A'BAS THE SCOFFER.

There is one part of Roosevelt's address which the East Oregonian bedieves worthy or repeating, for the benefit of certain people within this city. Here it is, if the shoe fits you. wear It:

"The poores; way to face life is to face it with a sneer. There are many men who feel a kind of twisted pride n cynicism; there are many who con fine themselves to criticism of the way others do what they themselves dare not even attempt. There is no more unhealthy being, no man less worthy respect, than he who either really lds, or feigns to hold, an attitude sneering disbelief towards all that great and lofty, whether in achievement or in that noble effort which even if it fail, comes second to achicvement. A cynical habit of thought and speech a readiness to criticise ork which the critic himself never ries to perform, an intellecual aloofess which will not accept contact with life's realties-all, these are marks, not, as the possessor would fain think, of superiority, but of weakness. They mark the men unfit e bear their part manfully in the stern strife of living, who seek, in the affectation of contempt for the achievements of others, to hide from others and from themselves their own cakness. The role is ensy; there is ione easier, save only the role of the nan who sneers allke at both critiism and performance."

Though they do trying work, the local "Hello" girls do not get sufficient pay to meet actual living expenses. So it is but natural bonne Saturday.
