

SHEEP MARKET IS SHOWING FIRMLINE

PRESENT MARKET PRICES MAINTAINED BY BUYERS

Sales Are Made Easier at Former Level—Cattle Steady—Hogs Are Selling at \$10.35 for Good Quality.

Portland Union Stockyards, North Portland, Ore., May 26.—Sheep market showed a steeper feeling today and values were quite well maintained.

While killers retain quite liberal supplies of sheep, they are not averse to buying and paying the present market, providing shipments do not come so fast that everyone will be overstocked.

While loads of cattle came in from California this morning and found a good demand around former figures. Nebraska shipped eight loads of hogs into the local territory today, the shipment being direct to the Union Meat company, and therefore did not enter the market.

Among the Shippers. Henline & Ohlinger brought forward eight loads of swine from Nebraska. W. L. Dishman had eight loads of cattle from Roseville, Cal., on today's market.

George D. Burdick brought in 12 head of cattle and two head of calves for today's market.

J. Hood shipped 126 head of sheep by boat direct to the Union Stockyards.

Today's run of livestock compares with this day in recent years as follows:

Table with 3 columns: Year, Hogs, Cattle, Sheep. Rows for 1910, 1909, 1908, 1907, 1906, 1905.

A year ago today there was a firm tone in all lines of livestock, with no change in prices.

Sheep Industry Flattering.

The Lakeview Examiner says that the outlook for the sheep industry with the possible exception of the market, was never before so flattering in Lake county as at the present time.

The shearing season has been highly successful. The loss has been scarcely anything, and the increase has been simply wonderful, as high as 20 per cent of the ewes giving birth to twins. Owing to the excellence of range conditions it will be an easy matter for the twins to do well and make excellent growth.

Stock Inspector Proudfoot states that while there is some scab in his district, yet it is well under control, and conditions generally could not be better.

While the market is somewhat uncertain, yet at the same time conditions seem to be such as would warrant good prices in the very near future, although this is something no one can forecast.

Yards' Representative Prices. Following are official transactions. They represent demand, supplies and quality offering and are the only prices secured direct from sellers in this market:

Just Think! Not Even One-Tenth of Lard is Leaf Lard!

Here is what the leading lard packer says in a recent advertisement: "Leaf is the cream of lards. There is not enough of it to supply one-tenth of the people, and so it goes only to those who insist upon it."

Does it not stand to reason that if there is only enough of the proper fat produced to make pure leaf lard to supply one-tenth of the demand that the chances are ten to one against your getting pure lard? The only absolute protection against getting common hog fat when you buy lard is by buying Cottole instead. Cottole is a pure vegetable product—made from cotton seed oil, refined by our exclusive process.

It contains no hog fat and makes palatable, nourishing food which will agree with the most sensitive stomach.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given Cottole a fair test. Never Sold in Bulk Cottole is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

THE WHEAT MARKET NEWS NOTES AND PERSONALS OF WESTON

SEASON'S GREATEST LOSS SHOWN IN WHEAT

Big Leaders Arrayed Against Longs and Prices Take Dip.

Chicago, May 26.—Buyers turned sellers, and the result was that wheat prices dipped far below yesterday's prices today. May closed with a loss of 5 1-4c, July 4 1-4c and September 4 1-2c a bushel.

All the big leaders of the bull side, including Patten, were said to be arrayed against the longs today. Patten is said to have dumped an enormous amount of wheat overboard through other parties, and the liquidation was general. Almost a riot resulted.

The inability of the trade here to interest foreigners in the bull side is the chief cause of today's heavy liquidating movement, and the season's sharpest loss in price. While Liverpool opened at an advance of 1@1 1-8 all of this was subsequently lost, and in addition 3-8 to 5-8 of yesterday's price.

Cash markets at home were heavy losers, although the drop in Kansas City of 1c a bushel was not fully followed by other primary centers.

Broomhall estimates Argentine shipments: Wheat, 1,600,000 bushels; corn, 59,000 bushels.

TO SAVE TIMBER. Plan to Utilize Railroads in Campaign Against Fires.

Spokane, Wash.—Western Forestry and Conservation association, of which Albert L. Flewelling of Spokane, is president, has perfected a plan to utilize certain departments of the railroads operating in Washington, Oregon, California, Idaho and Montana in warning the people in the five states against carelessness with fires in the forests during the summer months.

E. T. Allen, forester of the association, made the foregoing announcement while in Spokane, and outlined the plan in brief as follows:

"Forest protection is of the utmost benefit to all our people, and we believe we can enlist their cooperation in this work. With that end in view all ticket envelopes, time-tables, folders and pamphlets describing mountains, lake and forest resorts for western distribution will contain suggestions as to how to avert camp and other fires, also means to be employed in combating the element.

Bookslets dealing with the same subject will be placed in observation cars and placards are to be posted in the waiting rooms of forest stations. The association will bear the extra expense occasioned by this work.

No agency has quicker and better means of reaching the public than the railroads, as almost everyone travels and reads railroad literature, and this step by the Western Forestry and Conservation association is taking the first attempt to utilize it for forest protection. Railroad officials are keenly interested in the plan, as the roads profit equally with the public in reducing the destruction of forest resources. The lumber industry not only furnished a large proportion of their traffic, but also brings into the northwestern and coast states more than \$150,000,000 a year, most of which goes into general circulation to build up business of all kinds.

Irrigation and power development depends much on forest regulation of stream flow. Tourist and resort travel is affected by destruction of scenic and game conditions by forest fires and every acre of timber or second growth destroyed means a money loss to the railroads as well as to the nation.

The new Queen Mary of England is different from the "Bloody" Mary of history. The world has become more tolerant in the meantime.

(Special Correspondence.) Weston, Ore., May 26.—Mr. Charles Stanfield and wife came in on this morning's train to spend a few days with friends and take in the pioneer's picnic.

Mr. Stanfield was formerly a resident of Weston and was prominent in the affairs of the city, being at one time a member of the city council and also chief of the fire department. He is now a resident of Cunningham, Wash., and engaged in the buying and shipping of grain at that point.

Hughie Walker is here from his wheat ranch in Wasco county, to attend the reunion, and to look after business interests.

John and George Ridenour, well known young men and old residents of Weston, are here to attend the pioneer's picnic and renew old friendships.

F. H. Emery, of Spokane, is here in the interest of the Northwestern Life Insurance Co., as representative agent.

The Misses Louisa and Matilda Schreder, of Pasco, are guests of friends in the city. They will remain during the picnic.

Dr. Archibald, who has about decided to remain here and engage in the practice of medicine, and who had practically purchased the clientele of our resident physician, Dr. Lazier, became somewhat homesick and decided to return to his home in Minnesota, and left on last night's train.

Evart King, son of Frank E. King, who has been sick for the past six weeks or more with typhoid fever, was out in an auto today for the first time during his illness. While slowly improving he is yet far from being in normal health.

Boys Will Be Boys and are always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. Don't neglect such things—they may result serious if you do. Apply Ballard's Snow Liniment according to directions right away and it will relieve the pain and heal the trouble. Price 25c, 50c and \$1. A. C. Koeppen & Bros.

In a speech in the senate on Hawaiian affairs, Senator Depeew of New York told this story: When Queen Liliuokalani was in England during the English queen's jubilee, she was received at Buckingham palace. In the course of the remarks that passed between the two queens, the one from the Sandwich island said that she had English blood in her veins.

"How so?" inquired Victoria. "My ancestors ate Captain Cook." Everybody's Magazine.
