

A Priceless Jewel

Jewels differ in value according to size, brilliancy, perfection and rarity. But one jewel upon which none of these things depend for value is the eye.

Come see us once in a while and let us tell you if you are affected by eyestrain, weak muscles, astigmatism or anything else that needs correcting.

We Fit Glasses Properly

Aid your sight and only charge little for such service.

BRIDGE PROPOSED AT UMATILLA CITY

WILL IN ALL PROBABILITY BE CONSTRUCTED SOON

Will Span Umatilla River Beyond O. R. & N. Bridge—Census Man Has Missed Good Many—Cleanup Day Ordered—Big Dance Soon—Other Notes.

(Special Correspondence.) Umatilla, May 5.—Messrs. Duncan, Brownell and Switzer were looking over the proposed site for the new bridge that will soon be built over the Umatilla river. In all probability the bridge will be completed this summer. It will be a wooden structure with three concrete piers. The bridge will be located about a quarter of a mile beyond the O. R. & N. bridge and when completed will mean a big thing to the people of that part of Umatilla county and will help Umatilla city greatly.

The census man paid a visit to the city this week. It is a well known fact that at least 30 to 50 persons missed the "eagle" eye of the enumerator. Yet he may call again.

Twenty-five laborers sent by Portland parties, have arrived today to work in the sand and gravel pits here. The young ladies of the city propose giving a dance to the bachelors in Pointer's hall Friday evening. The Echo orchestra will be in attendance and the ladies propose making it the event of the season.

The council has ordered a cleanup day for the city. It is to be hoped that the council will look up a dumping ground where all the city refuse can be dumped as it is certainly disgraceful to have the streets and back yards piled up with all kinds of tin cans, etc. Besides being an eyesore it is dangerous from a sanitary standpoint and often brings an epidemic of typhoid fever.

Two river boats, the Inland and Twin City, discharged freight for interior points; also a number of horses for Hermiston parties.

The Umatilla nine will play Stanfield here Sunday.

W. Van Winkler paid a visit to Pendleton yesterday.

S. A. Sailor, city recorder, leaves in a few days to look over his property interests in the Alberta country. Mr. Sailor will be accompanied by his wife and he expects to be absent several weeks.

R. F. Bicknell of Pendleton, is a visitor here today; also F. C. Porter of the S. C. S. Portland.

L. Spoulo and J. A. McDonald, machinists of Spokane, have accepted positions with the O. R. & N.

Lion Fondles a Child.

In Pittsburg a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through colds, croup and whooping cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for coughs, colds, la grippe, asthma, hemorrhages, weak lungs, 50c, \$1.00. Trial bottle free. Guaranteed by Tallman & Co.

Ladies and Gentlemen!

Bring me your shoes and oxford that need repairing. Soles sewed to ladies shoes 65c, and gentlemen's shoes 90c per pair. My latest modern machinery insures you better work. A. EKLUND.

City Cab Service Improved.

Liquid Foot Ease

Relieves tired, aching and sweaty feet. Happiness for every one at 25c a bottle. First Class Drug Stores.

BRIEF NEWS ITEMS FROM HERMISTON

NORTH DAKOTAN BUYS HOME ON THE PROJECT

Will Move Family Out—Break in Lateral Does Not Inconvenience Water Users—Binger Hermann's Son Looks Over Project—Other Notes.

(Special Correspondence.) Hermiston, Ore., May 5.—Fred A. Chizick came in last night from North Dakota and today purchased a 20 acre tract north of town. He expects to go back after his machinery and household goods and at an early date will make Hermiston his future home. Last night there was a large break in "A" line lateral, but on account of it being above the by-pass it did not cause any inconvenience to water users. A large force of men and teams were put to work on it this morning and it will be but a day or so until they will have it fixed.

Robert Twohy went to Pendleton this morning. He has been here looking after the moving of machinery from Cold Springs reservoir. They are now in the city limits with the train, so it will be but a few days until they can commence loading and shipping to near Pendleton.

J. R. Hermann, son of Binger Hermann of Portland, has been here for the past few days and was shown over the project by Mr. Holland, manager of the Columbia Land Company's Hermiston office.

D. D. Lewis has been transacting business in the county seat for the past few days.

Henry M. Sommerer returned from Pendleton yesterday where he has been for the past few days.

William McCrary who recently purchased a twenty acre tract north of town is having lumber hauled out for a house and other buildings.

Rev. H. Pease and wife left this morning to take his new charge assigned him at Enterprise, Oregon. We dislike very much to see him leave here, but wish them success in their new field.

Frank Sloan came over from Stanfield yesterday with a party of "joy riders."

Carey Green came in last night from Echo where he has been for the past week.

THE EARTH IS ELASTIC, SAYS PROFESSOR MILNE

London.—That the earth is elastic, and is pulled out of shape by action of the tides, has been "discovered" by Professor Milne, the leading English authority on earth phenomena. As the result of experiments he has found that twice in every twenty-four hours, at high tide, the buildings along the opposite sides of tidal basins "salute each other."

The experiments were carried out at Bidston Observatory, near Liverpool, one and a half miles from the sea, with a modified form of seismograph designed to record tidal effects and the more minute movements which other seismographs would not or not often record. The instrument recorded, photographically, a tilt on the pillar supporting it, causing a definite deflection on the film.

