

WEATHER REPORT

Fair tonight and probably Tuesday.

Calling cards, wedding stationery, commercial stationery and job printing to order at the East Oregonian.

COUNTY OFFICIAL PAPER.

CITY OFFICIAL PAPER.

VOL. 23.

PENDLETON, OREGON, MONDAY, MAY 9, 1910.

NO 6897

GEORGE V IS CROWNED KING

New Monarch of England Goes Through Official Ceremony This Morning.

FUNERAL ARRANGEMENTS FOR DEAD KING COMPLETED

Coronation of New Potentate Attended by all of Pomp of Medieval Times—Lord Escher Will Have Charge of Funeral of Edward VII—Body Now Lies in Room in Which Life Departed—Will be Taken to Windsor Where it Will Lie in State For Three Days.

London, May 10.—King George was formally proclaimed king at nine this morning. All the pomp of the medieval ceremony was adhered to. It has been officially announced that Edward's funeral will be held at Windsor Castle May 29. The body lies in state three days preceding the funeral.

Tentative arrangements for King Edward's funeral were completed today. Lord Escher, deputy governor of Windsor Castle who had charge of Queen Victoria's funeral and also Edward's coronation, will superintend the obsequies. The body will be conveyed from Buckingham palace in a gun carriage to the railroad station where it will be shipped by special train to Windsor. The royal coffin will probably be draped with the English flag, while on the casket will be his crown, robes and scepter. The king, queen, and queen mother, will follow the funeral train in a carriage. At Windsor the body will be carried to Albert Memorial chapel, and in the course of the public ceremonies, the body is to lie in the state throne room at Windsor for three days. The body now lies in the bed chamber where he died. He appears to be sleeping as his face shows little trace of suffering. His body is clothed in the red silk robe worn when he passed away. His hands are clasped over his breast. The coffin was hewed from a freshly cut oak tree in the royal preserves near Windsor.

DR. HYDE'S WIFE TAKES STAND FOR DEFENSE

Kansas City, May 9.—The wife of Dr. Hyde went upon the witness stand today in her husband's trial. Mrs. Hyde told of their courtship and marriage which she said resulted in an enmity between them. It is understood Hyde is to follow her on the stand. The woman wept while she described the death of Colonel Hunton whom it is alleged Hyde poisoned because Hunton was named as the prospective executor of the estate of Colonel Swope and thus is alleged to have stood in the way of Hyde's plans. She denied Dr. Twyman had warned Hyde not to draw too much blood from Hunton. She declared Twyman held the strings which controlled the blood flow. Regarding the eight cases of typhoid fever in the Swope family, she said Hyde had warned Swope a year previous not to drink water from the mains on the Swope premises.

Oregon Electric Kills Man.

Portland, May 9.—The head nearly severed, a man, believed to be U. R. Thurston, a mechanic, was killed today by the Oregon Electric at the corner of Montgomery and Water streets. He is believed to be from Ottawa, Ohio and is aged about 50.

NONAGENARIAN COMES WEST TO GROW UP WITH COUNTRY

It is not often that a man who has reached his ninety-seventh year will "come west to grow up with the country." Yet that is what Peter S. Morrison has done and he seems to be doing well at it. Mr. Morrison now lives at Powell, Wyoming, in the Big Horn valley and he is in Pendleton today while on a trip through the coast states of the northwest. "I had been all over the rest of the United States and I wanted to see the Pacific Northwest," he explained this morning. He was born on the sea while his parents were en route from Scotland to America. That was in 1813, while this country was at war with Great Britain. Under the circumstances he could not take part in that war, but he did participate in the Mexican war and in the civil war. In the Mexican war he was wounded at Monterey and upon his forehead there is a long scar made by a Mexican lance.

EARTHQUAKE CLAIMS TOTAL OF 2500 VICTIMS

San Jose, May 9.—Advices today from Cartago say 990 of the earthquake's victims have been removed from the wreckage. It is estimated the deaths will total 2500. Fully 1,000 are dead in Paraso. Other towns have been damaged. Heavy rains are falling, making the suffering worse, and impeding the work of the rescuers. Only a few shelters have been provided for the five thousand homeless.

