## SIX GIRLS PASS FROM ACADEMY

### ANNUAL COMMENCEMENT PROGRAM LAST NIGHT

Large Audience Listens to Orations of Graduates and Address of Col. J. H. Raley—Musical Numbers Excellent.

Before an audience of friends which filled the Presbyterian church to capacity, the six "sweet girl graduates" from the Pendleton academy, participated in the commencement program last evening and were presented with the sheepskin token of their school work. The program at the church was followed by the class supper and another annual commencement week of the Pendleton institution of learning had passed into history.

The class was an unusual one in that it was composed entirely of girls, the class day exercises Tuesday afternoon were out of the ordinary and the program last night was decidedly unique and interesting. It was an "Oregon program," the subject of each oration by the graduates having to do with the state.

Following the opening selection by the Treble Cleff club, Miss Leila Earl Norvell delivered her oration on "Oregon, a Land of Beauty." "Chief Joseph," the famous old warrior who helped to make the beautiful Willowa valley famous was the subject of the next oration, which was delivered by Miss Sadie Young.

"Mythical Oregon" was the subject of the oration by Miss Maud McReynolds, while Miss Annie Tullis spoke on "Oregon in Poetry and Song." Miss Edith Raley had taken for her subject, "Pendleton, Oregon," and Miss Edna Rogers discussed "The Oregon Home."

Two members of the class, Miss Edith Raley and Miss Margaret Tullis also participated in the musical part of the program by rendering piano solos. Miss Bernice Ruppe, lately returned from New York, delighted the audience with a vocal selection, while the concluding number of the program was Wilson's "Carmen," by the Treble Cleff club.

The annual address to the graduates was delivered by Col. J. H. Raley. The oration was able and interesting as well as eloquent.

### WHEAT CROP ENDANGERED.

Conditions in Whitman County Arouse Fear That Yield Will Be Under Average.

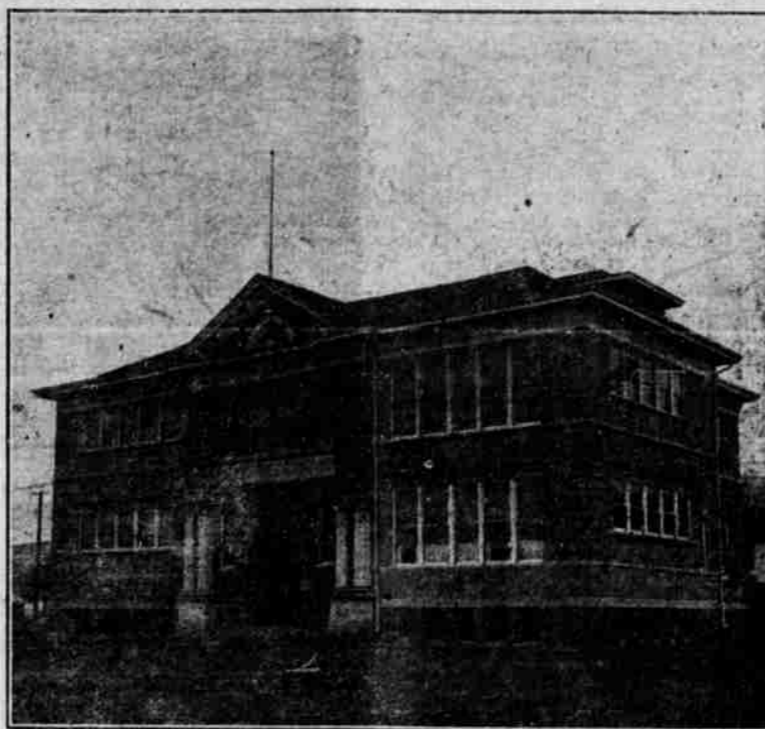

Colfax, Wash.—Wheat prospects in western Whitman county are not as promising as last year. R. M. Curtis and J. W. Splater, two extensive ranchers from Hay Station, say that the best looking wheat in that section seems to be that which has been farmed the least, giving as the reason that the well-tended fields packed and baked during heavy rains after the heavy snows of last winter, while the untended fields were left rough and did not pack.

