

# AN INTERESTING CONFESSION

**"THE NEW IDEA."**  
We have a hobby.  
It concerns every man, woman and child in town.  
Our hobby is—but wait a moment. Suppose you are sick, or one of your family is sick. You consult the best physician you know of and he gives you a prescription.  
You have a right to take that prescription to any druggist, no matter whose name is printed on it. You have the same right to select your druggist that you do to select your doctor.  
Particular people bring their prescriptions to us because our hobby is prescription work.  
We take the same sort of pride in compounding every prescription the very best way that an artist takes in painting the very best picture he can; the same that the conscientious doctor takes in bringing his patients back to health.  
We know drugs; we know where to buy the best. We get that kind. Appearances are deceptive. Two phonograph records look exactly alike, but the phonograph gets a \$1-000 Melba song from one and a ragtime two-step from the other. So, with drugs, the inferior look as good as the best.  
Our hobby leads us to study each prescription to make it give the right results. There is no rule of thumb, no guessing—simply, accurate, scientific work done by men who know and love their profession. If there is any surer way than this we can't imagine what it is. And besides—  
Any physician who knows us will tell you "we do things right." The best way for you to know is for you to bring your next prescription here where such work is not regarded as a druggery, or a necessary evil, or as a good chance to get a big price for something—but where it is a "hobby"—where it is looked upon as the most important service we can render to our fellow-man.  
The price! We haven't said anything about the price. That won't bother you for a moment. We want all the prescription trade we can get. It would be foolish for us to charge too much. We can afford to charge a little too little, for the sake of building up a branch of our business in which we are very keenly interested.  
When you have a prescription, remember our hobby. Remember, too, that we will call for your prescription and deliver the medicine—phone us at any hour.

# WESTON PUTS STOP TO SPEEDING AUTOS

### COUNCIL PASSES A PROHIBITORY ORDINANCE

Makes it Misdemeanor for Drivers of Machines to Exceed Speed of 12 Miles an Hour—Other Short News Items.

(Special Correspondence.)  
Weston, Ore., June 8.—So reckless has the speeding of automobiles through the streets of Weston become endangering life and frightening horses, that the council has been compelled to pass an ordinance for protection. The speed of all machines propelled by other than horse power, according to the terms of the ordinance, cannot exceed the limit in speed through the city streets of twelve miles per hour, and not exceeding six miles per hour over the crossings of any street. For the violation of this ordinance a fine of twenty-five dollars as the minimum cost will be assessed. Arrests will surely follow any violation of this ordinance.

H. B. Lee, one of the county commissioners, called on a few of his many friends of Weston this morning while on his way to visit his daughter, Mrs. S. S. Bannister.

Ira Kemp, cashier of the Weston bank is at the county seat today attending to business matters.

J. R. English contemplates the taking of the position of surveyor in the government possessions in the Philippines, and is now preparing his application papers.

Frank Ely after a few days visit, leaving his mother, left this morning for Portland where he expects to take an examination for post office clerkship under the civil service. The examinations for applications for clerkships and several other positions under the commission occurs during this month.

A very light shower fell here late yesterday evening, not sufficient to lay the dust nor to do much for the growing crops. Though a good rain would be welcomed by the farmers the grain at present in this immediate section is not suffering for moisture.

Mrs. A. J. McIntyre and little ones were among the Weston lady shoppers this evening.

**A Woman's Great Idea**  
is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys; purify the blood; give strong nerves; bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at Tallman & Co.

### PRAISE FOR BAND THAT APPEARS SATURDAY

Of the Liberati band, which is to be here Saturday evening, the Omaha World Herald recently said:

After hearing the excellent concert given Saturday afternoon and Saturday evening at the Boyd theatre by the famous Liberati band any music lover of discriminating taste could not fail to observe that the organization retains all of the qualities which have gained for it so high a place in popular favor. It is scarcely worth while to comment upon the subdued effects, the delicate and appealing sweetness of instrumentation which has been brought to such a degree of perfection by Sig. Liberati, for these things are commonly understood; there are, however, several features of his Omaha engagement which deserve special mention.

One of them was the duet for French horn and flute, the Titi Serenade as interpreted by August Pfifer, flute and R. Srbecky, horn with a band accompaniment. Two instruments were never wedded in more exquisite harmony than those; never was there a more mystical loveliness of tone of expression. Surely wind instruments have nothing better to give in the entire range of musical expression than that selection interpreted as it was by absolute artists. Of course, it is a well known fact that as a cornetist Sig. Liberati is the supreme wizard, and the evening audience more than the one of the afternoon, had opportunity of enjoying his consummate artistry in the playing of that instrument. Both by a march of his own composition and in a solo also of his own composition, he demonstrated that he has lost none of the cunning which has made him famous.

### COMMERCIAL TRAVELERS MEET IN MANY CITIES

Springfield, Mass., June 9.—New England members of the United Commercial Travelers of America assembled here today for a rousing convention which will continue three days. Councils of the order in all the larger cities of the six states have sent delegations and the visitors were given a warm welcome by the local branch, assisted by the business and commercial interests of the city.

Baltimore, Md., June 9.—Maryland, Virginia, West Virginia, Kentucky and the District of Columbia "drummers" are guests of Baltimore today at the opening of the Grand Council convention of the United Commercial Travelers. Mayor Mahool will welcome the delegates today. A steamer will take the traveling men to Annapolis tomorrow and on Saturday they will enjoy a crab feast on the shores of the bay.

St. Louis, June 9.—The Egyptian Hustlers, an organization of traveling men of southern Illinois, opened their 1910 convention in East St. Louis this morning with a "white suit" parade. Tomorrow the baseball players of the Egyptians will meet the merchants on the diamond. A great parade and pageant will take place tomorrow evening, and a floral automobile parade on Saturday.

New York, June 9.—Manhattan Beach is today the Mecca of hundreds of traveling salesmen, the advance guard of the immense assemblage of "drummers" expected at the resort tomorrow and Saturday. A great "prosperity parade" will be held here Saturday, the marchers passing up Broadway through the financial and commercial district.