ROOSEVELT SUFFERS FROM SORE THROAT

WILL HAVE TO CURTAIL SPEECHES FOR THREE DAYS

Too Much Talk Has Inflamed Throat of Strenuous One—Kaiser Will Not Entertain Him Owing to Death of King Edward.

Stockholm, May 9.—Colonel Roosevelt left for Berlin this morning. His throat is raw and will be inflamed for several days making it necessary for him to curtail or omit from his program a number of speeches. The colonel is confident that three days rest will strengthen his voice. A specialist says the trouble is not serious.

Owing to the death of King Edward the Kaiser will not entertain Roosevelt. He will be entertained by American Ambassador Hill.

Roosevelt Big Noise

Chicago, Ill., May 9.—Lieutenant Ernest Shackleton the explorer is here today and said: "Roosevelt is a most extraordinary man, but—well he is what we would call a big noise, don't you know."

SENATOR LORIMER SAYS HE WILL NOT RESIGN

Chicago, May 9.—Although Senator Lorimer says he has no intention of resigning, it is believed he will temporarily relinquish his seat and demand that the senate investigate his election.

The grand jury at Springfield began its second week's probing into the election today and it is predicted that additional indictments will be returned against certain state legislators whom it is alleged were bribed. Speculation is rife as to who would resign. It is generally believed that Governor Deneen favors former Senator Hopkins.

Indians Secure Firewater.

That the Indians on the reservation have discovered a new source of firewater seems apparent from the fact that several of the braves have been arrested during the past few days. Charles Bomson, brother of the famous Walter who is now in jail on a charge of horsestealing, was given five days in jail for riding his horse on the sidewalk, while Jim Badroads, John Walslate, Peter Kux, Ed Chapman and Big Jim were each sentenced to pay a fine of \$5 or serve three days in jail.

Two More Committeemen.

W. E. Brock and Clarence Bishop have been named by President Thompson of the Commercial association to work with the committee that was named last Friday to take up the proposition of securing an endowment for Pendleton academy. The other members of the committee are Judge S. A. Lowell, Leon Cohen and Mayor Murphy. This committee is now cooperating with the trustees of the academy in laying plans for obtaining an endowment for the school.

FIFTEEN KILLED MANY INJURED

Explosion Wrecks Power Plant Near Hull in Quebec, Canada.

BALL GAME IN PROGRESS NEAR SCENE OF DISASTER

Crowd Sees Fire Break Out and While Watching It Terrible Explosion Occurs, Killing Fifteen and Mangling Others—Country Around Is Devastated—Windows Broken Miles Away—Loss Is Over \$100,000.

Ottawa, Ont., May 9.—Fifteen dead and twenty injured in the General Explosives Gunpowder plant ruins. It is estimated that a loss of a hundred thousand dollars will result from the magazine explosion last night. Earl Grey was slightly injured at his home here by the explosion which occurred at Hull, four miles distant. Buildings for a radius of a mile had windows broken and many small structures were demolished. A large crowd was near the plant watching a baseball game, when fire was discovered in the plant. People were warned away only a moment before two tremendous detonations occurred, which stunned scores and killed fifteen men.

The scene where the crowd from the ball game stood resembles a battlefield. Headless, armless and legless bodies were lying about among scores of unconscious forms. The silence that followed the final death dealing blast was more terrifying than the cries and moans which came with a return to consciousness of the badly injured.

The terrific shock brought thousands of terror-stricken people into the streets of Hull. Some thought it was an earthquake, while others cried out that the comet had struck the earth. Hundreds of chimneys were toppled over and there is scarcely a whole window left in the northeastern section of the city.

