## TWOHY BROS. GET MORE MACHINERY

### SECOND BIG STEAM SHOVEL REACHES CITY

Contractors Are Rushing Work on O. R. & N. Line Between This City and Yoakum—Established Private Telephone System from Camps to City.

The second big steam shovel to be used by Twohy Brothers in rebuilding the O. R. & N. between this city and Yoakum, arrived last night from Portland and was taken to the scene of activity today. One of the big dirt digging machines has been engaged for several days in the task of changing the channel of the river, just below the Pilot Rock junction.

Still another machine is due to arrive in a day or two. This is that used by the government in constructing the big reservoir and dam on the Umatilla project. The Twohy brothers have purchased the entire equipment of the government, with the exception of the steam shovel, and it is now being rushed to this point. The equipment consists of the steam shovel, and the construction trains. Other dump cars and dinky engines are arriving almost daily from the east and the work is getting into full swing.

In the absence of any regular telephone communication with Pendleton from that section of the country Twohy Brothers have erected a line of their own which is now in operation. It is probable that with the termination of the contract that this line will be turned over to the farmers living along the river. Some of these have been trying for several years to get telephonic communication with Pendleton, but owing to

the fact that their farms are few and far apart they have been unable to construct a line of their own and the telephone company has not found it profitable to do so. With the line already up the farmers can easily afford to maintain it.

The shovel which arrived last night is a 70-ton Bucyrus, one of the largest made. The one already at work weighs 60 tons.

### BRITISH COLLEGIANS TO STUDY ACROSS POND

London.—The scheme for an international exchange of students is being developed gradually. Arrangements have been made for about a dozen British University men and women to visit North America.

Among them is a lady who holds a Research Fellowship at Somerville College. She will leave England on May 31 for Santa Fe, N. M., where she will study the social organization of the Pueblo Indians. Her tour will last six months, and will include visits to Carlisle and Bryn Mawr.

A graduate who holds the Mitchell Scholarship at the University of London is going for six weeks to study the practical administration of tariffs and Canada and the United States.

He will visit Yale and Harvard. A Durham University man is going almost immediately for two months to study agriculture in Canada and the United States. He will penetrate as far west as Calgary and Edmonton, and will also visit Madison, Wis. All these are traveling under the auspices of the International Interchange, which has made the arrangements and provided the special facilities.

### HOPE DIAMOND IS PART OF FAMOUS BLUE GEM

Paris.—Another story of the origin of the famous Hope diamond is told in the *Elclair* by M. Adcock, a well-known jewelry expert.

The Hope diamond is only a piece of the famous Blue Diamond, which was brought to Europe by Travenier, Louis XVI, purchased it, and it was placed among the Crown jewels, from which it was stolen in 1792, all trace of it being lost for a long time.

The Diamond Bleu was of pear shape, and rather irregular, and when it was discovered it was found to have been cut in two. One piece found its way into the collection of the Duke of Brunswick, and was disposed of at Geneva. The other piece was bought by Mr. Hope about the year 1830. At the death of Mr. Hope it was purchased by a merchant, who sold it to an American jeweler, who took it to New York.

As the jeweler's business did not prosper, the Blue diamond was brought back to Paris and his representatives sold it to St. Habib, who subsequently placed it in his collection, which was put up at auction in the Salle des Ventes in Paris.

### Here's a Kissing Screen.

New York.—The New York branch of the National Pharmaceutical Society has given its approval to an "osculatory screen," which is designed to render the kiss hygienic, and safeguard lovers from the danger of germs. The screen is described as a "disinfected silk gauze through which the kiss is accomplished, the gauze being held in an ivory frame and placed between the two pairs of lips before they meet."

### Cabbies' Duel With Whips.

Paris.—Two Paris cabbies, rivals for the hand of a fair laundrymaid, attempted to settle their differences in a remarkable duel. Choosing a quiet spot on the fortifications, they stripped to the waist and fought with whips. The queer encounter was taken with desperate seriousness by both of them.

Do you take the East Oregonian?

## PERSONAL MENTION

J. H. Blake of Ione, is a Pendleton business visitor.

Frank Jones of Baker City, is here to care for business interests.

Mrs. O. P. Smith of Tekoa, Washington, is the guest of local friends.

