

AN INTERESTING CONFESSION

"THE NEW IDEA."

We have a hobby. It concerns every man, woman and child in town.

Our hobby is—but wait a moment. Suppose you are sick or one of your family is sick. You consult the best physician you know of and he gives you a prescription.

You have a right to take that prescription to any druggist, no matter whose name is printed on it. You have the same right to select your druggist that you do to select your doctor.

Particular people bring their prescriptions to us, because our hobby is prescription work.

We take the same sort of pride in compounding every prescription the very best way that an artist takes in painting the very best picture he can; the same that the conscientious doctor takes in bringing his patients back to health.

We know drugs; we know where to buy the best. We get that kind.

Appearance is deceptive. Two phonograph records look exactly alike, but the phonograph gets a \$1.00 Melba song from one and a ragtime two-step from the other. So, with drugs, the inferior look as good as the best.

Our hobby leads us to study each prescription to make it give the right results. There is no rule of thumb, no guessing—simply, accurate, scientific work done by men who know and love their profession. If there is any surer way than this we can't imagine what it is. And besides—

Any physician who knows us will tell you "we do things right." The best way for you to know is for you to bring your next prescription here where such work is not regarded as a druggery, or a necessary evil, or as a good chance to get a big price for something—but where it is a "hobby"—where it is looked upon as the most important service we can render to our fellow-man.

The price! We haven't said anything about the price. That won't bother you for a moment. We want all the prescription trade we can get. It would be foolish for us to charge too much. We can afford to charge a little too little, for the sake of building up a branch of our business in which we are very keenly interested.

When you have a prescription, remember our hobby. Remember, too, that we will call for your prescription and deliver the medicine—phone us at any hour.

OPEN MAXWELL DITCH ACROSS YATES RANCH

NO MORE INTERFERENCE IS EXPECTED FROM OWNER

Reclamation Service, Once Put to Rout by Shotgun, Begins Work Again—Congressional Bill of Great Importance to Project Settlers—Short News.

(Special Correspondence)

Hermiston, Ore., June 22.—Yesterday morning the reclamation service started a large force of men and teams to work cleaning the old Maxwell ditch across the Fred A. Yates ranch. No further interference is expected by the reclamation officials. Yates is the rancher who a few weeks ago stopped work by coming to the front with a shotgun brigade, and has since secured a temporary restraining order from the county court, which was dissolved by Judge Bean the latter part of last week.

The bill passed yesterday in the house of representatives allowing the assignment of homestead entries under government irrigation projects, and all that remains to make it a law is the president's signature. This bill is of much importance to every settler on the Umatilla project, as it will allow an entryman to sell his claim at any time to any one no matter whether the assignee has a homestead right or not. For instance, should an entryman after living on his claim two years desire to sell, he can do so and the new entryman will only have to live on the claim three years before making final proof, as in the past he would have to start over again and live the full five years.

Miss Ellen Canfield has returned from Corvallis, where she has been attending the Oregon state agricultural college the past school year.

Mr. and Mrs. W. A. Mabson left today for Troy, Alabama, where they expect to make their home for the present at least. W. L. Thompson has taken the Hermiston hotel and in the future will always serve the traveling public.

J. Johns of Pendleton, spent yesterday in Hermiston transacting business.

The baseball league trophy cup presented by the Reach company, has been received from the Columbia Hardware company of Portland, Ore., by President F. A. Phelps of the Umatilla Irrigation league and is now on display. All members of the Hermiston Athletic association are confident of adding this handsome trophy cup as well as the official pennant to their collection of trophies.

HELL GATE CONQUERS HIM.

Raftsmen Nearly Loses Life Trying to Drive Log Through It to Prove His Skill.

New York.—Driving a 20-foot log through the treacherous current of Hell Gate is different from shooting the rapids of the Penobscot or the Piscataquis rivers, as Edward A. Chase, a raftsman from Maine found out.

He undertook, in a display of his skill, to drive the log from Scaly Rock on the Astoria shore, to the foot of East Eighty-sixth street, Manhattan, and narrowly escaped losing his life when it was sucked under one of the big government dredges anchored in mid-stream off Flood rock. It was in answer to a warning shout from Commander J. M. Finch of the Hell Gate division of the United States Volunteer Life Saving Corps that Chase saved himself by leaping from the log onto the dory which followed him.

REV. SAM SMALL SPEAKS AT ATHENA

TRAVELING EVANGELIST TALKS TO LARGE CROWD

Delivers Sermon on "His Majesty, the Devil"—Second Annual Sunday School Picnic Is Held.

(Special Correspondence)

Athena, Ore., June 22.—Rev. Sam Small, the traveling evangelist, delivered a lecture in this city last night at the First Methodist church, on the subject of "His Majesty, the Devil." A large crowd was in attendance and everybody was well pleased with the splendid sermon given by Mr. Small. His wit and humor all through his lecture was a striking feature and Mr. Small kept the audience smiling throughout the evening.

The second annual Sunday school picnic embracing all of the Sunday schools in Umatilla county was held here today. A large number of people from the neighboring schools assembled in the city park where a splendid program was given. People from all the Sunday schools brought their lunches and at noon time the park was full of parties with their lunches served on the grass. After dinner races were the main feature for the young folk, and after that a baseball game between the Athena Sunday school and the other schools combined took place, in which the local team were the victors.

A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate stomach, liver and kidneys purify the blood; give strong nerves bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at Tallman & Co.