JEALOUS HUSBAND SHOOTS MAN WALKING WITH WIFE

Seattle, May 9.—Ethel A. Morrison, shot and seriously wounded by Luke Miley yesterday when Miley found him walking on the streets with his wife and 6 year old boy, has even chances for recovery according to the doctors today. Miley leaped from a street car, drew a gun and shot Morrison. He was crossing his son when the police arrived. "I'm the man who did the shooting," said Miley. "It was little Donald's sixth birthday, and I planned to take him street car riding. I was going to his mother's when I saw them coming down the street." Mrs. Miley sued for divorce two years ago and lost her case. Since then they have lived apart.

FRISCO PEOPLE RISE AGAINST ALLEGED "RULE OF VICE"

San Francisco, May 9.—Charges of a packed meeting and similar recriminations are being hurled today by many who attended the mass meeting to protest against the "rule of vice" which is alleged to be guiding the course of San Francisco. Two thousand women and half as many men gathered to protest against McCarthy's administration, and the police twice suppressed disorders resulting from the refusal of the president to recognize persons who wanted to speak. The mention of McCarthy's name started evenly divided cheers and hisses. They voted yes to a resolution calling for a removal of the present board of police commissioners.

DAYLIGHT BILL GAINING.

Business Houses Adopt Method and Admiralty Falls in Line. London.—Though the people of many lands have laughed at the daylight saving bill, framed to make the nation get up early and get through its work in the sunshine, the movement is gaining ground. Parliament has held up the bill time and again. But commercial initiative is getting ahead of the politicians.

With the advent of May several business firms in London and the provinces have voluntarily put in operation the provisions of the bill. Some of the government departments, too, have adopted it. The admiralty, for example, has agreed to allow its whole clerical force to start work at an earlier hour so that it may get off an hour sooner.

The postoffice has agreed to the same course in those departments where the staff has expressed any desire. William Willett, the author of the scheme, declares that 200 members of the present house of commons are pledged to vote in favor of it. That is not much practical use, though, in the delicate health of the present parliament.

CONFERENCE MAY BE HELD

S. F. Wilson Invites Peace Advocates to Hold Session in Athena.

ATHENA PEOPLE READY TO FIGHT TO FINISH

Wilson Would Scorn Judgeship in New County—Influence Not for Sale—Athena Still Included in Proposed County and Line Has Been Extended Southward Closer to Adams.

J. P. Neal and S. D. Peterson, emissaries from the county division camp at Milton, have been here today supposedly in the interests of "Orchard" county. While here they have talked over the subject of a conference with local people, but thus far no announcement regarding any such a meeting has been made. It is understood the Milton-Freewater people are willing to hold such a conference if desired by the people of Pendleton, Albina and Weston.

In a phone interview with the East Oregonian today S. F. Wilson of Athena proposed the holding of such a conference in the city of Athena. If the people of those sections interested in the division fight see fit to call such a meeting for Athena, Mr. Wilson says the people of that place will be glad to entertain the conference.

Wilson Is Opposed.

In discussing the subject today, Mr. Wilson, who is one of the most influential men in the Athena country, declared his firm opposition to division. "If the Milton and Freewater people want to leave the county, then let them take a little corner of the county and go," says Mr. Wilson. But we do not want them to have any of the territory south of the Dry creek ridge. I believe I know the sentiment of Athena people pretty well and I am sure that it is entirely against division. We do not want it and we will not stand for it. We are ready to fight this matter to the finish."

Officers Don't Tempt.

During the past 24 hours a report has been in circulation that the divisionists have a plan to win the affections of Athena and Weston people by offering residents of those towns the official positions to be created if the new county succeeds. It is on the slate, so it is reported, to make S. F. Wilson county judge, H. I. Watts, school superintendent and to distribute the remaining offices among other residents of Weston and Athena.

