

AN INTERESTING CONFESSION

"THE NEW IDEA."

We have a hobby. It concerns every man, woman and child in town. Our hobby is—but wait a moment. Suppose you are sick, or one of your family is sick. You consult the best physician you know of and he gives you a prescription. You have a right to take that prescription to any druggist, no matter whose name is printed on it. You have the same right to select your druggist that you do to select your doctor.

Particular people bring their prescriptions to us, because our hobby is prescription work. We take the same sort of pride in compounding every prescription the very best way that an artist takes in painting the very best picture he can; the same that the conscientious doctor takes in bringing his patients back to health.

We know drugs; we know where to buy the best. We get that kind. Appearances are deceptive. Two phonograph records look exactly alike, but the phonograph gets a \$1.000 Melba song from one and a ragtime two-step from the other. So, with drugs, the inferior look as good as the best.

Our hobby leads us to study each prescription to make it give the right results. There is no rule of thumb, no guessing—simply, accurate, scientific work done by men who know and love their profession. If there is any surer way than this we can't imagine what it is. And besides—

Any physician who knows us will tell you "we do things right." The best way for you to know is for you to bring your next prescription here where such work is not regarded as a druggery, or a necessary evil, or as a good chance to get a big price for something—but where it is a "hobby"—where it is looked upon as the most important service we can render to our fellow-man.

The price! We haven't said anything about the price. That won't bother you for a moment. We want all the prescription trade we can get. It would be foolish for us to charge too much. We can afford to charge a little too little, for the sake of building up a branch of our business in which we are very keenly interested. When you have a prescription, remember our hobby. Remember, too, that we will call for your prescription and deliver the medicine—phone us at any hour.

DAVE BONIFER HURT AT ATHENA

BADLY KICKED WHILE LOADING SOME HORSES

F. S. LeGrow Retires From First National Bank to Conduct Ranch in Montana—Many Athena People Attend Milton Picnic.

(Special Correspondence.)
Athena, Ore., June 4.—While loading a car of horses for Mr. LeGrow of this city, Dave Bonifer, a prominent rancher of this county, was very badly injured, being kicked in the mouth and face by a horse. A doctor was called immediately and it was with difficulty that Mr. Bonifer was restored to consciousness. Mr. Bonifer was crowding the horses up the chute when a horse whirled and kicked him in the mouth, cutting several gashes in which a few stitches had to be taken by the attending physician.

Mr. F. S. LeGrow, retired banker who was cashier but is now president of the First National bank of this city, is shipping today ten cars of horses and beef cattle to his ranch at Miles City, Montana. Mr. LeGrow has indulged in the cattle business for several years and has spent a great deal of his time taking care of his cattle interests around this country. Mr. LeGrow has been employed in the bank here as cashier for several years and desiring a different vocation he purchased a 140 acre ranch in Montana, where he can herd his cattle and horses more successfully. He resigned his position in the bank.

A large number of people, at least 400, went from here today to attend the Farmers' Picnic and Strawberry day at Milton, Oregon. As a large number of the farmers of the country tributary to this city are members of the Farmers' Union, they turned out in great numbers and the streets were kept hot since six o'clock this morning with automobiles, buggies, etc. The way to the "orchard city." There was an excursion train from Pendleton and when it passed through this city about 9:30 a. m. it took a great number of citizens anxious to be treated to a heaping dish of strawberries and cream. The train returned here at 7:45 p. m., and the expressions of all was that it was a big day.

Mr. Humbert and Mr. Sanderson, representatives of the Bible school at Eugene, Oregon, to which the ranch of P. E. Colbern was deeded over by him for the purpose of furthering its interests, arrived here today for the purpose of looking after the school's interests around this community. The school owns another piece of land over near Helix, and both farms being two of the best around this city, they make very valuable resources for the institution.

A Woman's Great Idea
is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys purify the blood; give strong nerves bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at Tallman & Co.

Notice to Water Consumers.
Hereafter all water rents must be paid at the superintendent's office in the city building before the 10th of each month. If not paid your supply will be turned off. In the future this order will be strictly adhered to.

The Important Problem

confronting anyone in need of a laxative is not a question of a single action only, but of permanently beneficial effects, which will follow proper efforts to live in a healthful way, with the assistance of Syrup of Figs and Elixir of Senna, whenever it is required, as it cleanses the system gently yet promptly, without irritation and will therefore always have the preference of all who wish the best of family laxatives.

The combination has the approval of physicians because it is known to be truly beneficial, and because it has given satisfaction to the millions of well-informed families who have used it for many years past.

To get its beneficial effects, always buy the genuine manufactured by the California Fig Syrup Co. only.

WESTON LOSES BY NEW MAIL SCHEDULE

DAILY PAPERS NOW ARRIVE DAY LATE

Pioneer Association Has 166 Members—Personal News of People Who Live in the Normal School Town.

(Special Correspondence.)
Weston, Ore., June 4.—In the taking off of the mail car on the trains Nos. 45 and 46 the people of Weston and vicinity are greatly inconvenienced in their receipt of their papers, the East Oregonian, as well as other daily papers. All of the daily papers will be one day late owing to this change and if it is intended to be permanent by the department the patrons should enter a protest. There are two rural routes out of the post-office at Weston and the weeklies will also be served to the patrons of these routes one day later; for instance the East Oregonian's semi-weekly which under the former system reached the Weston office on the evening of the same day of issue, while under the change of schedules, it will not reach the postoffice until the morning following its issue, and as the rural carriers leave to serve their routes before the morning train arrives, will not be able to deliver the paper until the following day, making the delivery two days after its issue. The same conditions will prevail with all other papers. Trains Nos. 6 and 5 pass through Weston at midnight and very early in the morning and all of the mail is carried by, neither taking nor leaving any mail. It is hoped that some steps will be taken to better this condition. The spirit of the times is progressive and not retrogressive, the latter is the condition prevailing under the new schedules.

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no druggery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

While the late frosts hurt the strawberry crop on the mountain and has resulted in shortening the crop there will be some of these fine berries on the market notwithstanding.
