Settled Fire Loss.
O. F. Steele of Nolin, was here yesterday and while in the city was paid the sum of \$1750 in settlement of the insurance policy which he carried upon his home at Nolin which was recently destroyed by fire. The insurance was carried with Bentley & Leffingwell and the loss was adjusted by W. Harvey Wells who came up from Portland for that purpose.

Wanted to Pay Fine.
Roy Norton, son of A. W. Norton, both well known ranchers, came to town this morning and asked permission to pay a fine for slapping N. Joerger, who has his place rented. The elder Norton was fined a few days ago for assaulting Joerger so the officers thought they would wait and see in what condition Joerger appeared, before disposing of the case by allowing the younger Norton to pay a fine.

United Orchestra Popular.
That the United Orchestra is more popular than ever is demonstrated by the fact that its services is constantly in demand. Tonight part of the organization plays for the smoker given in honor of the bankers and part goes to Hermiton where there is to be a dance. Tomorrow night the orchestra will furnish music for the bankers' banquet at the Quella and also play at Stanfield where another one of those pleasant dances will be held.

Elks Had Social Session.
Last night was a jolly occasion in local Elksdom and not for several months have the members of Pendleton lodge 288 been out in such force as they mustered in their new hall last night. During the evening two candidates were initiated and following that ceremony a social session was taken up. Entertainment was provided by members of the vaudeville troupe at the Grand theater and by Jack Keefe of Weston. As an amateur entertainer the affable principal of the Weston high school has no superiors in this section. Last night he sang and recited for his brother Elks and his performance was greeted with rapturous applause. The other number upon the social program were also well received.

Inspector Had Warned.
William A. Dalziel, deputy labor commissioner and factory inspector, is in the city today, having arrived this morning. In reference to the accident at the Pendleton creamery yesterday which caused the death of Proprietor O. F. Harper, Mr. Dalziel asserts no blame can be attached to his office. He was last here on January 19 at which time the machinery was being installed in the present creamery location. He made no formal inspection of the plant as the machinery had not all been installed. But he says he warned Mr. Harper regarding the wedge key which yesterday brought about his death. At that time the proprietor laughed at the recommendation, so the inspector asserts. Since the accident yesterday changes have been made at the creamery looking towards making the machinery safer.

Windows Are Decorated.
Show windows of local business houses are especially decorated today in honor of the convention of bankers. In the window of the Ingram Grocery company there is a money exhibit of gold and silver which has kept a crowd in front of that store all day. At the Taylor hardware store there is a very appropriate exhibit of the county's principal resources, wheat and wool. A separate window is devoted to each and in each there is everything from the raw product to the finished material. The Peoples Warehouse has an elaborate display of Indian robes with an Indian form in blanket as the principal figure, while the Alexander department store also has an appropriate Pendleton Indian robe window. The American National bank exhibit in the Wohlenberg store window is also attractive, while the display of old and odd coins and paper money of various kinds at the La Dow & Peterson store and the George Clark Grocery, have attracted no little attention.
