FARMERS' UNION HAS NO ALLIANCE WITH LABOR UNIONS

That the Farmers' Educational and Cooperative union entered into no political alliance during the St. Louis convention is the statement of H. D. G. Cox of Walla Walla.

Mr. Cox, who went to the convention as a representative of the unions of Washington, south of the Snake river, arrived here Wednesday on his return from the convention, and was a visitor to the editorial rooms of the Chronicle.

"We entered into no alliance whatever," sail Mr. Cox. "We decided to cooperate with the labor unions, but this must not be taken as an action to amalgamate with them or to enter into a political alliance."

Mr. Cox made extensive observations regarding the condition of the wheat crop during his trip. He places the estimates on the Kansas crop by Alta St., Phone Main 169 counties as follows: Salem, 50 per

cent; Sumner, 50 per cent; Rone, 75 per cent; Harper, 60 per cent; Pratt.

In the southeastern section wheat is poor, the southwestern fair. These are six of the best countles in Kansas. About 25 per cent of the fall wheat is plowed up. Nebraska is very poor, not over 60 per cent. Oklahoma is very good, about 85 per cent. Texas

about 80 per cent. In Texas and Oklahoma they grow about one-fifth of what they consume. Missouri has about 50 per cent of a crop. Illinois about 55 per cent. This is all in comparison with last year's crop at this season-Spokane CShronicle,

SPANISH AERONAUT WOULD FLY ACROSS THE ATLANTIC

Madrid, May 14 .- To fly across the Atlantic, following the route taken by Columbus on his first voyage of discovery, is the daring feat which will soon be attempted by Dr. Gans-Fabrice, a Spanish aeronaut. His big airship is now almost ready and it is expected that trial trips will be made

The balloon is elliptical in shape, 162 feet long and forty-nine feet broad, and contains 6000 cubic metres of hydrogen. The nacelle takes the form of a gondola, shaped like a sub-R. R. Lewis came up from his marine boat, twenty-eight feet long, seven feet broad, fitted with a four horse power motor. This engine will be used only to keep the balloon in the course of the African trade winds, the aeronaut's idea being to make the voyage entirely without mechanical propulsion by keeping within the air currents, which took Christopher Coumbus on his voyage of discovery.

To obviate all danger that might arise from the expansion of the gas under the influence of changes of temperature, the balloon has two envelopes getween which an air current constantly circulates. Water is to b used as a ballast.

PORTLAND LAWYERS FAVOR NON-PARTISAN JUDICIARY

Portland, May 14.-Lawyers of Multnomah county are after a nonpartisan judiciary. They would have non-partisan candidates for the supreme court and at the meeting of the association held at the courthouse last night resolutions were adopted unanimously favoring such action. These resolutions will be presented to the state association at its meeting May 17, when it is expected that the organization will adopt them and begin work for the elimination of politics

from judicial office in Oregon. When the state association meets the matter of recommending a nonpartisan election of judges for the circuit courts as well as the supreme court will be discussed, and it is believed that the state association will recommend to the members of the bar of each judicial district in the state that politics be eliminated in the election of circuit judges.
