PERSONAL MENTION

J. P. McManus came in from Pilot Rock yesterday afternoon.

J. H. Jones arrived in Pendleton this morning on the Northern Pacific train.

William Daughtrey returned this morning from a visit to the west end of the county.

Mrs. J. F. Kimball was an incoming passenger on this morning's train from the north.

Bert Campbell has returned from Milton where he had been on a two-weeks business trip.

Theodore Howard, the architect, returned this morning from a business visit of a few days to Pasco.

County Surveyor John Kimbrell returned this morning from a trip to the west end of the county.

Mrs. M. L. Hasbrouck of Prairie City, is visiting at the home of Mr. and Mrs. E. D. Weaver in this city.

County Commissioner Horace Walker and wife, came up this morning from their ranch at Stanfield.

William Lowell, who attended the University of Oregon during the past year, has returned to Pendleton for the summer's vacation.

Mr. and Mrs. A. H. Sunderman arrived this morning from their ranch on Butter creek, where they have been spending the summer.

Rev. Charles Quinney, rector of the Church of the Redeemer, returned this forenoon from Seattle where he had been to attend a meeting.

Charles H. McCoy, agency manager for the Equitable life with headquarters in Spokane, is among those in attendance at the bankers' convention.

J. W. Maloney returned this morning from Portland where he attended the Knights of Pythias grand lodge. He was re-elected as grand master of exchequer without opposition.

Newsy Notes of Pendleton

Official Weather Report.

Maximum temperature, 92.
Minimum temperature, 42.

Soldiers to Pass Through.

Three trainloads of soldiers will pass through Pendleton this afternoon and evening. They are en route from Fort Crook, Nebraska, to Seattle.

Fish in Ice.

A beautiful rainbow trout, caught yesterday by G. I. La Dow, has been on display today in the window of the La Dow & Peterson store. It is frozen in a cake of ice.

Two Marriage Licenses.

Marriage licenses were issued today to Corwin E. Waldron of Canada and Mary Louise Holbrook of this county and to A. A. Kees and Miss Henrietta Carlisle of Weston.

Joseph Haaga Cannot Live.

Joseph Haaga, foreman of the Furnish ditch for many years, is lying at the point of death in St. Anthony's hospital. He is suffering from cancer of the stomach and cannot live more than a few hours or days.

Judge Bean in La Grande.

Circuit Judge H. J. Bean left this morning for La Grande, being invited to a Grande Ronde water suit which is coming up in the courts there for a preliminary hearing. He will be back on duty Monday.

Planing Mill Busy.

Three new workmen have just been added to the force at the Forster planing mill, the increased force being made necessary by the receipt of some good orders from various points in this section.

Goes to Fraternity Convention.

James Johns, Jr., who has just completed his sophomore year at the University of Oregon, returned home on this morning's train for a few days' visit. He will leave Thursday or Friday via the Canadian Pacific for Saratoga Springs, New York, to attend the convention of the Beta Theta Pi fraternity to which he is a delegate from the Oregon chapter.

Cabbage Hill Strawberries.

Mrs. Mary English, who lives on Cabbage Hill, was in the city yesterday and brought the first strawberries from that section this year. The berries are of a splendid quality and show that Cabbage Hill is adapted to berry raising as well as to orcharding. The berries were raised without irrigation. Mrs. English also has an apple orchard that promises to be very profitable.

Mrs. Nolen Wins Preliminary.

Mrs. Ralph Nolen has won out in the preliminary round of her fight to prevent her husband from securing a divorce. Judge Bean yesterday ordered him to pay her \$75 to be used as attorney fees in fighting the case, \$50 for witness fees, \$30 per month alimony, pending the settlement of the case and \$90 to pay her expenses in coming out from the east to fight the case.

Harper Funeral Tomorrow.

The funeral services over the remains of the late O. E. Harper will be held at 3 o'clock tomorrow afternoon from the Presbyterian church. The services will be conducted by the Rev. W. H. Blankney, pastor of that church. At the cemetery the service will be by the Knights of Pythias, of which order the deceased was a member. The members of Damon lodge No. 4 of this city have been called to meet in Odd Fellows hall at 2 o'clock preparatory to attending the church service in a body.

Baptists Will Meet.

