burden as there can be had plenty of stone almost all the way along the road.

FRUIT CROP IN INLAND EMPIRE WILL BE BUMPER

Spokane, Wash.—Representatives of transportation companies predict that the fruit crops in Washington, Idaho, Oregon and Montana and along the border in British Columbia this season will be double the production in 1909, the banner year in the history of the northwest. Estimates for the inland empire alone range from 14,000 to 16,000 cars, of which it is expected that about 9500 will come from eastern and central Washington. Shippers in the Yakima district place the yield there at from 3500 to 4000 cars, and the Wenatchee valley looks for fully 3500 cars. Crops in Spokane and other countries in the extreme eastern part of this state will also be heavy. Growers in the Lewistown district expect to harvest from \$1,500,000 to \$2,000,000 worth of fruit and other parts of northern and southern Idaho also report the outlook bright for big yields while indications are that Montana and Oregon will have larger crops than ever before. Fast train service between points in central Washington and St. Paul and Chicago is promised.

SPOKANE TO EXPEND THOUSANDS ON PAVING

Spokane, Wash.—Five hundred and twelve thousand dollars for paving 43 streets of a total of 16 1/2 miles in the western part of this city, is the amount involved in a contract just awarded to a Chicago firm. The city engineer's estimate for the work was \$559,000. This is the first division of 26 miles of paving to be awarded this year and is one of the largest single contracts ever entered into in the Pacific northwest. The company will install a plant and begin work in a short time, also making Spokane its headquarters for business in the northwest. With the paving now in progress and that contemplated the city will be responsible for an improvement expenditure of \$2,785,526, while including the bridge work, to begin within 30 days, the aggregate is \$3,129,898. Contractors and architects estimate that more than \$10,000,000 worth of buildings will be erected in Spokane during 1910, as against nearly \$9,000,000 expended on new structures in 1909.

Wonderful New Palace.

St. Petersburg.—The czar's new palace at Lavadia, in the Crimea, will be a wonderfully beautiful building. It will be built entirely of Balaclava stone, which, when polished, resembles pure amber, giving buildings of which it is constructed a fairy-like appearance.

The new palace will be completed in 1912.

The only part of the present palace which is to remain standing is the chapel, built about 100 years ago, and considered a masterpiece. Among other treasures this building contains an elegant marble cross mounted on a pedestal of Crimea porphyry, which was presented to the Czar Alexander II, by the workmen of Lavadia as an expression of their gratitude for the emancipation of the serfs.

Farmers in the northwest, Mr. J. J. Hill told President Taft, "are a month ahead of time planting their crops, because of the fine weather." And the fine weather, he did not add, is due to a republican administration and the Payne-Aldrich tariff law. Think what a backward, doleful spring we would have had otherwise.

Nature creates merit and fortune brings it into play.—La Rochefoucauld.

taken refuge with a family two doors away. After the children had been put to bed the father procured a stick of dynamite, lighted it and threw it into his own front yard. There was a terrific explosion and the windows in half a dozen houses in the vicinity were broken.

There was a great commotion in the neighborhood and in the midst of it Mrs. Holostich elbowed her way through the crowd and inquired frantically if the children were safe.

MOVING PICTURE ARTISTS INVADE CENTRAL OREGON

Madras, Ore.—That central Oregon is becoming exceedingly well advertised by the circumstance that from two to a half dozen campers' wagons loaded with household goods stop over in Madras every night.

Most of these continue on to southern Crook and northern Lake counties, where there are still many sections of government land open to entry.

While most of the desirable government land in this section has been filled upon, the entries made with the land commissioner at this place average about eight a week, the greater portion of these being homesteads.

The M. E. Thompson company, which recently purchased the townsite of Madras, has had a photographer in this vicinity for the past three days who is taking views to be used in moving picture shows to be given at Portland, Seattle and Spokane, showing the attractions of this section for investors and homeseekers.

\$500 CLERK SAVES NATION TWO CENTS

Washington, April 16.—President Taft's advocacy of economy in public expenditure has struck a responsive chord in an individual signing himself "A \$500 Clerk." In a letter to Secretary MacVeagh he says: "During the last year, by omitting to cross my 't's' or dot my 'i's' I have saved the government two cents in ink. Will you please add this to my salary? I am now using lead pencils down to one-half inch. I hope in this way to save another cent. Long live this economical administration! "I am short of paper or I would write a longer letter. We are one year nearer the poorhouse."

To OREGON and the Great Northwest

The management of the Oregon Railroad & Navigation Co. (Oregon Lines) takes great pleasure in announcing that the low rates from eastern cities, which have done so much in past seasons to stimulate travel to and settlement in Oregon, will prevail again this spring DAILY from March 1 to April 15, inclusive.

People of Oregon

The railroads have done their part; now it's up to you. The colonist rate is the greatest of all homebuilders. Do all you can to let eastern people know about it, and encourage them to come here, where land is cheap and homebuilding easy and attractive.

FARES CAN BE PREPAID at home if desired. Any agent of the O. R. & N. Co. is authorized to receive the required deposit and telegraph ticket to any point in the east.

REMEMBER THE RATES—From Chicago \$33, from St. Louis \$32, from Omaha and Kansas City \$25. This reduction is proportionate from all other cities.
