"Davy Jones' Parrot." Vitagraph comedy, 1000 feet. Full of startling and side-splitting situations.

Michigan in Lead.

An Arbor, Mich., June 30.—Michigan leads all the universities of the country in the number of registered alumni, according to figures compiled by the alumni association, in session here today. The total is 28,330, covering the entire country.

The state of Michigan has the largest representation, naturally, 8,251, or 31 per cent of the registered alumni residing within the state. Next comes Illinois with 3195. Ohio has 2392 Michigan graduates as residents. New York has 1854, and Indiana 1,313. The far western state of California has a grand total of 1093 alumni residing there. All through the west are large bodies of Michigan men. Washington is especially well supplied with citizens who have benefited by Michigan instruction. Among the middle western states Minnesota and Missouri stand high on the list.

The more efficient organization of this great body of graduates is the problem which is at present occupying the attention of the leaders of the alumni association.

Germany to Start Big Ride.

Berlin.—A number of German southwest Africa sportsmen are organizing a ride from Luderitz bay, German Southwest Africa, to Berlin, a distance of not less than 8000 miles. Herren Frothing and Grungeman have been elected as riders.

Kaiser's New Dreadnaught.

Berlin.—The fourth German Dreadnaught, the Posen, has been commissioned. This completes the division of four Dreadnaughts—Nassau, Westfalen, Rheinland and Posen—which is ready for active service. A second division of Dreadnaughts will be ready for active service in 1912.

"ST. PETER" GOES TO JAIL.

Fraud Practiced on Moravian Peasants Soon Detected.

Buda Peth.—Remarkable frauds have lately been practiced upon credulous Moravian peasants in the neighborhood of Neurtsehein by a shrewd workman who foresaw in the local superstition and terror at the approach of the comet a fine opportunity for raking in profit.

The end of the world was preached so laying aside his tools two weeks beforehand this ingenious schemer walked to the village of Zubei and knocked at the door of a rich widow reputed both devout and simple-minded. "I am," said he, "Saint Peter. The world is going to end within a fortnight and the Eternal Father has sent me to earth to warn the good people and invite them to reserve their souls in paradise by furnishing me with the small sums needful to aid me in informing the world which as you may easily figure out for yourself, I will never be able to do on foot before that time, even if I merely confine my work to Moravia alone. And the following day will be too late!"

The widow listened with great respect and never doubted for an instant that St. Peter in person was standing before her. He asked his hostess what sum she contemplated donating toward her place in paradise. She replied that her money was all in the local savings bank, and that she had only \$2 in the house, but she would willingly give those.

"You forget two things," responded St. Peter, "the first is that your place in heaven is reserved for all eternity and ought to be worth a good deal of money to you; and the second is that in two weeks' time all the money you have in the bank will be of no use to you!" The widow declared herself convinced by these arguments and started off with the celestial messenger for the bank, after handing him the \$2 which he said would be of use to him.

At the crossroads they parted and St. Peter promised to call around the next day to get the money.

At the bank of Raffelsen, the widow told the story of her marvelous adventures to the cashier, who expressed strong doubts about the heavenly mission of St. Peter. "Ah, but I know he is all right," said the widow, "he carries two great rusty keys with him which any one with half an eye can see are the keys of paradise!"

The cashier strongly urged her to report her adventure to the police chief and she finally consented.

Next day the saint was punctual. He counted on the widow's credulity, but forgot that a woman must talk to some one. He was neatly seized upon in the dingy prison of Neurtsehein.

Situation Wanted by Miner.

Being here and being a number 1 miner, but old—don't either smoke or drink; strong and willing—would like to go to the mountains and do development work or sink a shaft for some good lawyer, or other good mining man. Mining of any kind, or other hard work. Will soon leave for Salem if not employed. Care Bill McGregor, blacksmith.

Sheriff Has Merry Chase.

North Yakima, Wash.—After riding through Yakima, Kittitas, Pierce and King counties in a search for two supposedly stolen horses and after having aroused the sheriffs of all the counties to assist in the search, Sheriff Joe Lancaster of Yakima county returned Tuesday and found the horses grazing near the pasture from which they were supposed to have been taken. The owner insisted that they had been ridden a long distance, but the sheriff thinks they simply strayed away.

LAKE COUNTY CANALS EMPLOY 300 LABORERS

Lakewood, Ore.—Three hundred men are employed on the Oregon Land company's irrigation canals in Lewis creek canyon. They are ready to begin work on the big flume. The work has reached such a stage that in a short time a part of the crew will be transferred to the south canal. That canal will be about 12 miles in length, with an average width of 15 feet on the bottom. Superintendent Hansen is pushing the work, and inasmuch as there were 42 miles of main canal built last season he has no doubt of being able to complete the work this season so that water can be used next spring.

Los Angeles 4, Sacramento 0.

Los Angeles, June 30.—Sacramento's ragged team play yester, coupled with six errors, gave Los Angeles four runs and a shutout victory. The Senators went to pieces in the eighth and the Angels scored three runs on three hits. Castleton, the new Angel pitcher, proved invincible. Score: R. H. E. Los Angeles 4 7 0 Sacramento 0 4 6 Castleton and Smith; Fitzgerald and Thomas.

Portland 4, Vernon 0.

Portland, Ore., June 30.—Carson's wildness in the first inning of the game yesterday between Vernon and Portland was responsible for the defeat of the visitors by a 4 to 0 score. Carson became tame as could be after that but the fat was all in the fire. Gregg was fairly liberal with passes but he was unusually stingy with hits and Vernon could not get a man across the plate as hard as they tried. The score: R. H. E. Vernon 0 2 1 Portland 4 0 3 Carson and Hogan; Brown; Gregg and Fisher.

Jeff's Measurements.

Moana Springs Training Camp, Reno, Nev., June 29.—The California bear was officially measured today by Trainer Roger Cornell. The story told by the steel tape of Jeff's last 18 months of training for the battle of the race next Monday is eloquent. The tape showed:

Height, 6 feet 1 1-4 inches.
Neck, 18 1-2.
Chest, normal 46; expanded, 51.
Waist, 35 1-4.
Thigh, 25.
Calf, 15 3-4.
Biceps, 16 1-4.
Forearm, 13 1-4.
Wrist, 8.
Ankle, 10.
Reach, 75.
Age, 35 years.
Weight, 215 pounds.
Imagine Jim Jeffries with a 35 inch waist. This big grizzly who carries the hope of the white man on his mammoth shoulders boasts a waist that many a man who calls himself slender would be proud of.

Jeff was measured after he had returned from a half hour's hike on the road. During the course of the hike Jeff made a number of sprints. After he had been rubbed down and measured he played cards with a number of his friends.

OIL INDUSTRY AT CRISIS.

Prices of Russian Naphtha Continue to Go Down.

Copenhagen.—A crisis is impending in the Baku oil industry. In spite of navigation having been opened for some time the prices for Russian naphtha continue to fall. Never have prices offered been less and the stocks in hand are immense. They are principally held by the largest concerns, such as Nobel and Masut who are apparently willing to let the quotations go lower still.

There is no doubt that a further decline in prices, or even the maintenance of the present quotations, will make it impossible for many small firms to continue working, as the cost of production will exceed the financial returns.

To begin with the boring contractors will be the losers, through a partial stoppage of boring work, and then must follow the liquidation of most of the small naphtha concerns. To crush out these little men is apparently the aim of the big operators.