The Umatilla Baptist Association meets next week Tuesday, Wednesday and Thursday with the New Home church between Milton and Walla Walla in this county. This meeting represents the Baptist churches of the counties from Umatilla to Sherman. The delegates representing the Pendleton church are Rev. and Mrs. R. E. Storey, J. H. Morris, Mr. and Mrs. L. E. Penland, Mrs. D. A. Hall, Miss Etta Baker, Miss M. Fern Edwards, Mr. and Mrs. F. K. Welles, W. W. Harrah, Ben F. Hill, R. H. Wilcox. Others are expected to attend from this city. Various speakers from Portland, California and other points will be present.

Special Rates to Big Fight.

Local Agent T. F. O'Brien received word this morning that the O. & N. and Southern Pacific would make special rates from Pendleton and all other points in the inland empire, to the Johnson-Jeffries battle at Reno. The rate will be \$33.75 for the round trip from Portland to Reno and will be one and one-third from this city or any other city this side of Portland. That makes the round-trip rate from Pendleton \$42.90. The sale will commence June 30 and the tickets will be good for 14 days from date of purchase. Individual tickets will be sold but there must be parties of 15 from each point in order to get the rate.

Burglar Is Quickly Apprehended.

A colored man, giving the name of William Hodgen and classified by the officers as a tramp burglar, was arrested this morning by Sheriff Taylor and Chief of Police Gurdane. He is charged with having burglarized the house of R. Moss, three miles east of Pendleton on the reservation. It is alleged that he went through the house last evening, taking a shotgun and a quantity of canned goods besides ransacking the house. He brought the gun to Pendleton and disposed of it this morning at a local pawnshop. A short time thereafter he was found by the two officers, just west of town. He admits pawning the gun but says he found it in the road. As he was seen to enter the Moss house, a trip to the penitentiary undoubtedly awaits him.

BANKERS SPEND DAY AT WENAH

(Continued from page 1.)

ernment demands a royalty of 50 cents or \$2 per ton for the coal that is mined, it is not the miner that is compelled to pay this charge, it is not the company that takes it from the mine, but it is the man who uses it to create power to turn the wheels of industry, it is the man who burns it in his cook stove or heater, who eventually pays this 50 cents or \$2. And whether 50 cents or \$2 is charged, the manufacturing industry of the northwest is crippled to that extent. Thus a charge is placed upon the manufacturing interests in this part of the country that is not placed upon those in any other part of the union.

"Why was not this policy of leasing our natural resources put into effect years ago? Why can we not have our lands and our water power on the same plan as the older states obtained theirs?"

"The magazines and papers are full of tommyrot about somebody trying to steal something from the people. A bureau has actually been formed at Washington which has an equal in no other bureau of publicity in America. From this bureau there are sent out broadcast, misstatements, false statements and half-truths, to the great detriment of the west."

"There is a total of 66,518,000 horsepower available in the United States. Twenty million of this is east of the Mississippi river. The balance is in the west. In the rivers and streams flowing into the Pacific ocean, there is to be found 38,000,000 horsepower, the balance of the difference between the 20,000,000 and the 66,518,000 flows from the west into the Mississippi river."

Says Monopoly Is Impossible.

"If a dam were built at every mile or at every point in the Deschutes river at which a dam could be built, until the full 1,600,000 horsepower were developed, the water in the stream would not be destroyed."

After it was used by the first mill, little or big, at the head of the stream it would be passed on down to the next until the entire 100 or more mills and factories or electric power plants were served. There could be no monopoly of the power possible because it would be impossible for any man or group of men to buy or get control of the entire river."

"More than one-third of all the available horsepower in the United States is to be found in the basin of the Columbia river and the Puget sound. There is 24,000,000 horsepower here of which only 450,000 is developed. If the undeveloped power should be developed at the rate of 10,000 horsepower per year it would require 2400 years or 500 years more than the period from the Christian era to the present time. If it should be developed at the rate of 100,000 horsepower per year it would require 240 years or eight generations, to develop the full amount available. And yet men, men who we once considered able and reliable, have the audacity to write in magazines and to declare from public platforms their belief that there is danger of someone coming here and grabbing up all this waterpower. It is perfectly ridiculous. I wish they would come out and grab it up. I wish they would come out and help us develop it. Help us build dams, erect factories and construct electric roads. We should welcome them with open arms. But instead they have been grabbed by the forestry service."

Water Saves Coal.