Over the phone today Mr. Wilson declared no overtures of such a nature had been made by the divisionists and laughed at the idea. Then he said:

"Our influence is not for sale upon such a basis as that and it would do them no good to try such a scheme." It is now understood that instead of changing the boundary lines of "Orchard" county so as to leave Athena in Umatilla county the line has been extended farther southward so as to take in more territory than was originally intended. When the local junketing party was at Milton Wednesday it was stated by leaders in the division move that Athena was to be left out of the proposed new county. Evidently this plan has been changed.

YOUNG WOMEN OF ROSEBURG DROWNED IN THE UMPQUA

Roseburg, May 9.—Two prominent young women of this city were drowned in the North Umpqua river at midnight at Winchester when their boat was overturned. They are Mrs. Alice Vial, Miss Hattie Smith. They were rowing above the dam with Lloyd Atterbury, and Clarence Cole. One became frightened and jumped to her feet. The boys reached the shore but the girls sank almost immediately. Drugging and dynamiting is being done today to recover the bodies.

TAPT'S SECRET SERVICE MEN ARE WORRIED

Washington, D. C., May 9.—Secret service men who are guarding the president are worried. This afternoon he will open 9 fairs in New York and then he crosses to the Jersey shore to motor to Passaic. Northern New Jersey is regarded as the headquarters in the United States for anarchists so extra precautions are taken.

WOMAN WILL BE TRIED THIRD TIME FOR CRIME

Tacoma, May 9.—Mrs. Martina Kaushang whose second trial for complicity in the murder of her husband ended in a disagreement, like the first, will be tried again in June according to District Attorney McMurtry. The jury was discharged yesterday after 24 hours' consideration. The two trials cost \$20,000.

HALLEY'S COMET WAS STAR OF BETHLEHEM

Webster City, Iowa, May 9.—St. Paul's Universalist church congregation believes Halley's comet and the star of Bethlehem are one and the same. Dr. Spicer from his pulpit last night made computations to prove his statement. He declared scientists believed Christ was born four years before his credited birth. The comet was due then.

WILLIAM P. TEMPLE CALLED BY DEATH

WELL KNOWN FARMER LIES DEAD AT HOME

Deceased Was One of Best Known and Most Successful Farmers in County—Death Due to Acute Entritis—Funeral Services Wednesday Afternoon.

William P. Temple, son of J. F. Temple of this city and one of the best known and successful farmers of Umatilla county, died at his home in Pendleton about 9 o'clock last night, after a brief illness. Death was the result of acute entritis.

The deceased was born in Mahaska county, Iowa, in 1862 and four years later his mother died. In 1883 he came to Oregon with his father and all of his life since that time has been spent in Umatilla county. April 29, 1888 he was united in marriage to Miss Rose Bixey and to them were born two children, Ethel and Ralph, both of whom are living and were at his bedside when he died. Mrs. Temple died March 15, 1896 and on October 28, 1896, he married Miss Ada Hann. Two children were born as the result of this union they being Roy and Vera, who were also at his bedside when he died.

William Temple was a self-made man in every sense of the word. Starting in life as a farm laborer at barely living wages, he succeeded through frugality, hard work and the application of practical methods, in amassing an estate which enabled him to spend the last few years of his life in ease and comfort. Though economy was his watchword throughout the years of his early struggles he was always generous wherever the cause was worthy. Devoted to his family he was beloved by all who knew him and his comparatively sudden and untimely death has caused a shock to the entire community. His demise is sincerely mourned by all who knew him.

The deceased was a member of the Masonic lodge and the order of the Eastern Star and a prominent worker in the Farmers Union. Two years ago he united with the Presbyterian church and has been an active member of that organization continuously since that time.

The funeral services will be conducted at the Presbyterian church Wednesday afternoon by his former pastor, Rev. W. L. Van Nuy of Mt. Hood, assisted by President W. H. Bleakney of the Pendleton Academy. The remains will be taken from the home to the church at 2 o'clock. Following the services at the church the remains will be taken in charge by the Masons who will conduct the services at the grave.