Many parts of the county have not finished seeding. Heavy frosts have injured some fields, and many hilltops have winter killed. Spring grain will require best of conditions to make the average yield.

Many are confident that when the harvest is ready the unfavorable elements which appear each spring will have left and Whitman county will rank as usual as a banner wheat county.

## WEDDING IN HERMISTON

MISS BERTHA WHITING MARRIES WALTER BARMORE

Leave for Portland on Honeymoon—Old Time Basket Social—First New Potatoes Appear in Market—Short Notes.

(Special Correspondence.)

Hermiston, Ore., May 26.—On May 24 at the home of Mr. and Mrs. F. Whiting their daughter Bertha Whiting and Walter E. Barmore were united in marriage. The ceremony took place at 10 o'clock in the morning in the presence of a few close friends. The bride and groom left immediately afterward for Umatilla where they took number seven for Portland, and after a short stay there they will return to Hermiston to make it their future home. They are both well known here and all join in wishing their happiness and success.

Last night at Newport-Skinner hall the members of the Christian Endeavor gave an old-time basket social. Most all the young people in and around Hermiston was present and every one had a good old fashioned time.

The first new potatoes of the season grown in this part of the country appeared on the Hermiston market yesterday. They were of nice size and were grown by Thomas Haddock on his ranch near the Cold Springs reservoir. They are products of new land, as Mr. Haddock only commenced work on his place this spring. Hermiston will in a very few years become noted for its early fruits and vegetables.

Last night Addie Smith came in from Catalda, Idaho, where she has been teaching school for the past year. She has a ten acre tract near town and will look after improvement work on it.

W. Hardy and son of Tacoma, Wash., has been here for some time helping load and move the machinery from Cold Springs dam, and have had a chance to see what people are doing on the land around Hermiston, have about decided to take a tract of land and grow fruit and alfalfa.

Jay Pulmuder came down this morning from Stanfield to look after the interests of the telephone company.

Robert R. Lewis has returned from a few days' trip to Portland where he has been transacting business. Quite a number of Hermiston people are planning to take in the rose carnival at Portland next week.

### RESCUE STARVING MEN FROM LOG IN OCEAN

Seattle, Wash.—Clinging to a log raft for 36 hours in the middle of San Juan straits, and half crazed by cold and hunger, Hans Larsen and Oliver Jensen, loggers for Richardson, were picked up last Wednesday night by the halibut schooner Standard Fish company No. 2.

The schooner arrived in port last night and the captain told the story of the rescue today. In rescuing the two men, the dory in which the crew was lowered was stove in by the great log to which the loggers were clinging and only quick work by Captain Nelson with life line saved the crew as well as the castaways.

A stiff gale was blowing Wednesday night and the sea was running

high in the straits. Captain Nelson, who was at the wheel, heard a cry and made out a dark object on the water. The crew was lowered in a dory and made for the spot. A great wave hurled the log into the little boat and the captain heard the crash. He steered the schooner within a few feet of the sinking dory and got a line to the men.

The two loggers were taken to Port Angeles the next day, where they were sent to a hospital, weak from exposure and from the effects of drinking ocean water.

Last Tuesday morning they attempted to cross a small bay on Lopez island on a carelessly improvised raft of logs. The wind which sprung up pulled them out to sea, and as the water roughened the raft began going to pieces until only one log was left.

is an absolutely pure distillation of malted grain. When taken at meal-time it stimulates the mucous surfaces and little glands of the stomach to a healthy action, thereby improving the digestion and assimilation of the food and giving to the system its full proportion of nourishment. This action upon the digestive process is of great importance, as it brings to all the tissues and organs of the body the nutriment necessary to their sustenance and indirectly to the whole system strength and vigor. It makes the old feel young and keeps the young strong and vigorous.
