

PRICE FOR SPRING LAMBS DOWN 25c

BEST BRING \$7.75 IN STOCKDALE YARDS

Loss of 25c Is Shown in Price, But Sheep Are Unchanged at \$5.00—Best Hogs Are Still Selling at \$10.00

Portland Union Stockyards, May 10.—A reduction of 25c is shown today in the price of spring lambs, a sale having been made at \$7.75. This was for select quality that averaged about 60 pounds. There was no change in the sheep market in general, wethers being sold during the day at \$5.00, the same price as for recent transactions of like quality. Market for hogs is holding rather steady with \$10.00 obtained this morning for fancy quality that averaged 204 pounds. Some Willamette valley hogs sold at \$10.50, this being the highest market price for that grade in today's market. Run of hogs during the day was quite fair but demand is best. Cattle market shows the extreme top at \$8.25 for steers but at that figure trade shows a steady feeling. Heavy arrivals of cattle are due tomorrow from Merced, Cal. The shipment was unloaded at Roseburg today and leaves that place at 1 o'clock this afternoon. The trainload consists of 32 cars. Of this amount 26 cars are for one firm. Fifteen of these cars of steers have already been sold at \$8.25 here. Only one car of cows and stags is among the lot.

Among the Shippers.
Hogs—Simon Louder was in from Idaho Falls, Idaho, with three loads. Mixed stuff—R. A. Campbell had a load of cattle and hogs from Sheridan, Ore. Taylor & Cummings shipped a load of hogs and sheep from Halsey.
Sheep—John Shepard had a load from Grand Dalles, Wash., this morning.
Today's run of livestock compares with this day in recent years as follows:

1908 10
1907 140

THE WHEAT MARKET

LONGS STAMPEDE AND MAY IS 3 CENTS OFF

Liquidation Caused by Report That Duluth Was Sending Wheat for Shorts.

Chicago, May 10.—The report that 500,000 bushels of cash wheat was coming from Duluth to fill sales on the May option caused a stampede of longs to unload. Result was a decline of 3c a bushel at today's closing as compared with the close of yesterday.
May option started with a brisk upward swing with shorts inclined to cover in the early trading. While this was occurring the price advanced to \$1.15 5-8 or 1 5-8c a bushel higher than yesterday. The net decline for the day was therefore 4 5-8c.
Foreign markets were very weak, and this added fuel to the already bearish note. It is stated that Russian bankers are forcing wheat out of that country, thereby weakening the English trade.
Liverpool opened today with a loss of 7-8 to 1 1-4d and closed 3-4 to 1 1-8d under yesterday.
Foreign crop reports state that conditions in the United Kingdom and France are not so favorable for wheat but elsewhere in Europe the grain is showing good growth. European visible supply of wheat shows a decrease of 4,720,000 bushels.
Kansas City reported a poor demand for cash wheat and a loss of a cent a bushel is shown in the price there. Minneapolis cash wheat situation was steady today.
Bradstreet's report of grain visible supply:
Wheat—Decrease bushels
East of Rockies 2,041,000
Canada 637,000
Europe and afloat 4,800,000

FORTUNES IN RUBBER BOOM.
Lady Constance Richardson Makes Snug Sum Out of the Bounce.
London.—Many titled women made money in the rubber boom. Lady Olliphant, whose town house has been closed for some time, cleared \$350,000 and is now having the place repaired and decorated. Lady Constance Richardson is also reported to have made a snug sum. It will aid her if she really desires to start a boys' school. There is strong likelihood, however, of her going on another American tour and giving the most recent repertoire of dances. Her sister, the Countess of Cromarty, as well as her husband, is greatly displeased at her appearance in public, and the late King's refusal to have her appear at court almost caused a break-up in the family.
St. Petersburg.—The finest architectural monument in St. Petersburg is St. Isaac's cathedral, begun under Nicholas I in 1858. The architectural commission has now discovered that the cupola is cracked in several places, owing to the rottenness of the beams.
The center of the church will now be partitioned off, last pieces of the stucco work should fall during the service and produce a panic among the congregation which on great festivals numbers 16,000 persons.

