PREHISTORIC BONE IS FOUND AT ECHO

O. D. TEAL DISCOVERS RELIC OF GREAT AGE
Jaw Bone, Eight or Ten Inches Long, Containing Portions of Teeth, Picked Up at Mouth of Alkali Canyon—Other Prehistoric Bones Unearthed.
(Special Correspondence.)
Echo, Ore., April 29.—O. D. Teal lately found part of the jaw bone of some gigantic prehistoric animal. The bone is eight by ten inches and contains the roots and part of three teeth. The relic has been badly worn by the elements. Judging by the teeth it was from a carnivorous animal. The bone was found at the mouth of Alkali canyon near the Western Land & Irrigation company's head gate. A number of bones of prehistoric animals have been unearthed during the excavation on the several irrigation ditches in this locality, but this is the first one found on the west side of the river.

MAJOR M'FATRIDGE INDIAN AGENT AGAIN

ON MONTANA RESERVATION NOW, AT YAKIMA LATER
Former Agent of Umatilla Reservation Gets Appointment to Flathead Reservation at Browning, Montana—Will Go to Yakima After July 1.
Major A. E. McFATRIDGE, formerly agent on the Umatilla reservation and later associated in business here with J. J. Hamley, is now agent on the flathead reservation at Browning, Montana. He expects to remain in that position until about the first of July, when he will probably be transferred to the Yakima reservation, as agent there.
Soon after leaving the service Major McFATRIDGE was tendered the position of agent at Yakima. He had then engaged in business in this city and turned the offer down. Later he retired from business and again made application to enter the service, offering to accept the Yakima position if it were still open. It was not then, but he was given the flathead reservation until the other position could be secured for him.
McFATRIDGE made many friends among Pendleton business men and white renters of Indian lands and a strong local effort was made to prevent his removal as agent, when this was caused by trouble with employes at the agency.

STANFIELD SECURES PITCHER FROM ECHO

HARRIS WILL HOLD DOWN 1ST SACK FOR NEW T.W.N.
Manager Neal Thinks He Has Phenomenal Twirler in Hutchinson—Has Made Great Record—Other News Items.
(Special Correspondence.)
Stanfield, April 29.—Manager Neal of the Stanfield baseball team, has secured T. R. Harris from the Echo team. Harris is a pitcher and has been pitching great ball for the Echoites, but Neal expects to give the big fellow a try on the first sack and may use him some on the pitching staff. Harris is a good "sticker" and an all-round heady baseball player.
While only playing Sunday baseball Manager Neal has a twirler whom he thinks would be a credit to any professional aggregation of ball players in Roy Hutchinson, an East Oregonian reporter overheard a conversation in which Neal and some other fellows were speaking of the Stanfield-Echo game at Stanfield last Sunday. Neal said, "Look at Hutchinson's record, the same old thing, 15 strikeouts and only 3 hits. I tell you fellows that kid is a wonder, and I would not trade him to McCredle if he would give me my pick from the flock."
The boys are practicing a little more than usual and getting in line to give the pennant chasers of the Irrigation league one of the greatest fought battles that has ever been produced by any amateur organization of ball players.
The boys here are very anxious to get a crack at some of the Blue mountain leaguers, "Pendleton preferred." Say, Old Man Frazier, how about Decoration day?
Fred Earl of the Peoples Warehouse made Stanfield a business visit today in connection with his store. Mr. Earl is very much surprised at the progression Stanfield is making and says "there is no reason why we should not have a great town here some day."
The George and Miller Co., of Echo who are erecting a large concrete block in Stanfield have opened up a store in the Coe building on Coe avenue near the bank. This store at Stanfield is under the management of Mr. Thos. Tubbs. Mr. Tubbs reports a very good business.
Mr. H. E. Allen who was awarded the contract on both the George & Miller and Bell buildings, left today for Fargo, North Dakota, where his family is. Mr. Allen expects to return in about 3 weeks.
Cameal Con De has taken charge of the "bunch" at Stanfield and expects to put on one of the best home talent plays that has ever been produced in this part of the country. Cameal has had a great experience in vaudeville, and is one of the best contracto singers in the business.
Everybody in Stanfield is a "booster." Why shouldn't they be? A person who would not boost for a town like this would talk about his mother.
H. E. Bartholomew is contemplating installing an ice plant in Stanfield. Whoop her up Harry, we are all with you.
Mr. T. W. Rank secretary of the Columbia land company is making Pendleton a business visit today in connection with his office.
Mr. W. W. Williams was an incoming passenger from Pendleton today.
Roy S. Neal left this morning on the motor car for Pendleton to meet Mrs. Neal who has been visiting with her parents, Mr. and Mrs. J. K. Bott.