F. S. Best of Prosser, Washington, is transacting business in Pendleton today.

Dr. D. C. McNabb went to Umatilla this morning on professional business.

Elsie McReynolds of Pilot Rock, came in from that place yesterday afternoon.

George Freeman of Enterprise, is over from Wallowa county for the transaction of business.

Mrs. McNett of Wallula, came over from that place this morning for a visit with her daughters.

C. B. Viles of Prairie City, is here from his central Oregon home for the transaction of business.

County Commissioner Horace Walker of Stanfield, joined the excursion to Walla Walla this morning.

Donald Rader went to Walla Walla this morning where he will be the guest of relatives for a few days.

Glenn A. Bush, an employe of Twohy Brothers construction company, came up from Coe last evening.

Right of Way Agent J. B. Eddy of the O. R. & N. is in the city today, having come over this morning from Walla Walla.

George W. Schlegel, cashier of the bank at Pilot Rock, returned home this morning after transacting business here over night.

E. H. Brown, editor of the Stanfield Standard, transacted business in Pendleton last night, returning home this morning on the local.

Mrs. Will M. Peterson and two children left this morning for Walla Walla, where they will be the guests of friends for a few days.

G. W. Proebstel of Weston, was among those from the East end of the county going up this morning on the business men's excursion.

Judge M. L. Olmstead of Baker City is in Pendleton attending the sessions of the Oregon supreme court.

Alonzo K. Knotts, the Pilot Rock sheepman returned to his home on East Burch creek this morning, after transacting business in this city.

S. C. Martin, the supervising engineer for the construction work in progress for the O. R. & N. just west of this city, was in Pendleton this morning.

Clark Wood, editor of the Weston Leader returned home this morning, after having attended the Commercial association meeting in this city last evening.

Will Ferguson came down this morning from his wheat ranch at Adams, and like the other grain growers he is rejoicing in the heavy fall of rain.

Dr. E. B. Waffle, surgeon in charge of O. R. & N. construction crews, arrived in Pendleton last evening and is visiting the camps west of this city today.

Attorney Edward S. Taylor of the reclamation service legal department, came up from Hermiston this morning and is transacting business here today in connection with his department proceedings.

George Brown, C. D. Bronaugh, H. E. Beers, Leland Shinn and S. Finch of Baker City are among the number from that county who are here today, being interested in the supreme court proceedings.

Attorney J. N. Hart of Baker City, and one of the best known politicians in eastern Oregon, is numbered among the out of town lawyers who are here, today on business before the state supreme court.

Mr. and Mrs. Bud Anderson of Spokane, came in this morning on the Northern Pacific and will leave this evening over the O. R. & N. for Shoshone and Salt Lake. Mr. Anderson is an employe of the Northern Pacific.

### RUN ON DAY AND NIGHT BANK STOPPED

Los Angeles, May 4.—The run on the Day and Night bank is over, according to the bank's officials. Superintendent Anderson's announcement that the institution is solvent stopped the run of the depositors and it is now banking money again.

### POSTMASTER YOUNG OF PORTLAND IS DYING

Portland, May 4.—Postmaster John C. Young is not expected to outlive the day. He is suffering from a cancer of the stomach and has been sick several weeks, seriously for four days. He was originally from Baker City.

### Hill Party at Salem.

Salem, May 4.—James J. Hill, Louis Hill and party arrived this forenoon over the Oregon Electric and visited fruit farms in this vicinity. They lunched at the Hillside club, and started on a return trip to Portland at 2 o'clock this afternoon.

### Double Murder in Arizona.

Prescott, Arizona, May 4.—A posse is today scouring the mountains in this vicinity for the murderers of George Mahard, and his wife. Their bodies were found last night in their cabin 26 miles distant and both were riddled with bullets.

### Activities in Revolt.

Constantinople, May 4.—Bosnians invested Prissand and captured Djakova after heavy fighting today. The casualties are large. The revolutionists were the aggressors.

The Policeman (Irish)—This is more serious than Ol thought. The window is broken on both sides, and it's lucky for you that you have the brick as evidence.—The Sketch.

## Newsy Notes of Pendleton

Official Weather Report. Minimum temperature, 43. Maximum temperature, 58. Rainfall, .68 inch.