At high tide the bed of the Irish sea became depressed from an increased load, and the effect of this was to pull the shores together. At Bidston the amount of deflection was about equal to one inch in sixteen miles.

Professor Milne many years ago showed that our ordinary apparently stable English valleys opened when the sun fell upon them and contracted during the night. He also showed that apparently the whole of the Isle of Wight tilts up at high tide owing to the English channel as compared with that in the Solent.

His latest work is the complement of earlier research and tends to show that the earth is a great deal more elastic and responsive to pulls and strains than is commonly appreciated.

Nature's Gift from the Sunny South

The Source of Cottolene Is Pleasing

From the snowy tufts of the cotton plant, the seed is removed, crushed, and the oil extracted. This in turn is refined by our own special process and the oil made odorless and neutral in taste.

Being a vegetable product, cottonseed oil is free from any possible taint of animal infection. You cannot be absolutely sure of this when buying hog lard, for fats of animal origin are, of necessity, not as healthful as fats obtained from vegetable sources. Right there is the difference between lard and Cottolene from the standpoint of health.

If every housewife would but stop to think of the difference in purity, cleanliness and healthfulness of hog lard and Cottolene, lard would never again be used in any home.

COTTOLENE is Guaranteed Your grocer is hereby authorized to not pleased, after having given Cottolene a fair test. refund your money in case you are

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Made only by THE N. K. FAIRBANK COMPANY

WEALTHY CHINK BUYS UP GROUP OF MINES

Grants Pass, Ore.—Moy Jin Munn, a wealthy Chinaman of San Francisco, who has been looking over the southern Oregon mining field for the past two or three weeks, has just closed a deal whereby he becomes owner and manager of the Brantner group of placer mines of southern Josephine county. The group of claims consists of 100 acres, much of which is very rich diggings. The consideration is \$75,000. Unlike other Chink who have mined in this section, Moy Jin Munn is not contented with sluice washing and rocking. He will install modern hydraulic equipment on the Brantner mines, and by a system of high line ditches, bring water from the Applegate river for the operation of a battery of two or more plants.

Moy Jin Munn is an experienced placer miner and made his fortune in the diggings of Feather river, Cal. He declares, however, that this country looks better to him than anything he has seen elsewhere and will concentrate his time and efforts toward making a big mine of his Applegate river property. He has placed a crew and begun the development of the mine, and expects to have it in shape for operation on a large scale by the arrival of the next placer season.

Shake off the grip of your old enemy, nasal catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender inflamed membranes. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be stopped when the causes that produce it are removed. Cleanliness, comfort and renewed health by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York.

"St. Elmo"

A particularly attractive theatrical offering is St. Elmo, which comes to the Oregon theatre Sunday evening, May 8. St. Elmo is dramatised from Augusta Evans Wilson's well known novel of that name. Perhaps the really remarkable thing about St. Elmo is that at some time or other every person has read it or heard its story told. No modern one of the six best sellers has ever enjoyed a similar popularity of this old-fashioned novel out of the years long since past. The heroine of this story, Edna Earl, can be classed as a most unusual young woman and certainly her prototype is not abroad today.

Gerda Nelson assumes this role and is a most acceptable "Edna." She conveys a proper impression of the sweetness and strength that is associated with this character.

The titular role of "St. Elmo Murray" is taken by Charles Gunn and his treatment of this character is an excellent bit of work.

In St. Elmo we have a heart story of the old South before the war. One of the dramatic sensations of the season.

Artistically staged and attractive from every view point.

State of Ohio, City of Toledo, Lucas County, ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every use of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

FRANK J. CHENEY, Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Big Fine for Old Woman.

Vienna.—An old woman living near the Bohemian-Saxon frontier has been condemned to pay a fine of \$210 or two months' imprisonment for bringing into Austria an old pack of cards which had been given to her for her grandchildren to play with, and which she failed to declare at the Austrian custom house.

SUPREME COURT HOLDS POKER IS UNLAWFUL

Olympia.—The supreme court has decided that it is a misdemeanor to play poker in the state of Washington. The test case was appealed from the superior court of Franklin county, which fined A. F. Smith, C. Griffiths, John Lewis and E. T. Allison of Pasco, \$50 each, for sitting in a game of poker. The men appealed to the supreme court on the ground that the state anti-gambling laws applied to proprietors and not to participants in the gambling games. The higher court sees no distinction, however, and holds that all games for money or the equivalent in chips, is a misdemeanor within the meaning of the law, and that the anti-gambling law is as much for the players as for the proprietors of gambling houses. The men will have to pay their \$50 fine.

WILL WATER MORE ACRES. New Dam to be Constructed Across

White Salmon River at Guler, Guler, Wash.—The White Salmon

Ditch company is making arrangements whereby the flow of water from the White Salmon river will be increased in order that more irrigation of lands in this vicinity may be done.

A dam will be constructed across the White Salmon river about three miles above Guler, and a large ditch will be made to carry the water. The headgate will be made at the dam.

The ditch company has had an irrigation system in operation for several years, but the high water during last winter damaged the dam to such an extent that it has been decided to construct a better one and to make wider and deeper ditches. The water from this ditch is free to settlers, but they will assist in constructing the system.

A CLEAR BRAIN and healthy body are essential for success. Business men, eachers, students, housewives, and other workers say Hood's Sarsaparilla gives them appetite and strength, and raises their work seem easy. It overcomes that tired feeling.

Peat will be the only fuel used in a great German electric power generating station.
