Turner, who is now engaged in soliciting signatures in its favor, and of course with success, for the citizens of this section are in favor of all three of the state's normal schools to continue under the management and control of the state.

Beginning this coming Monday all of the merchants of Weston have agreed to close their stores at 6 o'clock each evening excepting Saturday. This program will likely be kept up until about harvest time when they will remain open later for the accommodation of the harvesters.

Ross Towery, brother of E. G. Towery, is one of the new arrivals with the view of locating somewhere in this section. Mr. Towery is from Newkirk, Okla.

AND THIS IN AMERICA.

Terrible Punishment of Soldier for a Slight Offense. Washington.—A remarkable statement by Representative Thomas (Dem., Ky.), in the house a few days ago led to the immediate adoption of a resolution to wipe out a charge of desertion standing against Joseph Dobson in the war department records.

"In 1875," said Thomas, "Dobson had served over 12 months in the regular army with a good record. He obtained a leave of absence, as he states in his affidavit, to go and see a girl of his acquaintance. He went to see the girl, and like many young men—and for that matter, old men, too—he got drunk. He started back, but got thirsty and went out into the foothills to look for some water, and he got lost and made his way finally back to his post. As the report of the adjutant general says, he was absent a part of one day beyond his leave of absence. He was arrested as the proof shows—and the recital of this case, Mr. Speaker, is more like a romance or the account of some Russian atrocity. He was arrested, carried to a blacksmith shop and irons put around his ankles, a heavy chain was attached to them and he was kept in that condition for three months, until the irons around his ankles had worn the flesh nearly to the bone before Dobson got the irons removed from his ankles. He was then tried by a court martial and sentenced to imprisonment for four years, and given a dishonorable discharge. After that the irons were put back on his ankles and he was sent back to prison, and remained, as I remember, something over a year, and appealed the case to the war department. The adjutant general in his report states that the punishment was unaccountably severe; that this man was absent from the post only a part of the day; and that there was lacking in his conduct that animus to show desertion. I am personally acquainted with Dobson. He had made a good soldier. There is nothing against his record. He is a good citizen, and this stain should be removed from his record. He has already had a pretty lengthy punishment for one little drunk. If other men got that severe character of punishment for one little drunk, I expect that there would be some more of them in prison."

CONSIGNMENT OF NEW YORK BABIES FOR NEW ORLEANS. Chicago.—A party of 60 "homeseekers" has arrived from New York en route to New Orleans. The "homeseekers" are infants ranging in age from three months to slightly more than a year old. They go to New Orleans to remedy a situation brought about through obvious oversight of the stork. It appears the visits of the stork have not been as frequent in New Orleans as is desirable. As a consequence, the city has discovered that it is in need of babies. New York, on the other hand, has discovered that it is in possession of more babies than is essential to her welfare.
