Drop of About 10 to 15c Shown in Both That Line and Sheep at North Portland-Run is Quite Good.

Portland Union Stockyards, North Portland, Ore., June 22.-A weaker feeling is shown in cattle and sheep. but hogs are firmer with an inclination to advance.

There was a fairly good run of hogs cattle and calves today and a contin-uance of the good run of sheep. Some of the poor quality cattle held over from the first of the week, are still unsold in the yards. Packers say they cannot possibly take care of additi-onal supplies in this line and it benooves shippers to follow their advice. If this is not done it means lower prices all around. That is the opinon of the trade in general.

Sheep market shows a loss of about 10c to 20c from recent sales and buy-ers are taking hold very sparingly. Among the Shippers.

Wilson Creek, Wash.-The first ork of the "hobe" season occurred saturday evening when the Blue ront saloon and the Pioneer meat narket were broken into. A spike is used in both cases, and the back oors forced in. They secured a dolar's worth of postage stamps, some des of bacon and about 59 pennies it the meat market. In the saloon hey got about \$8, the contents of the ash register, four bottles of whisky everal boxes of cigars, besides pipes nd a quantity of tobacco. As it is ather early in the senson for petty thicking to begin there was no night ratch on duty, and no trace of the ourgiars discovered,

Manager Lambert of the Maroons, an interview, said that the offer of the Wilson Creek team to play the Colville ball tossers for that \$500 curse and the championship of the pland empire, had not been answerd by the anager of the Colville team though the latter gentleman has een giving out long articles to the Spokane papers about his willingness meet the Wilson Creek bunch on pokane grounds.

AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

New Perfection Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone use it yourself, or talk to someone who has used it. It does everything that a coal range will do-except heat the room. The New Perfection Oil Cook-

Stove will do anything, from heating a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and rected against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed —and nowhere else. With this stove your kitchen is cool.

The nickel finish with the bright blue

of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

NEW PRINCE OF WALES IS 16 YEARS OLD

London, June 23 .- England's future monarch, Prince Edward Albert, old est son of King George, rounded out his sixteenth year today by assuming the title of Prince of Wales. He was born June 23, 1894. Two years ago he began to prepare himself for a naval career, like his father before At Osborn College, where he has

been studying since 1907, he has made himself popular with his fellow stulents by the genuine, unaffected simicity of his manner. He resembles he Hanoverians in looks and coloring, and is a sturdy boy, a conscien tious, hard worker rather than a bril liant student. His hobby is animal pets, of which he has quite a num ber. It remains to be seen whether the plan of making him a sailor prince like his father, will be carried out now that he has become the direct heir to the throne.

His brother, Prince Albert Fred erick, the second son, who is already a cadet in the royal navy, was born at York Cottage on December 14, 1895. The only daughter, Princess Victoria Alexandra, followed, also at Sandringham, on April 25, 1897 Prince Henry William was born or March 31, 1900. Prince George Edward made his appearance on December 20, 1902, while, finally, the baby Prince John Charles, arrived on July 12, 1995. The children are much devoted to each other and to their ca-pable, wise mother. They share her popularity with the people, who have been more than enchanted with the beautiful home life of the royal cou-

The two older boys, the enthusiasts about hunting, and expect to be allowed to follow the hounds ere long. As becomes future navy commanders they are deeply interested in yachting, and it is said that they are both good boxers, the younger however, often pressing his future sovereign close. The younger children are as yet happy in the unspoiled, simple, natural way which a sensible system of education has made possible for them.
