HERMISTON TO HAVE STONE BUILDINGS

BANKING COMPANY AND J. W. REID WILL BUILD Two Two-story Stone and Concrete Structures Will Be Erected Soon—Strong Testimonial for Project Land—Beeman Arrives to Make Honey.

(Special Correspondence.) Hermiston, Ore., April 28.—Plans have been drawn for the new bank building soon to be erected by the Hermiston Bank & Trust company, to be located on Main street across on the corner from the Oregon Hotel. It is to be built of stone and to be two stories high the lower story to be used for banking purposes and the upper story has been rented for offices. J. W. Reid of Jefferson, Oregon, is the owner of the adjoining 57 feet and has been planning to move the present frame building away and build a stone or concrete building there in the fall, but since Mr. Reid has decided to build at once he is considering the matter of building at the same time and of using the same kind of material.

P. A. Stewart is here from Seattle, Washington, looking after his property interests, and also his employers, the Gratzner Lumber company's holdings which are to the extent of one hundred and thirty acres. Before making the purchase the company sent him here from Iowa and had him spend six months in investigating the orchard lands of the northwest, and after a very careful study he decided that the Umatilla project had them all beaten in a number of ways, mainly in transportation, water supply, altitude, depth of soil and climate.

John Intlekofer is here from Algona, Iowa, and will make this his future home. He is planning to build on his land north of town near the experimental farm.

George A. Cressey arrived yesterday with a car of emigrant moveables from Hilbert, Wisconsin. Mr. Cressey is a large capitalist and is known all over his part of the country for his fine honey. He will engage in that business here and is the owner of a fine tract of land west of town. He brought with him a half carload of bees and bee supplies.

'CORPSE' SITS UP AND WINKS ONE EYE

Portland.—"A man has been thrown out of a restaurant at the corner of Burnside and Second and killed," was the message which came in an excited voice to police headquarters, one morning. "Another murder at the north end," commented the policeman to Captain Batey. In a moment the usually quiet station was in wild excitement. Detectives Hepner, Endicott and Sloan were hurriedly sent to the scene of the tragedy, while the patrol wagon was ordered out for district duty. In a few minutes the three sleuths were in front of the restaurant. Lying face downward on the sidewalk was the inert body of a man. There were no signs of respiration and gingerly the body was rolled over while they searched for the fatal wound. To the consternation of the officers the supposed corpse blinked one eye and then the other and finally set up.

"Huh!" remarked one, "it's only Jim Casey." A close inspection showed that Hepner was right. Casey, who was released from the city prison on Sunday morning after finishing his 45th consecutive sentence for drunkenness, began at once to celebrate his release with North End whiskey. It nearly cost him his life, but with the aid of the patrol wagon he was carried again to the prison.

BUSHEL OF GOLD AND GEMS RAINED IN CHURCH

New York.—With the help of an appraiser, Canon William Sheaf Chase is engaged in the process of examining a bushel of gold, gems and silverware, the proceeds of a unique collection taken Sunday at Christ Protestant Episcopal church, in Brooklyn.

The collection was taken to raise a fund for paying off a debt on the rectory. Fishers carried big baskets down the aisles and into these members of the congregation dropped jewelry and coins, each being wrapped and sealed. A sale will be held later at which those who gave up cherished pieces of jewelry will have an opportunity to bid them back again.

The silverware and gold which cannot be sold will be disposed of at the assay office and melted down. One of the smallest packages accidentally became unsealed and a \$10 goldpiece fell out.

Liquid Foot Ease. Relieves tired, aching and sweaty feet. Happiness for every one at 25c a bottle. First Class Drug Stores.

Nature's Gift from the Sunny South

Cottolene Is Not a Substitute for Anything

No animal product, such as hog lard, ever has afforded, or ever can afford a satisfaction to compare with Cottolene. It is far superior to lard because it contains no hog fat, and its purity is unquestioned. It is more economical than butter for shortening and frying because, being richer, one-third less is required.

Cottolene is made from cottonseed oil, a fluid extracted from the seed of purest cotton. From Cottonfield to Kitchen—human hands never touch the oil from which Cottolene is made.

Pies, doughnuts and cakes cooked with Cottolene can be fearlessly enjoyed by the most determined dyspeptic, for Cottolene makes food digestible as well as palatable.

There is no substitute for Cottolene, because there is no shortening as good as Cottolene. It is pure, clean, neutral in taste and flavor, and absolutely the purest and most healthful frying and shortening medium.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

'CHAPPY' MORAN, DEAN OF SWINDLERS, JAILED

Chicago.—Charles better known as "Chappy" Moran, alleged by Post-office Inspector Stuart of Chicago to be the dean of American swindlers, is under arrest here.

In the last twenty years Moran's alleged gains are said to aggregate close to a million dollars. He never operated on a small scale.

Moran was found occupying an expensive suit of three rooms in a hotel. A valet attended him and had plenty to do caring for his master's extensive wardrobe. He rented a taxicab in which to go to jail.

Moran is known on both sides of the Atlantic. Later he became known as a daring and successful wire tapper and is said to have originated the sick engineer swindle.

"Moran, working with William Clark, now a fugitive from justice, operated the Eastern Grain company in Philadelphia," explained Post-office Inspector Cortelyou today. "They collected from fifty to seventy-five thousand dollars as margins from would-be investors and then suddenly shut up shop. I found him here running a handbook on the races and living high."

State of Ohio, City of Toledo, Lucas County, ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.