"In the city of Spokane we have developed 75,000 horsepower and if we had not done so it would require annually a million tons of coal to produce the power thus obtained. A million tons of coal taken from the mines, leaves a million tons less than there were before. The coal and wood may some day be consumed but it is impossible to consume water power. The rivers of the west are flowing toward the sea just the same as they were a thousand or ten thousand years ago and just the same as they will be flowing for ten thousand years to come. It is impossible to consume the water. The time is coming, and it is not far distant, when the railroads of the country will be run by electricity, not steam."

No Tax on Government-Owned Power.

"If the government owns this water power after it is developed as well as before it will be impossible for the people of the states in which the power sites are located to obtain any returns in the shape of taxes. Indeed, it will not only be impossible to tax this resource, but the people of the west will be compelled to pay the government a royalty for the privilege of developing and using it."

"The water power and other natural resources should be turned over to us as under the old plan or it should be turned over to the states and I think that President Taft should not oppose this latter plan. The states have the machinery to control and regulate this thing, but the national government has not."

Government Does Not Own Water.

"But in the first place the government does not own a single drop of water in any stream in the country. It all belongs to the states and yet the

The Busy Boston Store Now Located at 725 Main Street West side between Alta and Court Sts.

government is actually accepting rental for the use of the water in the forests. It is taking revenue for the use of something which does not belong to it. The government has a right to navigate the streams just as any person has a right to walk along the streets of a city he does not thereby acquire any right to ownership therein; neither does the government acquire any right to ownership in the streams because it has the right to navigate them. The state cannot obstruct navigation, but nevertheless it owns the water in all the streams within its borders."

If all the water power should be turned over to the states of the west, the time will come and come speedily when the manufacturing of the country will be done on the Pacific coast. When that time does come it will be seen that the question of the development of the water power does have a little bearing upon the banking interests of the Pacific coast."

STRANGE GOOD FORTUNE.

Idaho Lady Gets Millions From Forgotten Sweetheart.

Coeur d'Alene.—To be the beneficiary of a bequest of three quarters of a fortune of \$7,000,000 from a sweetheart of her youth seems to be the good luck that has overtaken Mrs. Dolly Baker, who lives on a small ranch a few miles north of Coeur d'Alene.

The bequest was made by Arthur B. Travis, a cattle king of Australia. Mrs. Baker has just returned from Helena, Mont., where she went to meet R. J. Fillmore, a New York lawyer, who has the settlement of the Travis estate in charge. About a month ago Mrs. Baker received a telegram from his attorney stating that if she was the party that obtained a

divorce from W. J. Grant at Helena in 1890 she was one of the heirs that he was looking for.

The lawyer had learned of her location from her brother at Seattle, who had read of his quest in a newspaper and had notified him where his sister was located. At the time of receiving the telegram Mrs. Baker had no idea who her benefactor could be, and all was a complete mystery to her.

Engaged in Cattle Business.

The attorney stated that Arthur B. Travis, formerly a cattleman in Montana, had left the United States 20 years ago and had gone to Australia, where he engaged in the cattle business and amassed a fortune of \$7,000,000. He died there two years ago, and in his will bequeathed one-fourth of his fortune to his half-brother providing that he was found in three years, and three-fourths to the woman who was divorced at Helena from W. J. Grant in 1890—and that the entire amount was to go to the woman if his half-brother was not found in the required time.

Mrs. Baker proved by her divorce decree that she was the Mrs. Grant, and as only one year yet remains for the discovery of Travis' half-brother, she may obtain the entire \$7,000,000. Mrs. Baker says that 23 years ago Arthur B. Travis was a sweetheart of hers in Montana, and that he evidently had not forgotten her when he died. R. P. Fillmore, the attorney, has gone to Australia. He stated that he thought he should have no trouble in having the authorities accept Mrs. Baker as the rightful heir. He will stop here upon his return.

Every rational woman should regard her husband as an axiom.

For Rent—Furnished house, 301 Thompson. Phone Black 3871.

FOR SALE

1400 acre stock ranch 10 miles from R. R. station, 10 miles from store and postoffice, 4 miles from school house. Two good dwellings, one 7 room and one 5 room, 2 barns and one more barn under construction. 100 tons or more of hay goes with the place. 3 good orchards, plenty of water the year round. There is enough hay land on this place to put up 200 tons of hay every year.

Forest reserve for band of sheep goes with this place. I consider this place one of the best buys in Umatilla Co. for a sheep ranch. The land lays in such a way that it controls about three thousand acres of range, all for \$9.50 per acre. \$7000.00 cash, balance easy terms at 6 per cent.
