BEST SPRING TONIC

Every one should take a tonic in the Spring; our systems require it. The change in the seasons produces a like change in our bodies, and more is required of the blood, from which source we receive physical nourishment and strength, at this particular time than at any other

Almost every one feels bad in the Spring. Some have no particular sickness, but are debilitated, run-down and weak, and their systems are in a general state of disorder. This deranged condition of the health is due to weak, anaemic blood; the circulation is infected with impurities which have diminished its natural nourishing powers, and the body is suffering from deficient blood nutriment. The refuse and impurities which naturally accumulate in our systems are not properly expelled in Winter, because those members whose duty it is to perform this work of drainage do not receive sufficient stimulation rom outdoor exercise, and therefore grow dull and sluggish in their ection; nor is the skin as active in eliminating waste maters in cold veather because the pores are not so open as in warm seasons.

These Winter accumulations pollute the blood and largely destroy ts nutritive qualities, and when Spring comes, and everything takes in new life, and we change our method of living, the circulation is so veakened that it is unable to supply the increased demands of the ystem. Then we suffer from weakness, nervousness, loss of appetite, assitude, etc. There is a constant worn-out feeling, sleep is not efreshing, and we do not feel able to perform the ordinary duties of This disordered condition demands the use of a tonic, and t should be one which has the additional qualities of a first class blood purifier, for to restore health and strength the blood must be pure.

The healthful botanical ingredients of which S. S. S. is composed, and the method of combining and preparing them so that they build up and strengthen every portion of the body, make it the best of all Spring tonics. S. S. S. is Nature's medicine, free from strong mineral mixtures and made entirely of the healing, cleansing juices and extracts of oots, herbs and barks; a safe and pleasant tonic for persons of any age.

S. S. S. is not only the best Spring tonic, but its ability and worth is a genuine blood purifier is iniversally recognized. It builds p the depleted system in the true ay, by purifying the blood and applying an increased amount of ourishment to every portion of he body. S. S. S. removes all ecumulations from the circulaion, enriches and purifies the lood and overcomes the unpleasint physical ailments that always come with Spring. It rids the body of that tired feeling, improves the appetite, reinvigorates every fibre and tissue of the body, and imparts healthful energy to ill who are run-down. The body cannot be strong and well if the blood is weak or impure, and no-tonic should be used which does

I have used S.S.S. and found it to be an excellent blood purifier and tonic. My blood was weak and impure, and as a result my system impure, and as a result my system became very much run down and debilitated. I lost twenty or more pounds in weight, had no appetite and was in bad shape. Seeing S. S. S. advertised I began its use, and am well pleased with the results after using it for some little while. Prom 139 pounds to 165 is pretty good evidence of merit on the part of S. S. S., and as to my appetite, it is superb. My

PRETTY GOOD EVIDENCE.

to my appetite, it is superb. My system and general health have been wonderfully built up, and I do not hesitate to give S. S. S. the credit for it.

H. MARTIN. 50 Second St., Warren, O. not thoroughly cleanse the circulation. If you select S. S. S. as your tonic this Spring you will experience better results and more vigorous

health than ever before, because it will make your blood "just right." Insist on getting S. S. S., there is no other "just as good." THE SWIFT SPECIFIC CO., ATLANTA, GA.