Will Your Ad. Sell Goods? If after reading it over you can't answer "Yes" Write it over again

ADVERTISING TALK NO. 4.
It pays to advertise, but all advertising doesn't pay. Success in advertising is largely a question of selecting a subject which is most timely, of appealing to human interest.
A story is told about a Russian merchant who used his forthcoming marriage as a basis of his advertising one day and drew a patronage that resembled a run on a bank. His announcement, which was certainly original, read as follows:
"The reason why I have hitherto been able to sell my goods so much cheaper than anybody else is that I am a bachelor and do not need to make a profit for the maintenance of a wife and children.
"It is now my duty to inform the public that this advantage will shortly be withdrawn from them, as I am about to be married. They will do well, therefore, to make their purchases at once at the old rate."
The result was such a run of business that in a few days the shopkeeper had made enough money to pay the expenses of his wedding on a very lavish scale.
Get into the game like this fellow did. Hit the nail on the head. Put forth the most pertinent and interesting subject you can think of in connection with your business affairs in your advertising, and you will be sure to get returns.
Of course an advertisement as radical and ridiculous as that of the Russian merchant isn't advisable, but I am merely using it for illustration.

Some merchants think "People aren't interested in my affairs; if they want some of my goods they will come in and buy them." That is just where they are wrong.
The American public is a reading public, and it has developed a thirst for something new. It will be interested in your store and your goods if you tell about them in an enthusiastic and an interesting way.
An advertisement is nothing more nor less than a story. The most interesting stories in the paper—whether they appeal to one's sense of humor, to one's heart, to one's higher mentality or to one's pocketbook—are read aloud at the breakfast and the dinner table.
A great many advertisements are read aloud in the home. Do you suppose yours are? If not, now is the time to remedy the difficulty.
Whatever you do, be up-to-date. Americans love progress. Be like the hotelkeeper in a little village in Ohio, who changed the name of his hostelry, if you will.
A traveling man who had not visited the hamlet for several months, dropped in one day, and ejaculated with surprise:
"Why, when did you change the name of this hotel to the Taft house?"
"Right after we built on that big bay window," replied the proprietor.
This doing of things that are appropriate to the occasion is a mighty important thing.
Fortunately the idea of leaving an advertisement stand in a newspaper day after day and week after week without being changed is fast being tabooed.
To be up-to-date, to make your advertising read, it is necessary to change it frequently. And when you do change it, put something in it that is worth while.
After you have written an ad, ask yourself the question: "Will it sell goods?" If you can't answer yes, write it over again.
The newspaper manager likes to see you take pains with your advertising, because he knows if you do you will reap results. If your advertisement pulls more business, the newspaper will have demonstrated its worth. It will be of inestimable value to you, if you just make the proper use of it.
There is no better medium through which to reach the buying public than the newspaper which is circulated regularly in your city, but you must do your part in the campaign by keeping your advertisement filled with live, virile copy. Then you will begin to realize what advertising is really worth. You will make it pay.

CROWDS PRAY AS PRIEST ADMINISTERS LAST RITES
Louisville, Ky.—While more than a thousand people looked on, some cheering and others kneeling in prayer the Rev. Charles Raffo was lifted eighty feet through the air by means of rope ladders to the fifth floor of an incomplete elevator to administer the last rites of the church to Martin Wiggenton, who was dying on the concrete floor.
Wiggenton, a young iron worker, while on the eighth floor lost his balance and fell to the fifth floor. The alarm was given and a hook and ladder company responded. Wiggenton realizing that he was dying, called for a priest. Father Raffo was found and hurried to the scene. When it was seen that Wiggenton could not be gotten down alive, the priest asked that he be raised to him.
LAST VESPUCCI IS DEAD.
Countess Tahon Traced Her Descent From the Great Navigator.
Rome.—Countess Tahon, who has died at Florence, was the last of the Vespucci family. She traced her descent from the great navigator Amerigo Vespucci, for whom the continent of America was named. The Countess herself was prominent in the Italian freedom movement under Garibaldi fifty years ago, and was an intimate friend of Mazzini. Her husband was a colonel in the French army and was wounded in the Crimean war. For many years the Countess had lived in retirement.