MILTONITES WOULD FORM NEW COUNTY

(Special Correspondence.)
Freewater, Ore., April 29.—One of the largest attended public meetings ever held in northeastern Umatilla county was held last night in the Oregon theater to consider the advisability of the formation of a new county to be known as Orchard county. D. C. Sanderson of the Freewater Times, presided and addresses were delivered by Attorney J. P. Neal, W. E. Jones and J. F. Slover. N. A. Davis, Henry Frazier and J. H. Hall have been appointed trustees to carry on the movement with a publicity committee consisting of D. C. Sanderson, J. P. Slover, W. F. Korts, J. P. Neal, S. D. Peterson and Bruce Shangie to assist the movement.
TRIO UNDER TRAIN; UNHURT.
Children Struck by Truck; Thrown Across Track; Uninjured.
Vancouver, Wash.—Struck by a truck which had been sent whirling by a swiftly-moving O. & W. freight train at the Union Depot Thursday morning, three children were thrown under the passenger train and came out on the other side, uninjured.
Mrs. J. Van Atta, of Brush Prairie, saw her two children, 4 and 8 years old, disappear under the coach when they were struck and shrieked. Women hearing the mother's screams of terror became hysterical and excitement reigned.
The Yacont passenger train had just stopped on the second track and the baggage truck had been stopped by the messenger, E. Reeves, at the baggage car door, when a rapidly moving freight from Portland came in on the first track. The messenger saw the truck was going to be struck, so dropped the handle and escaped. The children were unable to get away. The truck was demolished.

St. Elmo Almost Assured. Manager Mitchell of the Oregon theater, and Advanceman Shipman succeeded so well yesterday and today in listing the town for "St. Elmo" that the big Belasco attraction is practically assured. A few more names are yet necessary, but Miss Spader, a traveling representative of the company, will be here Monday to complete the listing of the town and it is believed that she will be successful in getting the number of names necessary to insure a house worth while for the company to stop in this city.
Services at Catholic Mission. Bishop O'Reilly of Baker City, went out to the Catholic mission today, where he was met by the Indians in procession. On Sunday he will hold confirmation services for a large class of children and adults and on the following Sunday will hold similar services at St. Mary's church in this city.

Our Watch Repair Department

is a most carefully conducted institution, therefore the busiest corner in our store. When a watch is left in our care we spare no effort, nor time in perfecting each detail, so as to make the best possible time keeper out of it.

It might be said that we are "Strong on Watchwork" because we are interested and take pride in our work. We are eager to have each customer say that "my watch has kept better time since I left it at Sawtelle's than it ever has before"

This is indeed a boast but let us prove it to you.

GANs WANT TO KNOW WHY HE'S OVERLOOKED

New York.—In a letter to a friend in this city Joe Gans wants to know why he has been ignored by all the lightweights he has challenged. About a month ago Gans posted \$1000 and challenged Ad Wolgast for the lightweight championship of the world. Failing to land a match with Wolgast he announced that his money might be used to clinch a match with any other 135 pounder in the world.
Aspiring lightweights have not fallen over themselves to fix up a match with the hard hitting negro and Gans believes they are all sidestepping him. He is willing to have his \$1000 go as a side bet if a battle of more than 10 rounds can be arranged in a city where decisions are allowed.
Gans also asks for a few 10 round fights in New York before some of the fight clubs naming Leach Cross and Tommy Murphy as men he would like to meet. The negro claims he is far from being "all in."

SOUTHERNERS OBJECT TO HAVING "HOOK WORM"

Washington.—In dealing with the "hook worm" diseases which is so prevalent in some parts of the South, doctors and scientists have encountered a peculiar prejudice. They have found that people who are not ashamed to admit that they had "ground itch" or that they are "anemic" become extremely indignant at the suggestion that they have the "hook worm" disease. If they are told that they have "uncinariasis" which means the same thing, they may be enthusiastic to undergo treatment.
Doctor C. W. Stiles, of the Public Health and Marine Hospital Service, who has been making an investigation of this disease in Florida and North Carolina, says that as absurd as this situation is it presents a serious practical problem and he suggests the use of the term "ground itch anemia" as the popular name for the disease to be used with persons who are too proud or too sensitive to be treated for "hook worm." Doctor Stiles found that the disease was a real danger, over 55 per cent of the school children in three counties of Southern Florida being infected.

CAPTURES A STAIRCASE.

George K. Birge Secures Treasure for His Buffalo Residence.
Paris.—George K. Birge has purchased a marble and porcelain staircase from a Venetian palace for his \$2,000,000 residence in Buffalo. There were various architectural difficulties in the way, before the massive pieces could be unsealed and removed to the boats, but a greater difficulty was the objection of the Italian government to the sale of this fine example of early Venetian art. All obstacles were finally overcome and this triumph of the work of the early masters is now on the way to Buffalo, where it will be set up this summer.

STATES HAVE JURISDICTION WITH FEDERAL COURTS

Washington.—After three days of sharp controversy the senate passed the house bill, so amending the employers' liability act as to give the state courts concurrent jurisdiction with the federal courts in dealing with suits for damages growing out of accidents.
The measure was reported from the committee on the judiciary and was in charge of Senator Borah, who finally steered it to be passed, notwithstanding many sharp assaults from both sides of the chamber. The discussion considered especially the rights of the states to deal with questions growing out of the liability law.
Senator Hale took a pronounced position in favor of state control but an amendment proposed by him was voted down. Senator Heyburn, Mr. Borah's colleague, also sought to have the bill amended, but without avail. Senator Paynter of Kentucky was the only senator who succeeded in getting the bill amended.
Seattle will have to wait till another census to beat New York and Chicago.

MARY GARDEN STILL MAD.

Hammerstein Says She'll Get Over It; She Says "No."
Paris.—Mary Garden has brought two motor cars with her, one a small Renault, the other a huge Pierce Arrow for touring purposes. She will go to Switzerland this summer in an endeavor to relax her overstrained nerves. Oscar Hammerstein says placidly:
"Mary must have her fits of temper, but she'll come back in a more humble frame of mind if she is let alone."
To this Mary retorted:
"Oscar may find himself mistaken this time. I mean business"