In addition to his wife and four children the deceased is survived by a father, six brothers and six sisters, as follows: Dr. I. U. Temple, Pendleton; John F. Temple, Jr., Pendleton; Ernest M. Temple, Pendleton; Grover C. Temple, Helix; George W. Temple, Folsom, Montana; Gilbert Temple, Pendleton; Mrs. R. W. Tuttle, Brant, Alberta; Mrs. Elta Simmons, Portland; Mrs. Alice Simmons, Helix; Mrs. Minnie Harvey, Pendleton; Mrs. Ben Morton, Pendleton; Mrs. Hattie Perkins, Pendleton. All but Mrs. Tuttle were at his bedside when he passed away.

LOCAL PEOPLE GET GLIMPSE OF FAMOUS HEAVENLY VISITOR

Halley's comet is now really visible to the naked eye, according to scores of Pendleton people who claim to be capable of telling a comet from a large star or a streak of aurora borealis. But according to the Pendleton observers of the astral body, there is nothing awe-inspiring about the spectacle and it will be necessary for it to do some rapid traveling if it succeeds in getting close enough to the earth to make anything like the big show which the scientists have been promising during the past several months. Among those who have seen the comet were E. W. Brown, of the high school faculty, George Hartman of the First National Bank, Ralph Howland, former local weather observer and scores of others.

MORE SCANDAL IS THREATENED

Senator Francis E. Warren Alleged to Have Fenced Many Acres of Public Land.

CHARGES FILED WITH GOVERNMENT COMMITTEE

A. S. Connolly of Cheyenne, Supposed to be Railroad Employee, Files Sensational Charges With Committee at Washington—Alleges 54,000 Acres of Public Lands Were Fenced By Warren—Says Hitchcock Knew of the Matter.

Washington, D. C., May 9.—Sensational charges were reported to be on file with the joint congressional and interior department committee against Senator Francis E. Warren by A. S. Connolly of Cheyenne, who is credited with being in the employ of several western railroads. In a bill of particulars Connolly alleged "the Warren Livestock company," of which Warren is president, fenced 54,000 acres of public lands in Colorado, which were to be awarded to Colorado for school lands. Connolly states the lands were fenced prior to 1904 and that complaints were made that year to Secretary Hitchcock, who detailed Special Land Agent Forbes to investigate the case. Later Forbes was transferred to another division and the matter was dropped. Connolly asks the committee to consider the charges against Warren.

DALLAS TRAIN CRASHES INTO BUGGY, YOUNG LADY DEAD

Dallas, Ore., May 9.—The coroner today held an inquest into the death of Miss Leighton of McMinnville, who was killed last night by a train. Miss Eunice Lewis of Newburg, was badly cut around the head. E. Whipple and J. Scully of Sheridan and both of the hurt girls had left the train at Hilderfield station near here to ride to Dallas with friends. They were crossing the track when the Dallas passenger crashed into the buggy hurling them all out. Miss Leighton's body was taken to the hospital at Dallas at midnight.

CONVENTION AT TUTTILLA MISSION IS CONCLUDED

The special services and convention on Methods of Work at the Tutilla Indian mission were concluded this morning after an early hour meeting and the visitors were transported to Pendleton to take the trains going north, east and west. Mrs. O. P. Messersmith of Portland and president of the Woman's North Pacific board of missions returned home on the noon train. Some Indian visitors returned to Yakima and the Nez Perce reservations. Two returned to the Ft. Hall reservations accompanied by Rev. James Hayes, Rev. William Wheeler and Mr. Luke Williams who will conduct a special mission there for several weeks.

The meetings at Tutilla, though a little different from the usual annual encampment have been very successful and much good has been done. The popular addresses by the different special speakers were standard along the different lines of church work and thanks are hereby extended to all friends who helped in the meetings in any way. J. M. C.

Infant Son Dies

The infant son of Mr. and Mrs. R. O. Eshburt of Cold Springs died last night at the home of J. T. Laing in this city. The funeral services will be conducted at the Methodist church tomorrow at 1 o'clock by the pastor, Rev. Nathan Evans.