New Baggage Agent. F. E. Milne is now day baggage agent at the local O. R. & N. depot. He succeeded A. L. Fullum, who resigned recently.

### Two Marriage Licenses.

Marriage licenses have been issued to John McLaughlin and Tracy Dogerty of this county and to A. Fisher Compton of Franklin county, Washington and Jessie V. Frazier of Milton.

### County Court in Session.

The May term of the county court was convened this morning in the Commissioner's room at the court house with Judge Gilliland and Commissioner Lee in attendance. The day has been consumed in auditing claims against the county.

### Dye Works Changes Hands.

Jack Webster who has been a resident of Pendleton for the past three years has purchased the Berlin Dye Works of James Beard. The plant is located at 302 East Court street and is now in the possession of the new proprietor. Webster was employed in the place last fall and is well known here. Beard has gone to Emmett, Idaho, where he is employed as a salesman in a dry goods store.

### General Manager Here.

General Manager Grinler of the Northwest Corporation spent a few hours in Pendleton today. Grinler is from New York and is to be the general manager under the new ownership. He was brought over by George D. O'Conner, Walla Walla manager for the company and manager of the Walla Walla valley traction company. The trip was made in the O'Conner auto in two hours and forty minutes despite the muddy condition of the road. The party made a brief stop in Adams where the company is installing a sub station preparatory to furnishing that town with electric light and power.

### Nearly An Inch of Rain.

The rainfall for the 24 hours ending this morning at 6 o'clock was .52 of an inch. All but .14 of an inch of that amount fell between 7 o'clock last evening and the time of the cessation of the storm which was apparently soon after midnight. The rain was one of the most copious and beneficial this county has enjoyed for some time. This brings the total precipitation for the wet season up to 13.68 inches or within half an inch of the total normal precipitation for the entire year. The precipitation for the first four days of this month is also within half an inch of the normal for the entire month. From present indications both marks will be reached and passed before the first of June.

### AMERICAN DISCOVERS LATEST IN PAINTING

Paris.—James Hazen Hyde, the most fashionable American in Paris, whose hoisery always matches his shirts, and whose ties harmonize with his eyes, has discovered a new school of painting. It is an absolute reaction from realism. The principle is to produce the greatest effect with the smallest amount of paint. On some parts of the canvas there is said to be no paint whatever.

The most successful exponent of the school is Madame Corras, who hails from the town of Mentone, in the south of France. Her pictures are all marine, many of them painted at night in which the sea is shown moaning and surging and striving after the moon. Hyde has been seen hovering around the exhibition rooms where these paintings are on view every day. Recently he encountered the venerable painter, Harpignies, now in his ninety-second year. He agreed with Hyde that the paintings of Madame Corras ushered in a new school of painting.

Hundreds of models and young society girls flock to this exhibition to study the effect of the moon upon the surging waters.

### Mexican Political Fight.

Mexico City, May 4.—There will be but small disturbances today and tomorrow at the national primary election. The close battle will be for the vice presidential nomination, but it is believed Senator Corraut will win. The renomination of Diaz is assured.

It has been said—perhaps truly—that the human soul at its birth beholds for an instant its Creator, and for an instant at its death, its Judge.

### CHANTECLER GOWN TO BE INTRODUCED IN THE CITY

Look what's coming. Listen and you will hear in various tea rooms and refreshment parlors about town, jingling glibly to the clink of the ice in the glass, newly coined adjectives descriptive of the greatest, latest creation in feminine dress to appear in our city. Bonita, the famous beauty, and star of the musical comedy, "Wine, Women and Song," will wear it. Bonita is the first to introduce on the coast the Chantecler gown, and will wear with it an appropriate headdress which carries out the theme of this unique creation to its logical completeness. The Chantecler gown is designed for evening wear, and is made of liberty satin with a deep Chantilly lace overdraped, lace predominating the upper part of the bodice. The same material gives a pronounced short-sleeve effect, which only accentuates the inexpensively clever draping of the garment. It is said that this masterpiece interpretation of the supreme in feminine ideals came from the gown room

of Edol of Paris, France, and is an exact reproduction of the original Chantecler model, which created such a sensation in Paris this season. During the performance of this musical hit, Bonita will also introduce a number of French, English and American gowns.

If a man isn't quite sure whether he's in love with a girl or not, let him marry her and he will soon find out.
