1200 ACRES BEING SET TO FRUIT TREES

New Plymouth, Idaho.—Fully 1200 acres of fruit trees have been set out this spring within a radius of four miles from New Plymouth. All of 1000 acres of this spring's planting has been done south and east of town. This section of the famous Payette bench will be a remarkably rich and productive section within the next five years when the large acreage in fruit trees planted during the past two years comes into bearing.

One of the largest orchard tracts planted in the New Plymouth vicinity this spring is the 200 acres belonging to the New Plymouth Land & Colonization company. The preparation of the soil, the planting of the trees, the irrigating of them, are being done under the personal supervision of Walter Burke of New Plymouth, who is conceded to be one of the best and most practical men for this work in the state. Perhaps no man in Idaho has actually planted so many fruit trees during the past five years as has Mr. Burke.

Probably the largest orchard planting by one company is that done by the Payette Valley Orchard company, which has set out 270 acres of fruit trees under the personal supervision of Bernard Eastman, who has proved to be highly efficient in this work.

It will face D street, between C and E. The walks nearly 1000 feet in all, will be of paving brick, laid flat, with cement curbs.

The general style and finish is very similar to the fine new depot at North Yakima, the only difference being that the Ritzville depot will be somewhat smaller.

HOLY RELIC STOLEN; AMERICA SUSPECTED

Rome.—An outcry against "American stealing" of works of art is again ringing throughout the peninsula. This time, also, the "crime" has been committed not far from Ascoli, where, as readers will remember, was stolen the famous cope of Pope Nicholas, which was bought in good faith by J. Pierpont Morgan, who generously returned it to the Italian government without asking the refunding of what he had paid.

What caused the present agitation is the disappearance from Leonessa of the heart of St. Joseph, which was preserved there in an artistic and historic reliquary. Of course, it is not the heart of St. Joseph, the father of the Virgin Mary, but of another saint born in Leonessa in 1556, who was a Capucin monk, and who suffered martyrdom at the hands of the Turks.

The faithful are horrified by the theft of the sacred relic, and art lovers by the loss of the precious casket, which was in solid silver, weighing over fifty pounds, and chiseled by a

pupil of Benvenuto Cellini. It stood three feet high.

It seems originally to have belonged to Charles V, who gave it to his daughter, Marguerite of Austria, who first married Alessandro de Medici. She had a second husband, Attavio Farnese, and was mother of Alessandro Farnese, afterward Pope Paul III. The reliquary had an inscription referring to the Farnese and Cardinal Farnese's coat of arms, consisting of six lilies.

The head of St. Joseph was presented in the seventh century by Prince Orsini to the Capucins of Leonessa, who preserved it in a reliquary given in 1646 by Cardinal Francesco Maria

Farnese. An old inventory attributed to this work of art the value of \$760, but it is now considered priceless.
